REPORT

OF THE

SELECTMEN, SURVEYORS OF HIGHWAYS,

AND

BOARD OF HEALTH.

REPORT.

THE undersigned, elected Selectmen at the annual town meeting of 1880, organized by the choice of Charles H. Drew, chairman, and Charles D. Lincoln, clerk.

In November, Mr. Roland C. Lincoln, one of the board, having become a non-resident, vacated his office.

Committees on the several departments of the business of the board were appointed, as follows :—

Accounts, Mr. Candage.

Fire Department, Messrs. James and Lincoln.

Police, Messrs. White and Lincoln.

Poor, Messrs. Drew and Candage.

Public Buildings, Messrs. Whyte and James.

Public Grounds, Messrs. Drew and Candage.

Sewers, Messrs. James and Lincoln.

Street Lamps, Messrs. Drew and Whyte.

Town Stable, Messrs. James and Candage.

Town Hall, Mr. Whyte.

Subsequently Messrs. James and Candage were appointed a committee on Thayer street and sewer.

This report will present first an account of the business transacted in those departments respectively; after which will be presented a report upon miscellaneous matters not included within either of the departments in charge of the committees of the board; then the report of the Surveyors of Highways, and lastly, the report of the Board of Health. The reports to this board of officers at the head of departments of its business will be appended.

ACCOUNTS.

During the year the board has drawn 1110 orders against the several appropriations made by the town. Following is a statement of the same:—

SUBJECT OF APPROPRIATION.	Amount.	Expended.	Unex- pended.
Abatement of taxes.....	\$1,000 00	\$	\$
Assessors.....	2,200 00	2,200 00	
Auditors.....	150 00		
Cemetery, Walnut street.....	200 00	162 11	37 89
Clerk of Selectmen, and Overseers of Poor	500 00	500 00	
Clerk of Trustees Walnut Hills Cemetery.	150 00	150 00	
Construction of Brook street, &c.....	9,000 00	8,318 78	681 22
Contingencies.....	8,000 00	7,912 37	87 63
Decoration Day.....	300 00	300 00

Watering streets.....	5,000 00	4,831 20	168 80

A tabular statement of the indebtedness of the town is appended to this report.

FIRE DEPARTMENT.

The board elected George H. Johnson, Andrew Noland, and Alfred E. Kenrick, Fire Engineers. The report of the engineers will be found in the appendix to this report. The officers and men of the several companies in the department are in an excellent state of discipline and efficiency, and the buildings and apparatus are in good order. An appropriation of the same sum as was appropriated last year (\$7000) is recommended for the maintenance of this department for the year ensuing, and an appropriation of \$500 for the Longwood company. An appropriation of \$100 is recommended for the purchase of two fire extinguishers.

POLICE.

The board appointed Alonzo Bowman, Chief of Police, and fixed his compensation at \$3.00 per day. George F. Dearborn and Charles F. McCausland were appointed Sergeants, each at \$2.75 per day, and Burnham C. Clark, Mears Orcutt, Thomas J. Murray, William W. O'Connell, Burton R. Willis, George F. Marston, Albert S. Paige, Charles H. Cilley, Joseph J. O'Connell, Alonzo W. Corey, Robert J. Watson and William Miller were appointed Patrolmen. Subsequently, Alden A. Manley was appointed a patrolman in place of Charles H. Cilley, who resigned. The compensation of patrolmen was fixed at \$2.50 per day for those over three years in service; \$2.38 for those over one year and less than three years in service; and \$2.25 for those less than one year in service.

The duties of the police have been well discharged during the past year, and the force is in a good state of discipline and efficiency. The report of the Chief, which is appended hereto, shows an amount of work done which entitles him and the force to the commendation of the town. At the beginning of the year it seemed advisable to add something to the pay of all the members of the force except those who had not served one year. The pay as it now stands is less than that of the Boston police. One man was added to the force, and early in the year the board directed the detail of one man for the especial purpose of enforcing the statute respecting the sale of intoxicating liquors. The officer thus detailed has been active and efficient in the discharge of his duties. Special attention is requested to that portion of the report of the Chief of Police respecting the increase of the police force. If, upon consideration, the town should be of opinion that the recommendation of the Chief of Police should be carried out, an appropriation of \$19,000 will be necessary. If this increase is not made, an appropriation of \$14,500 will be sufficient.

THE POOR.

The duties of the committee on the poor have all been rendered in connection with the Overseers of the Poor, to whose report reference is made for information upon this subject.

PUBLIC BUILDINGS.

The public buildings (a schedule of which will be found appended to this report,) are all in good condition. During the year no other repairs have been necessary than the painting of portions of some of them. For the year ensuing no considerable repairs will be necessary. An appropriation of \$1000 is recommended for such repairs as may be required.

PUBLIC GROUNDS.

The public grounds are, in the main, in good order. The "play-ground," so called, on Brookline avenue, is altogether unfit for the purpose for which it was purchased, and never has been, and is not now, of any use to the public. A moderate expenditure for grading and the planting of trees would put it in fit condition for the use for which it was intended. In consequence of the proposed improvement of Muddy River and its banks, no appropriation for this purpose is now recommended. The Cypress street lot, known as the "Library Lot," is not wanted by the town, and in the opinion of the board should be sold. The estate on Heath street, purchased in 1873 for school purposes, is in poor condition. It has been occupied for some time by some town paupers. The board recommend that this property be sold. We have permitted the Brookline Athletic Club to make a track and construct seats upon the Cypress street play-ground, for the purpose of giving exhibitions of athletic sports; and we have contributed \$50 towards the cost.

SEWERS.

The plans for the construction of lateral sewers throughout that portion of the town intended to be drained by the main sewer constructed in 1877, and which, as stated in the last annual report, were being made by Messrs. Shedd & Sawyer, have been completed, and were, together with a detailed description of the same, received by us in July last. The cost of these plans and descriptions was fifteen hundred dollars, and has been paid from the appropriation specially made for this purpose.

At the town meeting held Sept. 16, 1880, the town accepted the report of the Selectmen laying out a sewer from Thayer place through the lands of E. C. Emerson and others, to and through White place and connecting with the main sewer under the tracks of the Boston & Albany railroad, opposite the depot.

This sewer has been completed, with the exception of two catch basins, one at the junction of Thayer and Washington streets, and one at the junction of Thayer street and Davis avenue, which, owing to the severe frost at an unusually early date last December, we were obliged to omit until the Spring opens. The labor in constructing this sewer was performed by contract, by Messrs. Sanborn, Dike & Brigham, the materials being furnished by the town, the work being under the direction of A. H. French, Civil Engineer, from plans as originally made by Shedd & Sawyer. For details of cost see Treasurer's report.

An appropriation of eight hundred dollars was made November 22d, 1880, for the purpose of laying a short sewer in Aspinwall avenue and St. Paul street. A small amount of material was purchased for the sewer, but owing to the lateness of the season it was impossible to properly construct the same. We recommend a re-appropriation of this amount, and that the sewer be put in as early as possible in the Spring.

Petitions have been received for one or more sewers in other parts of the town, but as the hearings in relation to them have not been completed, we are obliged to defer our report upon them until the annual town meeting. We wish to call the attention of the town to the following matters which seem to us of importance.

First, in relation to the disposition of moneys received on account of sewer assessments. As the town in times past has expended large sums of money in the construction of main and trunk lines of sewers, which have been paid for either by direct taxation at the time of construction, or by the sale of bonds, the payment of which is provided for by the sinking fund, it seems to us that all moneys received and to be received on account of sewer assessments, should constitute a fund which should be appropriated to the extension of the lateral sewers as they may be wanted,—believing that if this is done it will furnish the means for the said extensions without further special taxation for this purpose; and we offer the following vote:

Voted, That the Selectmen be authorized to lay lateral sewers in any of the streets of the town, and pay for the same from the money in the town treasury received from sewer assessments; provided, that no such work be undertaken unless there is sufficient money in the treasury received from sewer assessments, at the time of beginning the work, to defray the cost of the same.

Second, we think it desirable, if not positively necessary, for the town to adopt some kind of sewer by-law or ordinance. In the spring of 1878, the Selectmen prepared a by-law on this subject, and by request of the town it was examined and approved by the committee upon revision of by-laws, and by them reported to the town, July 2d, 1878. No action was taken in regard to it. We recommend that the annexed by-law be now adopted.

BY-LAW CONCERNING SUPERINTENDENT OF SEWERS.

SECT. 1. There shall be appointed annually, by the Selectmen, a superintendent of common sewers, who shall hold his office for one year from the first day of April of the year in which he is appointed, or until he is removed, or a successor is appointed. He shall receive such compensation as the town may determine. He may be removed at the pleasure of the Selectmen, and in case said office shall at any time become vacant, it shall be filled in the manner above prescribed for the unexpired term.

On or before the first day of February, annually, the said superintendent shall make a report to the Selectmen, containing a statement of the expenditures, income and business of his department during the preceding year, a schedule of the property belonging to the department, and such other information, or such suggestions, as he may deem expedient, and also an estimate in detail of the appropriations required by his department for the next financial year.

SECT. 2. The superintendent shall, under the direction of the Selectmen, take the general supervision of all common sewers, which now are, or hereafter may be, built and owned by the town, or which may be permitted to be built or opened by its authority; and he shall take charge of the building and repairs of the same, and make all contracts for the supply of labor and materials not otherwise provided for by the Selectmen or the town.

SECT. 3. The superintendent, whenever any common sewer is ordered to be built or repaired, shall ascertain its depth, breadth, mode of construction and general direction, and take the plan thereof, and insert the same, with all those particulars, in a book, to be kept for that purpose, and forthwith ascertain and insert on said plan all entries made into such sewer.

SECT. 4. He shall keep an accurate account of the expense of constructing and repairing each common sewer, and shall report the same to the Selectmen, together with a list of the persons and estates deriving benefit therefrom, and an accurate statement of the frontage and superficial area of the lands upon which said expense ought to be assessed.

SECT. 5. The superintendent shall enter in books, kept for that purpose, all such assessments made by the Selectmen, and shall forthwith make out bills for the same, and deliver them to the Town Treasurer for collection; and the Town Treasurer shall forthwith demand payment in writing of the said bills, in the manner prescribed by law; and if any bills or dues under these by-laws remain unpaid at the expiration of three months after demand for payment, as aforesaid, the Town Treasurer shall cause the same to be collected by the proper legal process.

STREET LAMPS.

The plan of lighting streets, as in years before, with gas and gasoline, lighting twenty-three nights per month till 12 o'clock, midnight, was continued until May 1st, when the lighting under the contract made with Messrs. E. S. Ritchie & Sons was commenced, to continue until May 1st, 1881.

During the past year five new lamp-posts have been placed and lighted, as follows: High street, three; Freeman street, one; and Englewood avenue, one; making the whole number of street lamps now belonging to the town, 477.

The contract made with Messrs. Ritchie & Sons was for the lighting and care of 472 lights, they finding lamps, reflectors, and all material necessary, and keeping the glass in the lanterns in repair for one year, for the sum of \$9000,—the lights to burn all night, and every night throughout the year.

Using gas and gasoline on the same basis it would cost to light the same number of lights, (viz: 397 gas, and 75 gasoline,) as follows:—

397 gas lights, burning from one hour after sunset to one hour before sunrise, an average of 10 hours per night for 365 nights, four feet of gas each light per hour—5,796 1-5 thousand feet, at \$2.50 per thousand, . . .	\$14,490 50
Expense of lighting, care, &c., each light, per night, 2 1/8 cts.	3,079 23
75 gasoline lights, 365 nights, at 7 1/2 cts., . . .	2,053 12
	<hr/>
	\$19,622 85

			Total,	397	75

Should the former system of gas-lighting be restored, there will be two additional gas and three gasoline lights to be added to the above list, viz. : one gas light each on High street and Englewood avenue, and one gasoline on Freeman street and two on High street.

On reference to the report of the Chief of Police, it will be seen that a large number of lamps have been found at night extinguished. The larger part of this number was found soon after the beginning of the contract with Messrs. E. S. Ritchie & Sons, and it was attributed by them to the fact of the lanterns, which had been fitted for gas, not being suitable for kerosene lamps, which are easily extinguished by an upward current of air, which would have no effect upon gas. The contractors accordingly took steps to remedy the difficulty.

THAYER STREET.

Thayer street and Thayer place, as laid out by the Selectmen and accepted by the town, have been constructed. The work was done under the direction of the Superintendent of Streets, and largely with the town teams. A small amount of work remains to be done, but the streets will be open for travel early in the spring. For details of cost, reference is made to the Treasurer's report. A portion of the awards for damages have been accepted, and the rest it is expected will be. We recommend a re-appropriation of the unexpended balance.

TOWN STABLE.

The town stable is in good condition. For particulars reference is made to the report of the Superintendent of Streets.

TOWN HALL.

The board elected Willard Y. Gross, Janitor and special police officer for the Town Hall. The Town Hall is in good order. It has received repairs during the year, costing \$500. We recommend the appropriation of the sum of \$2500 for the care and repairs of the hall for the year ensuing.

BROOK STREET BETTERMENTS.

The Selectmen assessed betterments upon estates abutting upon Brook street, but some of the persons assessed objected to the paying of betterments and filed a statement of grounds upon which they purposed to resist the collection of the same. The board, after careful consideration of the matter, and upon advice of counsel that the betterments could not be legally assessed or collected, were of opinion that the assessments should be vacated.

MUDDY BROOK.

The board employed J. W. Steere, in connection with the Boston Board of Health, to tend the tide-gate on Brookline avenue, from May 1st to October 1st, at a compensation of \$20 per month, to be paid by Boston and Brookline.

We call especial attention to the report of the Park Commissioners upon the improvement of the Brook.

WATERING STREETS.

A portion of the streets have been watered by the two town water carts, and the remainder by Messrs. James Driscoll, Cornelius O'Hearn, Philip S. Allen, and James McBurney, with whom the board made contracts upon the same terms as last year. The districts watered by the town carts and the contractors respectively are the same as were reported to the town in the annual report of 1879.

CLAIMS AGAINST THE TOWN.

A claim brought against the town for an alleged defect in Beacon street, was settled for \$150, as it appeared that the person injured could probably recover a larger sum if suit were brought. A claim for damages for an alleged defect in Pearl

street has been made by Thomas McMahon, but no suit has been begun. The Selectmen, after full investigation, believe that he has no claim which he can enforce against the town. In the matter of the claim of Mrs. Mary Mahoney, nothing has been done by her, as yet. For information respecting the suits against the town, reference is made to the report of Messrs. M. & C. A. Williams, appended hereto.

APPOINTMENTS.

The board have made the following appointments, besides those already mentioned.

Inspector of Milk, Dr. G. K. Sabine.

Special Police Officers without pay, Thos. S. Pettengill for the cemeteries and at funerals; Wm. Morrison, for the Library building; R. B. Gardner, John Bean, J. M. Woods and H. M. Bean, conductors of passenger trains on the Boston and Albany railroad, as railroad police.

Funeral Undertaker, Thomas S. Pettengill.

Probation Officer, George F. Dearborn.

Messenger of the Board, Chas. T. Lanman, and on his resignation, Harry Seamans.

LICENSES.

The board have granted licenses to sell liquors to the following named grocers: Francis H. Bacon, Wm. D. Coolidge and Solomon Burt; and under the sixth class, to the following named apothecaries: Geo. W. Bird and Warren G. Currier. All other applications for licenses to sell liquors were rejected.

James Doherty and eighteen others were licensed to collect grease, bones and other refuse matter, house offal excepted.

E. S. Holmes was licensed to keep a billiard-room in St. Andrew building, Harvard Square. Patrick M. Kelleher, Patrick Fay, Thomas J. Cusick, Jacob Morlock, Thomas

McCullough and Joseph Widger were licensed as common victuallers; Jacob Morlock, Edwin Reed, and George E. Perkins, as hotel keepers; and Mrs. B. C. Clark, Emeline Thomas, and Elizabeth McKeernan, to keep intelligence offices.

MISCELLANEOUS.

The contract for furnishing coal for the town buildings, was awarded to Shepard, Robbins & Son, at \$5.25 per ton.

After due notice and hearing, the board granted a location to the Metropolitan Railroad Company for a double track in Washington street.

After due notice and hearing, the board refused to grant a petition for a location for an elevated railroad.

Upon petition of a number of citizens, the board directed the police to require barber shops to be closed on Sunday.

The wages of the town laborers were fixed at \$1.50 per day.

The report of the Inspector of Milk and of the Probation Officer are appended.

Tables showing the property of the town and its estimated value, for which the board is indebted to the Town Clerk, who prepared the same, are appended,

SURVEYORS OF HIGHWAYS.

The board organized by the choice of Charles H. Drew, chairman, Charles D. Lincoln, clerk. Highway districts were assigned as follows:

DISTRICT NO. 1, ASSIGNED TO MR. LINCOLN.

Beacon street from Boston line to Pleasant street, Pleasant street, Longwood avenue, Kent, Colchester, Carlton, Ivy, Essex, Mountfort, Prescott, St. Paul (north of Longwood avenue), Monmouth, St. Mary's and Green streets, and Monmouth court.

DISTRICT No. 2, ASSIGNED TO MR. WHYTE.

Beacon street from Pleasant to Washington street, Harvard, Winchester, Park, Marion, Vernon, Alton, St. Paul (south of Longwood avenue), Francis, Toxteth, Perry, Holden, Prospect, School, and Pierce streets, and Summit, Harvard, and Aspinwall avenues.

DISTRICT No. 3, ASSIGNED TO MR. JAMES.

Washington street from Boylston street to Brighton line, Beacon street from Washington street to Brighton line, Cypress street from Boylston street to Washington street, Boylston street from Cypress street to Newton line, Tappan and Brighton streets, and Davis, Gorham, Fisher, and Englewood avenues.

DISTRICT No. 4, ASSIGNED TO MR. CANDAGE.

Boylston street from Cypress street to Washington street, Walnut street from Cypress street to Washington street, Washington street from Boylston street to Boston line, High, Irving, Pearl, Emerald, Flora, and Juniper streets, and Brookline, Pond, Morss, and Walter avenues.

DISTRICT No 5, ASSIGNED TO MR. DREW.

Walnut street from Cypress street to Boylston street, Cypress street from Boylston street to Chestnut street, Sewall, Chestnut, Warren, Dudley, Heath, Pond, Hammond, Grove, South, Newton, Clyde, Cottage, and Avon streets, and Goddard avenue.

Mr. Lincoln having removed from the town, and thereby vacated his office, his district was assigned to Mr. Drew.

Michael Driscoll was appointed Superintendent of Streets at a salary of \$1200 per year. His report is appended. The duties of superintendent have been performed to the entire satisfaction of the board, and it is believed, of the town.

The board, finding that there had been an encroachment upon Brookline avenue by the owners of three estates, and on Harvard street by one abutter, ordered these encroachments to cease, and the houses, which on Brookline avenue projected into the street, to be set back.

Longwood bridge has been repaired at a cost of \$243.52. We have made a contract for the laying of concrete upon the bridge, without cost to the town, unless, after sufficient trial, it shall prove satisfactory. It will be necessary to re-appropriate the remainder of the appropriation (\$256.48) for the purpose of paying for the work, if it shall be accepted by the next Board of Selectmen.

The sidewalks are in fair condition. The concrete walks will need some repairs, and the board-walks in some streets should be replaced with plank or concrete walks. In some streets, where there have been no other than gravel walks, plank or concrete walks should be laid. There are also some petitions on file for concrete walks which it may be proper for the next board to grant.

The board recommend that the sum of \$16,000 be appropriated for the maintenance of highways for the year ensuing ; for sidewalks, \$5000 ; also, the sum of \$2000 for the removal of snow.

For the convenience of citizens the board append a list of the streets of the town, prepared for them by the Town Clerk.

BOARD OF HEALTH.

The Board of Health organized by the choice of Charles H. Drew, chairman, and Charles D. Lincoln, clerk. Dr. George K. Sabine was elected agent of the board, at a salary of \$200 a year. His report is appended hereto, and reference is made to the same for details of the work of the board.

Francis Mealy was employed to remove house-offal for \$250 per year.

The board have devoted much time to the matter of the so-called "sewer in the village," which has become a serious annoyance, if not a positive nuisance. We are not yet prepared to recommend definite action in the matter, but we hope to do so in season for the action of the town at the annual meeting.

The health of the town has been generally good, and the death rate (but little over fifteen in one thousand) shows that the town is in a peculiarly good sanitary condition. This death-rate is very much less than that of Boston, and considerably less than that of most country towns.

A statement of the appropriations recommended, is appended.

Respectfully submitted.

CHARLES H. DREW,

of Health of the Town of Brookline.*

A P P E N D I X
TO
REPORT OF SELECTMEN.
1880-81.

Report of the Fire Department.

To the Selectmen of the Town of Brookline.

The Fire Department of this town consists of three hose companies and one hook and ladder company. There has been one hose company organized and attached to the old organization the past year. The hose companies are located as follows: Hose Company No. 1, in the brick house, corner of High and Boylston streets; Hose Company No. 2, in the brick house on Washington street; and Hose Company No. 3, in a shed alongside the Club stable, in Longwood. Hook and Ladder Company No. 1 is located in the same house with Hose Company No. 2, and Steam Fire Engine No. 1, in the house with Hose Company No. 1. There is no company attached to the steamer, but it is run in connection with the hose companies. Last year, the sum of four hundred dollars (\$400) was appropriated for the Longwood company, so as to make it a part of the regular fire department: and as it was only a paid force for nine months, the Engineers of the department would recommend that the sum of five hundred dollars (\$500) be appropriated the present year, so as to continue that organization.

APPARATUS.

Hose Carriages No. 1 and No. 2, are comparatively new and in good condition, also Hook and Ladder Carriage No. 1, which was purchased the same time as Hose Carriage No. 2. Steam Fire Engine No. 1, which was purchased in 1874, with a slight overhauling would be in as good condition as when purchased, and has been run the last two years at an

expense to the town of only about \$300 a year. Hose Carriage No. 3 is a hand-carriage, which was purchased by the town, second-hand, some fifteen years ago; and for the amount of work required of it, it is in a fair condition. Attached to the hook and ladder carriage are two chemical fire extinguishers, which have in many cases proved themselves of great value; but being of small capacity, so that men can carry them on their backs, they soon become exhausted. The Board of Engineers would recommend that the sum of one hundred dollars (\$100) be appropriated for the purchase of two more of the same size, and have them placed on the hook and ladder carriage.

HORSES.

There are in the department at present six horses. Four of the six (the same as last year) were used on the streets, watering the same two districts as in previous years.

HOSE.

We have at present 2100 feet of cotton hose in first-class condition, 1500 feet in good condition, 1500 feet in a very fair condition, and 1000 feet of leather hose unfit for service.

BUILDINGS.

The buildings under charge of the Engineers are in a good condition, and, with a slight oiling and painting, would need no general repairs for several years to come.

HYDRANTS.

We reported last year one hundred and sixty hydrants and nine reservoirs. With the addition of four new hydrants this year, we now have one hundred and sixty-four hydrants and the same number of reservoirs. Three of the new hydrants are on Tappan street, and one on Ridgway street.

The hydrants, owing to the immense pressure on them at different points, which is from 2,700 pounds to 5,632 pounds, open very hard, and they are liable to break. At the fire in Colonnade block a hydrant was broken from that cause, and the Water Board changed it to one opening with the pressure, instead of against it, as is the case with all the hydrants first put in on the line of the water pipes.

The Engineers would ask the town to instruct the Water Board in the future, to place a gate on each hydrant, so that, in case of repairs, the water can be cut off without interfering with the rest of the line of pipes. In some cases it would now be necessary to cut off the whole town from a water supply until the hydrant was repaired.

FIRES.

The town the past year has been visited by what might have been some very serious conflagrations. They have happened in thickly settled communities, and but for the promptness of the department, and the untiring efforts of the members, the citizens would have been called upon to look at a number of charred and blackened walls. In the past year the department has been called where the insurance amounted to \$115,000, and the losses have been adjusted for \$3,826.

TELEPHONE.

For the past year the engine houses have been connected with the telephone lines, and in a number of cases it has proved a great success, and in other cases, what might have been a detriment. The Engineers would urge upon the public and parties having the telephone, to be sure there is a fire, in the first place, and then be sure they have delivered their message right before leaving the instrument,—as in one case part of the department were sent to Cottage Farm when the fire was on the Kimball farm, which mistake might have caused considerable damage had the fire been of any great magnitude.

VOTE.

The Engineers would ask the town for the following vote :
That the Engineers have the right to dispose of worn-out
and condemned materials, for the benefit of the department.

APPROPRIATIONS.

Last year the sum of \$7,000 was appropriated for the
current expenses of the Fire Department, watering two dis-
tricts and care of police horses, which the Engineers found
insufficient to keep water-carts in repair and buy supplies
for the department, consequently, they had to let a number
of things go which were very much needed, on that account.
Therefore, the Engineers would recommend for the current
expenses of the Fire Department, watering two districts and
the care of the police horses, that the sum of \$8,000 be
appropriated.

Current expenses of Fire Department, watering

two districts and care of police horses,	. \$8,000 00
Longwood Company,	500 00
Two chemical fire extinguishers,	100 00

CONCLUSION.

We will take this opportunity to thank the officers and
members of the several companies for their promptness in
responding to the alarms of fire, and for their untiring efforts
while on duty. Also, to the Chief of Police and men under
his charge, for keeping order at fires, and to the Committee
on Fire Department, for their help the past year, our thanks
are due.

Report of the Chief of Police.

OFFICE OF THE CHIEF OF POLICE,
BROOKLINE, Jan. 31, 1881.

To the Selectmen :

GENTLEMEN,—I have the honor to submit my fifth annual report of the Police Department, for the year ending Jan. 31st, 1881.

The force as now organized consists of a chief, two sergeants, and twelve patrolmen, as follows :—

Chief, Alonzo Bowman.

Sergeants,

George F. Dearborn.

Charles B. McCausland.

Patrolmen,

Burnham C. Clark.

Albert S. Paige.

Mears Orcutt.

Joseph J. O'Connell.

Thomas J. Murray.

Alonzo W. Corey.

Wm. W. O'Connell.

Robert J. Watson.

Burton R. Willis.

William Miller.

Geo. F. Marston.

Alden A. Manley.

SPECIAL POLICE.

Five men have been appointed special officers without pay, as follows :—

W. Y. Gross, for the Town Hall.

William D. Morrison, for the Public Library.

Thomas S. Pettengill, for Walnut Hills and Walnut street Cemeteries, and on funeral occasions.

Eneas Smyth, for Holyhood Cemetery.

David McCarty, for Cochituate Reservoir.

Four persons have been appointed Railroad Police without pay, as follows : —

R. B. Gardner, J. M. Woods, John Bean, and H. M. Bean. All for the Boston and Albany railroad.

WORK OF THE DEPARTMENT FOR THE YEAR.

Whole number of arrests made by the local force for the year, 305.

Males	280	Residents	152
Females	25	Non-Residents	153
Minors	49	Americans	139
Juvenile offenders less than 17 years of age	26	Foreigners	166

CAUSES OF ARREST.

Assault	14
Assault on officers	2
Breaking and entering	4
Common drunkards	5
Defaulted (arrested on capias process)	2
Disturbing the peace	24
Drunkenness (simple)	159

MISCELLANEOUS WORK.

Accidents reported by officers	22
Alarms of fire reported by officers	17
Amount of property reported stolen	\$2,619 25
Amount of stolen property recovered	1,360 00
Amount of property taken from prisoners and returned to them as per their receipts	2,395 73
Buildings found open at night and secured (20 were stores and shops)	30
Cases investigated and adjusted without arrests	74
Disturbances suppressed without arrests	17
Defects in streets and sidewalks reported	131
Defective hydrants and leaks in street mains reported	12
Fires extinguished without alarms	5
Number of stray animals found running at large and cared for	14
Number of lost children found and cared for, or returned to their homes	25
Number of lost or strayed teams found and returned to their owners	17
Number of sick or injured persons assisted and cared for	12
Number of nuisances reported	23
Number of dead animals found and buried by direction of officers	27
Number of dangerous places on streets and sidewalks lighted by lanterns, at night, by officers	28

Number of orders delivered for cleaning of vaults and cesspools	140
Number of licenses delivered to collectors of grease, and their teams inspected monthly	20
Number of sewer permits taken up by officers	18
Number of town warrants and documents distributed by officers	12,500
Number of street lights reported unlighted	1,591
Number of street lamps reported broken	72
Number of runaway horses caught by mounted officers	12
Number of officers off duty reporting at the station house on alarms of fire given	41
Number of furnished houses reported as temporarily vacant, requiring special police protection	51
Number of unfurnished houses	14
Number of police details made by request of citizens for private parties, &c.	30
Number of police details made for public occasions	12

LODGERS AND TRAMPS.

The number of persons applying at this station for lodgings the past year has considerably decreased from previous years. The number for the past year has been 360. Males, 347; females, 13; minors, 27.

NATIVITY OF LODGERS.

United States	188	Ireland	104
England	24	British Provinces	20
Scotland	8	Germany	8
Italy	2	All other places	6

Of the one hundred and sixty-four persons arrested for the crime of drunkenness the past year, seventy-one gave Brookline as their place of residence. While we might reasonably expect a decrease instead of an increase in the number of arrests for drunkenness, as no persons have been licensed the

past year to sell intoxicating liquors to be drunk on the premises of the vender, yet, within five minutes' walk of the Brookline railway station there have been some eight places licensed by the city of Boston, where all kinds of intoxicating liquors are freely sold.

Twenty-four persons arrested for drunkenness have been released on becoming sober.

Nineteen search warrants have been served on parties suspected as illegal dealers. One hundred and ninety-four gallons of liquors have been seized. Fourteen prosecutions have been made of illegal dealers. Six persons have been convicted and sentenced. Six have been found not guilty—two parties proving non-ownership—two proving that the liquors were not kept for the purpose of sale, and two proving that the seized liquors were not intoxicating, and were ordered to be returned to the owners, and in five cases no liquors were found on the premises searched.

Early in the year, by direction of your board, an officer was detailed for the special purpose of enforcing the liquor laws. Officer A. S. Paige was detailed for that purpose, and has performed the duties of the office with energy and zeal, and with good results.

The difficulties in the way of convicting violations of this law are perhaps partially unknown to those who have had no experience in the matter.

The arrests for drunkenness in the past five years have been as follows:—1876, 119; 1877, 124; 1878, 91; 1879, 155; 1880, 164.

Twelve persons charged with minor offences have been taken on probation by the Probation Officer, Sergeant G. F. Dearborn, with general good results.

THE MOUNTED SERVICE.

This service continues to be a very important part of our police force. The work of the mounted officers has been

especially valuable the present long sleighing season, in stopping runaway horses, and in regulating driving on our principal thoroughfares. The streets in the remote parts of the town are patrolled almost entirely by mounted officers a large part of the year.

THE TELEPHONE.

After a year's experience I find the telephone of great value in conducting police matters, and its use is constantly increasing. We can now communicate with the Police Department of Boston through the City Hall at all hours of the day ; also with the police authorities in most of the neighboring cities and towns. Citizens in various parts of the town seem to appreciate the value and convenience of telephonic connection with this office.

It is very desirable that the by-laws of the town should be revised, additions made, and properly arranged in one form. We labor under serious disadvantages in being unable to act legally, or to remedy many complaints and annoyances, which we are powerless to relieve under the existing ordinances of the town, which were drawn and adopted some ten or twelve years since.

As regards the requirements of the town for increased police service, I quote from my report of last year : —

“ As now organized, the five patrolmen for day duty report for roll-call at seven A.M., and are on duty until six P.M., ten hours. The six patrolmen for night duty report for roll-call at seven P.M., and are on duty until four A.M., nine hours. From six to seven P.M. only two officers are on patrol duty,—one in the village, and one (sergeant) who is mounted.

“ I am convinced that this arrangement is no longer *safe or judicious*. There are four or five police routes which should be guarded the whole twenty-four hours of the day. The experience of the *past year fully warrants me in making this assertion*. The addition of five or six patrolmen would be necessary to accomplish this.

“Our situation as regards police requirements is peculiar. In close proximity to, in fact nearly surrounded by, a large city, we are exposed to the criminal elements which pervade all large cities, and who soon discover the most unguarded and defenceless part of the community on which to prey.”

In the West Roxbury District, Boston Police District No. 13, thirty-three patrolmen have been employed the past year, divided into three reliefs of eleven men each. The amount of property reported stolen in the district the past year has been less than \$500.

In the Brighton District, on our western borders, eighteen patrolmen are employed in three reliefs of six men each. The amount of property stolen in the district the past year does not exceed \$1200.

In consequence of the many and various duties demanded of the police, it will be necessary in the future to have an officer for special duty, outside of regular patrol duty, who can be called on at any time for special work. The officer detailed to look after violators of the liquor law, has in addition to his special duties, done much of this work the past year.

For expenditures of Police Department, see Treasurer's report.

In conclusion, it gives me much pleasure to testify that the officers of this department have worked together harmoniously and efficiently the past year. In several instances they have done severe and arduous work, with patience and fortitude worthy of all praise.

While the object of a police force is the detection and punishment of criminals, the great and primary object, in my opinion, is the *prevention* of crime; and the absence of crime may, I think, be considered the best evidence of the efficiency of the police.

As each officer goes out to patrol from one to ten miles of streets, the duties he may be called on to perform are often so diversified and uncertain that they cannot be anticipated by a superior in rank, and much depends on the *intelligence, tact* and *good judgment* of the officer.

With thanks for the kind courtesies shown me by the Selectmen and Committee on Police,

I am, respectfully, your obedient servant,

ALONZO BOWMAN,

Chief of Police.

Report of the Probation Officer.

BROOKLINE, January 31, 1881.

To the Board of Selectmen:

GENTLEMEN, — I have the honor to submit my first annual report. Although the work has not been extensive, the results are very satisfactory.

The whole number of cases placed on probation since June last, was twelve, for the following offences :

Violation of the liquor law	1	Violation of the Lord's Day	5
Disturbing the peace . . .	2	Larceny	1
Drunkenness	2	Truancy	1

Of this number nine have been discharged, one surrendered, and two are now on probation ; and in every case but one they have faithfully complied with the terms of their probation.

Respectfully, your obedient servant,

GEORGE F. DEARBORN,

Probation Officer.

Report on Suits against the Town.

BROOKLINE, February 1, 1881.

Charles H. Drew, Esq.,

Chairman of the Board of Selectmen :—

DEAR SIR,—We make the following report of the suits of which we have charge for the town, to wit :—

FIRST,—

THE MOTHER BROOK AND NEPONSET RIVER MILL OWNERS,
vs.
THE TOWN OF BROOKLINE.

There are nine of these suits pending in the Superior Court for Suffolk County for the recovery of damages alleged to have been caused to mill privileges, by reason of the taking of the water of Charles river by the town. The cases were referred by the Court to Dwight Foster, Nathaniel J. Bradlee, and Samuel D. Warren, Esquires, that they might hear the cases of the petitioners and report thereon to the Court.

The cases have been accordingly tried, as one case, before the Commissioners, Asaph Churchill and Charles A. Mackintosh, Esquires, appearing as counsel for the petitioners, the hearings occupying a number of days.

The petitioners claimed that the flow of Mother brook, which runs out of Charles river, was affected by the operations of the town two miles below the junction of the river and the brook, the difference of level between the two points being almost imperceptible.

James B. Francis, the eminent hydraulic engineer of Lowell, supported the petitioner's case by his opinion.

The town claimed that the petitions were not seasonably filed ; that petitioners had not been damaged at all, and, that, upon any theory, their claim of \$35,000 was excessive.

The Commissioners have awarded \$4,580, which is equivalent to \$3,300 and interest thereon from the time the town took the water.

SECOND,—

THE TOWN OF BROOKLINE *vs.* CHARLES G. MACKINTOSH.

This is a bill in equity brought by the Selectmen in pursuance of the vote of the town passed at the town meeting held in November, 1880, for the purpose of restraining the defendant from corrupting the waters of Charles river at a point some 4000 feet above the pumping station.

The cases were heard by Mr. Justice Soule of the Supreme Judicial Court, and reported by him to the full bench of that Court for ultimate decision, upon the following findings, to wit:

First,—That the operations of the defendant do not impair the water supply of the town, as the town takes and uses its water at present from a filtering gallery adjacent to the river, and

Second,—That the operations of the defendant would make it dangerous for the town to take its supply of water directly from Charles river, as it has the right to do at any time.

The case will be argued in March, 1881, before all the Judges. As the town has been heretofore compelled by the Supreme Court to pay full damages for the taking of the waters of the river, it seems eminently proper that it should now ask that the purity of these waters be protected. It is believed that the decision must be favorable to the town.

THIRD,—

HENRY H. RICHARDSON *vs.* THE TOWN OF BROOKLINE.

This is an action in which the plaintiff seeks to recover back the sum of \$282.71, being the amount of taxes which he alleges to have been illegally assessed upon him, and which he has paid under protest.

The action is pending in the Suffolk Superior Court, and will probably be tried in March next.

Respectfully yours,

M. & C. A. WILLIAMS.

Report of the Superintendent of Streets.

OFFICE OF THE SUPERINTENDENT OF STREETS,
TOWN HALL, BROOKLINE, Feb. 2, 1881.

To the Honorable Board of Selectmen:

GENTLEMEN, — I respectfully submit my fifth annual report of the work done and the expense incurred in the highway department. The amount appropriated at the annual meeting for the support of highways, was \$15,150. It was all expended, and the details are as follows:

Alton Street: repaired	\$19 88
Aspinwall Avenue: macadamized in part, patched and fences re-built	148 24
Beacon Street: macadamized from town line to Tappan street, gravelled and repaired in sun- dry parts	1,794 54
Boylston Street; upper end gravelled, new catch basin and drain put in at Fisher avenue, and culvert taken up, cleaned out and repaired	605 74
Brookline Avenue: repaired and macadamized in part	81 50
Carlton Street: repaired, macadamized in part	44 25
Chestnut Street: sidewalk partly graded, new catch basin curb set, &c.	38 25
Cleaning gutters, streets and sidewalks	1,172 73
Cleaning street crossings	193 38
Clyde Street: repaired	16 75
Colchester Street: patched and repaired	24 00
Coal and other supplies for crusher	107 61
Crossings, labor and materials, repairing old cross- ings	168 09
<i>Amount carried forward</i>	<u>\$4,414 96</u>

<i>Amount brought forward</i>	\$4,414 96
Crushing stone in Brighton pit (now on hand)	162 50
Cutting grass on sundry streets	85 00
Engineering	8 88
Englewood Avenue: gutter paved	15 00
Fisher Avenue: gravelled in part	28 75
Gorham Avenue: catch basin built	15 00
Gravel: cash paid for gravel and stone	121 25
Gravel land: bought of John Zecher on Heath st	250 00
Grove street: repaired	11 75
Gutters: repairing and skim-coating concrete gutters in Irving, St. Paul and Colchester streets	457 44
Hammond Street: macadamized in part, repaired	186 38
Harvard Street: macadamized from Gibbs' pit to Pleasant street	471 60
Heath Street: gravelled from town line to Tower Hill road	661 04
High Street: new fencing, sidewalk filled out, &c.	78 81
Horses and Stable: care and maintenance, including hostler's wages, repairs, new blankets, etc., board of Superintendent's horse, cash paid for new horse, etc.	2,362 48
Ivy Street: macadamized from Prescott street to Carlton street	51 00
Kent Street: repaired with stone screenings	34 50
Longwood Avenue: repaired	88 52
Miscellaneous work not included in other streets.	297 64
Mountfort Street: repaired	10 00
Newton Street: repaired and gravelled	349 59
New shed over engine in Brighton pit	58 68
Picking off loose stones	44 44
Pond Avenue: repaired	25 44
Prescott Street: macadamized in part	40 00
Pruning trees, etc.	82 50
Preparing material in spring of 1880, not charged on other streets: In Brighton pit	653 68
In Newton street pit	130 25
Repairing sundry streets, not elsewhere charged	247 06
Repairing engine and crusher after fire in Brighton pit	170 46
<i>Amount carried forward</i>	\$11,614 60

<i>Amount brought forward</i>	\$11,614 60
Re-paving sundry gutters, not elsewhere included	42 50
Sign-boards repainted, etc.	61 23
South Street: repaired	19 51
St. Paul Street: hollows north of Beacon street graded up, sundry other repairs,	276 91
Summit Avenue: gravelled	46 50
Sundry work in winter of 1880-81, levelling and carting off snow, sanding sidewalks, opening gutters, etc., etc.	978 68
Tools: repairs and sharpening, new tools, etc.	303 67
Toxteth Street: repaired	12 87
Washington Street: macadamized in two places, from Beacon street southerly to Robinson's tan- nery, and from crossing at W. B. Sears' to be- yond top of hill, sundry other repairs	1,715 02
Water pipe and sewer trenches repaired	14 62
Winchester Street: repaired, and fences rebuilt	63 89
<hr/>	
Total amount expended,	\$15,150 00

On the night of Thursday, March 18, 1880, the shed over the engine at the Brighton pit was set on fire by incendiaries, and totally destroyed: the loss, including some repairs which were necessary on the engine before the fire, amounted to \$264.75.

During the past summer the city of Boston has laid a forty-eight inch main pipe in Beacon street throughout its entire length. The travel over the street was necessarily interrupted, but it is due the Boston Water Board to say that the work was pushed as rapidly as possible, and all drains and culverts which were crossed, were repaired in a most thorough manner. A large surplus of stone and gravel was left, which was used in repairing the street; the poorer material, excepting that claimed by the abutters, was used in making Thayer street.

HORSES.

One of the horses died of spinal disease on the 5th of May last, and has been replaced by a young horse, for which the sum of \$250 was paid. I renew my recommendation of last year that the poorer animals should be disposed of, and replaced by younger stock. Of the nine horses owned by the town, two are unfit for the work required of them; the others are in fair condition, but as they have been constantly worked in all weathers for the last eight or nine years, it is but natural that the weaker animals should give out.

LONGWOOD BRIDGE.

The cost of re-planking this bridge, as far as it was done, was paid out of the special appropriation of \$500 made for that purpose. Before the rest of the bridge was re-planked, Messrs. Lynam & Foster, whose work on our sidewalks for the last ten years has been so generally approved, offered to cover the bridge with coal-tar concrete, on condition that if the work proved satisfactory they were to be paid fifty cents per square yard for it, but if, on the contrary, it proved worthless, no charge would be made. The offer was accepted, and the coal-tar concrete applied, but it was so late in the season when it was done, that no opinion can yet be formed as to its merits. The Selectmen are to decide whether or not it will be paid for.

BROOK STREET.

Some months after Brook street and the two short streets were finished by the contractors, they were re-shaped and rolled by this department, at a cost of \$134.25.

THAYER STREET AND THAYER PLACE.

These streets, which were built by the Highway force, are practically finished, but the season was so far advanced when

the contractors for building the sewers finished their work, that considerable frozen material was used, and there will be therefore more or less settling in the spring. The fences, curbstones and gate-posts remain to be set, and two catch basins are to be built, but the whole work can be done in a few weeks after the frost is wholly out of the ground. White place, Davis avenue and private grounds were cleared of débris after the sewers were built, but the early frost prevented the work from being finished.

STREET CROSSINGS.

One street crossing has been laid across Cypress street at Chestnut street; the cross walks in several places were repaved.

REMOVING SNOW.

Of the \$2,000 appropriated for this purpose, \$666.76 were expended last season, and the balance proved insufficient for this winter. There was a balance of the Highway appropriation unexpended which was devoted to this work.

SIDEWALKS

Edgestones were set on Cypress street, between Gorham avenue and Cypress place, 277 feet, and corner of St. Paul street and Longwood avenue, 12 feet.

New concrete walks were laid on Aspinwall avenue, $133\frac{1}{3}$ square yards; Gorham avenue and Cypress street, $736\frac{3}{4}$ square yards.

The concrete walks were mended in various places, and were skim-coated on parts of the following named streets: Harvard, Francis, Park, Walnut, Irving, Boylston, Cypress, Colchester, and Harvard and Longwood avenues.

New plank walks were laid as follows :

Beacon Street	1,285 feet.
Chestnut Street	1,480 "
Cypress Street	715 "
Sewall Street	690 "
Dudley Street	2,650 "
Warren Street	1,280 "
Hammond Street	720 "
Marion Street	590 "
Toxteth Street	720 "
Aspinwall Avenue	930 "
<hr/>	
Total	11,060 "

Those on Warren and Hammond streets are nineteen inches wide ; all the others are thirty-nine inches wide. Board walks still remain on Brighton and Beacon streets, Summit avenue and part of Marion street. They are not worth mending, and I hope they will be ordered up as soon as the walks are dry in the spring.

The expenditures for sidewalks were as follows :

Repairing board and plank walks	\$465 74
New plank walks	1,568 91
Edgestones and setting	202 29
New concrete walks	565 54
Skim-coating and repairing concrete walks	813 86
Gravel walks and sundries	383 66
<hr/>	
Total	\$4,000 00

CARE OF SEWERS.

The street catch basins, culverts, brook channels and sewers have been cleaned out by this department as heretofore. The culvert under High street, having proved inadequate to carry off the storm water, and being too small to allow one to enter for the purpose of cleaning it out, was taken up, and

a new one sufficiently large for all purposes was built at a grade nearly two feet lower. The expenditures for all purposes amounted to \$1,255.68.

PUBLIC GROUNDS.

A curbstone was set around the triangular plot of ground at the corner of St. Paul street and Aspinwall avenue, the lot was spaded over, manured and laid down to grass, and a drinking trough for horses placed at the apex. A pedestrian track was built by the Brookline Athletic Club at the upper end of the Cypress street play-ground, towards the cost of which the town contributed the sum of fifty dollars. The usual work on other public grounds and school-house lots was done, the total expenditure being \$582.14.

COLLECTING ASHES.

The ashes have been collected weekly throughout the town at a cost of \$934.10.

The customary schedule of property belonging to the department is appended.

Respectfully submitted.

MICHAEL DRISCOLL,

Superintendent of Streets.

REPORT OF THE AGENT
OF THE
BOARD OF HEALTH.

ABATEMENT OF NUISANCES.

During the year the board has ordered the abatement of nearly forty nuisances. There have been three prosecutions for non-compliance with the orders of the board.

REMOVAL OF HOUSE-OFFAL.

A contract was made and executed with Francis Mealey, April 26th, for the removal of house-offal for the period of one year, said contract to expire May 1st, 1881.

LICENSES.

Twenty licenses have been issued and renewed for the collection of grease. These licenses are now limited to that number. One undertaker's license has been renewed.

NUMBER OF DEATHS DURING THE YEAR.

The number of deaths within the town is one hundred and twenty-three against ninety-six last year.

CONTAGIOUS DISEASES.

There have been reported during the year ending December 31, 1880, seventeen cases of scarlet fever, and twenty-five of diphtheria, occurring as follows : —

	SCARLET FEVER	DIPHTHERIA.
January	4	2
February	0	2
March	0	0
April	1	1
May	2	4
June	3	3
July	1	4
August	0	0
September	0	0
October	0	1
November	2	3
December	4	5
	<hr/> 17	<hr/> 25

The cases of diphtheria occurred in the following localities :

Webster Place	1
Irving Street	1
School Street	2
Walnut, cor. Chestnut	2
Linden Place	2
Park Street, near Vernon	4
Monmouth Street	1
Washington Street, between Cypress and Park	1
Carlton Street	1
Brookline Avenue	1
St. Paul, near Francis	1
Harvard Street, opposite Harvard Avenue	1
Harvard Street, corner Pierce	1
Harvard Street, corner Vernon	2
Boylston Street, opposite the Reservoir	2
Boylston Street, near Pound	1
Boylston Street, in the Village	1

The following table shows the number of cases of scarlet fever and diphtheria reported during the last four years : —

	SCARLET FEVER.	DIPHTHERIA.
1877	46	29
1878	15	19
1879	16	12
1880	17	25

TYPHOID FEVER.

Typhoid fever, which prevailed so extensively during the months of August, September and October of the preceding year, was almost entirely absent during the last.

MUDDY BROOK.

The Board, in connection with the Boston Board of Health, employed J. W. Steere, as during the two or three previous years, to tend the tide-gate on Brookline avenue, from the beginning of May till the first of November.

The necessity of keeping the flats covered with water during the warm weather will continue until the stream is kept free from sewage matter.

The following are some of the special orders passed by the Board : —

MAY 10th, 1880.

Ordered,— “ That the manure of the livery and horse-car stables shall not be removed from the stables between the hours of sunrise and sunset during the months of June, July, August and September.

MAY 24th, 1880.

Ordered,— “ That during the months of June, July, August and September, no vaults shall be emptied by any other than the odorless process, within the district bounded by Chestnut, Cypress and School streets and Aspinwall avenue, and that in the other parts of the town during said months, no privies shall be emptied by Mr. Murray or any other person, in the ordinary way, by carts not of the Odorless Excavating Company, except permission be first obtained from the Chief of Police.”

AUGUST 23d, 1880.

Ordered,— “ That no dead body of any person shall be carried to any cemetery, or from one place to another within the town, in any public vehicle other than a hearse or undertaker's wagon provided for that purpose.”

The order first passed in 1876, requiring that all cases of diphtheria and scarlet fever shall be reported to the Board, still remains in force. Whenever such cases are reported, the Truant Officer is at once notified of the fact, and children living in the house where any such case exists are prohibited from attending school. By this means a spread of these diseases is, no doubt, frequently prevented.

HOUSE DRAINAGE, &c.

Although more attention is paid each year to the subject of house-drainage, still it is very imperfect in the vast majority of instances, especially in tenement houses. Drains should not only be thoroughly trapped, but should be ventilated by a straight pipe (4 in.) extended above the highest point of the roof of the house, terminating at a distance from any chimney or other ventilator. The custom of top-dressing near dwellings which has been referred to in a number of previous reports, still continues to be practised. The dressing is frequently *very* offensive and *may* be injurious. The practice should be prohibited.

Instances have come to the knowledge of the Board where the bodies of children who have died of diphtheria have been carried to the grave in a public carriage; consequently the Board passed the order, already referred to, in regard to the conveyance of dead bodies of persons in public carriages other than a hearse, &c.

SMALL-POX.

In view of the fact that small-pox now prevails somewhat extensively in New York and Philadelphia, and that the epidemic will, in all probability, soon extend to Boston, attention should be at once directed to the importance of vaccination and re-vaccination.

G. K. SABINE, M. D.

Report of the Inspector of Milk.

In the spring of last year a very important law was enacted by the Legislature regulating the sale of milk. The law as now in force requires that every one selling milk shall obtain a license, for which a small fee is paid, and comply with certain regulations mentioned in the Act.

The following is a list of those holding licenses :—

	Number.		Number.
George W. Stearns, Brookline,	1	J. H. Clark, Belmont,	22
J. & R. English, Jamaica Plain,	2	Robert Stanfield, Brookline,	23
Hugh Banigan, Brookline,	3	A. McCullough,	24
R. F. Goodrich, “	4	E. J. Curtis,	25
William Wyman, Waltham,	5	S. Burt,	26
L. W. Hastings, Brookline,	6	James Lynch,	27
F. C. Hebard, South Boston,	7	Margaret Roach,	28
Peter E. Bradley, Roxbury,	8	John Garrity, Roxbury,	29
E. D. Everett, Brookline,	9	Brown Brothers, Brookline,	30
Mrs. G. Stitt, “	10	Nelson Brothers,	31
N. M. Wright, Arlington,	11	Margaret Burke,	32
John W. Stearns, Waltham,	12	Johanna Hayes,	33
Margaret Donovan, Brookline,	13	Patrick Murray,	34
H. W. Lamb, Quincy,	14	E. B. Reed,	35
Andrew White, Brookline,	15	Michael O'Rourke,	36
James Shillady, “	16	Hugh Murray,	37
James Love, “	17	James McIntosh, Needham,	38
John O. Kane, Needham,	18	Frederick Beck, Brookline,	39
Mrs. B. Maloney, Brookline,	19	Thomas T. Robinson, Brookline,	40
Julia Hayes, “	20	Gross & Co., Allston,	41
E. W. Packard, “	21	Henry R. Page, Lincoln,	42

But few complaints have been made of the quality of milk delivered, and there have been only two prosecutions for non-compliance with the law.

G. K. SABINE.

SCHEDULE OF TOWN PROPERTY.

New Town Hall (stone), Washington street, and about 24,000 feet of land	\$180,000 00
Pierce Primary school-house (brick), Pierce st., and about 16,000 feet of land	27,000 00

WATER WORKS.

The total cost of the water works to Feb. 1, 1881, amounts to \$598,960. Of this amount \$448,528 is represented by twenty-seven miles of iron mains for conducting the water from the pumping station at West Roxbury, and distributing it throughout Brookline, the stand-pipe at Walnut hill, 158 fire hydrants, 18 water cart hydrants, and 5 drinking fountains, together with the right to take water from Charles river, and the right of way over any private property where the mains are now laid, such rights having been acquired either by purchase or by settlement at law. The balance, \$150,432, is as follows :

211,810 feet of land on Fisher's hill, bought for reservoir, and owned by the town in fee	\$25,000 00
316,028 feet of land on line of filtering galleries, and owned by the town in fee	2,277 00
74,050 feet of land for old station and owned by the town in fee	3,000 00
24 acres of land adjoining the filtering gallery lot, taken and held for purposes of works	9,608 00
Reservoir, &c., on Fisher's hill	53,312 00
Filtering galleries, including extensions	10,000 00
New pumping station and outbuildings	16,000 00
Engineer's house and old pumping station	1,500 00
Two pumping engines and boilers complete and in working order	25,000 00
Tools, &c., at the pumping station	1,250 00
Tools, &c., at Brookline	600 00
Eight tons iron pipe at station	320 00
Thirty " " " at yard in Brookline	1,200 00
Line of telegraph, &c.	1,365 00
	<hr/>
	\$150,432 00
27 miles iron mains as above	448,528 00
Sewers	250,000 00
	<hr/>
	\$848,960 00

B. F. BAKER, *Town Clerk.*

REPORT OF THE TRUSTEES

OF

WALNUT HILLS CEMETERY.

The Trustees of Walnut Hills Cemetery present herewith their annual report for the year ending January 31, 1881.

Thirteen new lots have been trenched and graded during the year, and the grounds have been well cared for and kept in good order.

Twelve burial lots and twelve single grave lots have been sold.

For the details of the work done reference is made to the report of the Superintendent, as follows, to wit:—

SUPERINTENDENT'S REPORT.

To the Trustees of Walnut Hills Cemetery:

GENTLEMEN,—I have the honor to present the annual report for the year ending January 31st, 1881.

IMPROVEMENTS.

Total number of lots trenched and graded	.	.	111
“ “ “ “ “ past year	.	.	13
“ “ “ sold	71
“ “ “ “ the past year	12
“ “ single graves sold the past year	.	.	12
“ “ head-stones erected “	.	.	6
“ “ monuments erected “	.	.	3

INTERMENT RECORD.

Total number of interments, as per last report . . .	129
“ “ “ for the year . . .	45
“ “ “ in single graves . . .	11
“ “ “ in private lots . . .	34
Of the above, there were deposited in the receiving-tomb	1
Removals from other cemeteries . . .	20

Respectfully submitted,

THOS. S. PETTENGILL,

Superintendent.

The current expenses, care of grounds, improvements, and incidental expenses for the year, have been as follows: to wit,—

To cash balance in treasury from last year	\$191 94	
received from the sale of wood . . .	16 00	
received from the sale of grass . . .	20 00	
received, loaned the perpetual care fund	98 00	
received, sale of lots trenched and graded	1,788 80	
	<hr/>	\$2,114 74
By cash paid for labor and materials	1,677 25	
Balance in the treasury	\$437 49	
Due on account	194 75	
	<hr/>	
Total	\$632 24	

PERPETUAL CARE FUND.

To cash balance in treasury from last year	\$74 00	
received from sale of lots . . .	847 50	
borrowed from current expense fund	12 25	
	<hr/>	\$933 75
<i>Amount carried forward</i>	\$933 75	

<i>Amount brought forward</i>	\$933 75
By cash paid current expense fund, borrowed	\$98 00
paid Massachusetts Hospital Life Insurance Company, policy No. 4,878	500 00
	<hr/> \$598 00
Balance in the treasury	\$335 75

Amount invested in the Massachusetts
Hospital Life Insurance Company \$5,200 00

INCOME FROM PERPETUAL CARE FUND.

To cash balance in the treasury from last year	\$165 71
received, interest on investments in policies of Massachusetts Hospital Life Insurance Company	178 27
	<hr/> 343 98
By cash paid for material and care of lots	164 25
	<hr/> \$179 63

The grounds have been greatly improved during the year, several of the avenues and paths have been finished and graded, and the place has the appearance of being more finished and complete.

CHARLES H. DREW,

Chairman ex-officio.

CHARLES S. SARGENT,

CHARLES H. STEARNS,

WALTER C. CABOT,

DESMOND FITZGERALD,

WILLARD A. HUMPHREY,

REPORT
OF THE
OVERSEERS OF THE POOR
OF THE
TOWN OF BROOKLINE,
FOR THE YEAR ENDING JANUARY 31, 1881.

ANNUAL REPORT.

THE Board organized April 7th, 1880, by choosing Charles H. Drew, as Chairman, and Charles D. Lincoln as Clerk. A portion of their duties is embraced in the following report.

The following table gives the names of persons regularly relieved : —

- 1 Baker, Ann M., daughter of James Mitchell, deceased ;
She has been at the Insane Asylum, Tewksbury, since
May 22, 1879, at \$3 per week.
- 5 Barrett, James, children of, — four boys, at House of the
Angel Guardian, at \$2 per week ; one girl at Saint
Vincent Asylum, at \$1.50 per week. The father has
agreed to reimburse the town to the extent of \$10 per
month, but has not yet paid anything — he is out of
the State.
- 3 Burke, John, aged 10 ; Katy, aged 8 ; Mary, aged 6, —
children of Thomas or Michael Burke, deceased. They
are boarded with Martin Costello at \$15 a month for
the three.
- 1 Casey, Mary, invalid, boards with B. C. Clark. We pay
\$8 per month for board.
- 3 Casey, Nellie, widow of Thomas, and two young children.
We pay her \$6 per month, and supply her with fuel,
and pay her rent.
- 2 Collins, Mary, widow of Peter, and one invalid child of
brother, James Kilnan. She works for her relief,
\$1.75 per week, and her fuel.
- 1 Conway, John. We allowed him \$2 per week and fuel,
and paid Mrs. Fleming \$8 per month for his care, until
July, 21, 1880, when he went to Carney Hospital,
where he has since remained at \$5 per week.

- 2 Conway, John F., 16, and Mary, 11, children of John, above-named, are boarded with their aunt, Mrs. Conway, at \$3 per week.
- 2 Corcoran, Ann, widow of Henry, and one child. We have paid \$3 per month for her rent. Her husband died March 10, 1879.
- 2 Corcoran, Michael, aged 71, and wife. We give them \$2 per week and fuel and rent.
- 5 Coughlin, William, and wife and three children. She is authorized to work \$2 per week for relief and for fuel, and we pay rent. He is disabled by rheumatism.
- 1 Crawley, Mary, aged 63, boards with Mrs. Bridget McMahon at \$8 a month.
- 6 Cronan, John, and wife and four children. She has been allowed to work \$2 per week for relief. He died September 1.
- 1 Curry, Hannah, aged 63, widow of James. She boards with her son-in-law, Thomas Finn, at \$3 a month.
- 1 Dalton, James, aged 12, son of James and Mary, afterwards wife of Thomas Burke. He boards with Mrs. Bolan at \$8 a month.
- 1 Dolan, Mary E., daughter of Thomas, deceased; she is lame, lives in Boston, and we pay her board, \$2 a week.
- 5 Donovan, Julia, widow of Michael, and four children. We pay for food, fuel, and rent.
- 1 Dwyer, William, 71. We pay his rent, \$4 a month, and his daughter-in-law prepares his food.
- 2 Fallon, John W. and Eunice, children of Michael. They live in Lawrence, and we paid that city last year for their support \$76. John's ceased August 1.
- 3 Finnegan, Ann, wife of Arthur, who has deserted her and two children. We allow her \$1 a week.

- 1 Flanagan, Mary, widow of Joseph, aged 87. She boards with her son Martin, at \$6 a month.
- 5 Fleming, Patrick, and wife and three children. We allow \$2 a week, if the same is worked out.
- 1 Ford, Sarah A. She is boarded at the Asylum for Chronic Insane at Worcester. We paid last year for her \$184.25.
- 1 Gleason, Ann, aged 65, widow of James. She boards with her daughter, Bridget Sullivan, at \$8 a month.
- 2 Haley, David, and wife, about 72 years of age, and unable to work. She is allowed \$1.50 a week for relief, and we supply rent.
- 2 Hill, Eliza, widow of Thomas, and one child. We give her \$1.50 a week, fuel and rent.
- 2 Hogan, John, and wife, aged 79. We pay for their food \$8 a month, and their house rent and fuel.
- 2 Horregan, Bridget, widow of Michael, and one daughter, 12 years old. We allow her to work \$1 a week, and supply fuel and pay rent.
- 2 Jewett, Benjamin N., aged 72, and wife. Rent paid and some fuel.
- 1 Kennedy, Ann, wife of James. She boards at John Monahan's, at \$6 a month.
- 3 Killinan, Fanny, widow of John, and two children. She works out \$1.50 a week for relief and fuel. We have also paid her rent.
- 1 Lamb, Mary, widow of Lawrence. The City of Boston admits her settlement. We allow her to work \$1 a week. The city reimburses us.
- 4 Liddy, Patrick, aged 5, John 8, at the House of the Angel Guardian, at \$2 a week each; Joanna 10, Mary Jane 12, at St. Vincent's Asylum, at \$1.50 a week each — are the children of John Liddy; they have no mother.
- 2 Lynch, Bridget, widow of Cornelius, and one child Annie, who is at St. Vincent's Asylum, at our expense.

The mother lives in the Town House, Heath street, and we allowed her \$1 a week and fuel. She is now at Sherborn Female Prison.

- 4 Lynch, Mary, wife of John (daughter of Batt. Cusick), and three small children. She has been deserted by her husband, and we allow her \$1 a week and fuel, rent and some medical care.
- 10 Lyons, Patrick, and wife and eight children. We allow rent, \$4 a month.
- 2 Madden, Mary, widow of Charles, and one child. We allow Mrs. Madden \$1 a week, her fuel and pay rent.
Madden, Daniel, step-son of the above, is boarded at the House of the Angel Guardian at \$2 per week.
- 5 Mangan, Jane, went to Taunton Lunatic Hospital August 4, 1880, at \$3.25 a week, and we pay Bridget Maloney \$4 a month as house rent for her four children.
- 1 McCarthy, Julia, widow of Jeremiah, aged about 65. We pay \$7 a month for her board.
- 5 McDonald, Thomas, five minor children of, are boarded with their aunt, Mrs. O. Hillern, at \$24 a month.
- 1 McGrath, Michael, has a military settlement, and is boarded at the Northampton Asylum for the Insane. We paid last year \$176.53.
- 1 McNamara, John, is at the House of the Angel Guardian. We have paid for his board \$2 a week.
- 1 Morrissey, Bridget, aged 71; \$1 a week and fuel.
- 1 Mountain, Ellen, widow of Patrick. We allow \$1 a week, fuel and rent.
3. O'Hare, Ellen, widow of Michael, and two children. They are Boston paupers. We allow her rent. Boston reimburses us.
- 6 Powers, Johanna, widow of Edward, and five children. We allow her to work out \$1.75 a week, and we pay her fuel and rent.

- 1 Powers, Mary, widow, aged 63. We pay her rent and fuel occasionally, and \$1 a week for food. The last item ceased May 26.
- 3 Quinlan, Mary, widow of Thomas, and two children. They are Boston paupers. We supply rent, but the family mainly support themselves. Boston reimburses us.
- 4 Ryan, Martin, wife and two children. Boston paupers. He died of consumption, January 3, 1881. We have allowed them \$2 a week, fuel and rent, and paid doctor's bill of \$26.60. Boston reimburses us.
- 1 Sheehan, Hannah, \$1 a week and rent and some fuel; 61 years of age.
- 1 Splaine, David, aged 76, at Tewksbury Alms House. Paid last year for his support \$143.28.
- 1 Tobin, Bridget, aged 62. She is blind and unable to work. We allow her \$8 a month for board.

128

This gives 128 as the number regularly relieved. Boston pays for eleven, and two have died; so that 115 are now liable to be regularly relieved by the town at its sole expense, instead of 144 as last year.

The following table gives the names, &c., of those whom we have occasionally relieved during the last year:—

- 2 Blake, Samuel, and wife, \$2 in 1880, lives in Boston.
- 6 Clary, Patrick, and wife and four children. They are State paupers. With the consent of the Board of State Charities, we have allowed them \$2 a week for their relief, December 1, 1880, to February 1. He has disease of the eyes.
- 6 Coughlin, John, and wife and four children. We have allowed Mrs. Coughlin to work \$2 a week for relief from February 4 to May 12. Relief ceased May 12.

- 6 Crawford, Delia, and five children, State paupers. Deserted by her husband. Gave relief in food and fuel, \$15, from July 26 to October 6, when they left town. State allows us for 4 weeks' relief, \$8.
- 5 Crotty, Mary, and four children. They live in Boston, and Overseers there furnished relief to the amount of \$36.99.
- 1 Darrah, Lizzie. Paid her house rent \$4 a month, from March 1 to August 1, 1880.
- 2 Denehy, Thomas, and wife. Live in Dedham. We paid that town last year \$30.55.
- 9 Donahoe, Martin, and wife and seven children. We allowed him to work for relief \$2 a week till April 14, 1880, when it ceased.
- 1 Gannon, Delia, at Police Station 5 days January 8 to 12, in a comatose condition, at an expense for physician's services, woman's care, &c., of \$25. Settled in Boston, and that city reimburses us.
- 1 Hall, Mrs. James. Allowed her \$1 a week since December 1, 1880.
- 1 Houlihan, Catherine, widow of John. Paid rent occasionally during the year. Some fuel has been supplied.
- 5 Keenan, John, and wife and three children. We have given him \$2 a week since November 17 —worked out.
- 2 Keenan, Catherine, and one child, alias Mary Ann Gould, alias Mrs. Larry Finnegan, but apparently never married — daughter of James Keenan. Lives in Boston, where she was relieved by Boston Overseers, \$1.
- 5 Kelly, Mrs. Redmond, and four children. Paid rent, \$4 a month, from December 1, 1880.
- 2 Mitchell, Michael, and wife, about 65 years of age. We allowed them \$2 a week and fuel up to April 14, when it ceased. The rent is continued.
- 1 Murray, Ann, daughter of Patrick. We have paid for her support at Tewksbury Alms House \$27.43, from May 22 to July 24.

- 3 McAuliffe, Kate, and two children, settled in Boston. Gave her \$4 for food October 4 and 14. Claimed of the city.
- 6 Powers, James, and wife Catherine and four children, has a military settlement and lives in Lawrence. We paid last year for their support \$15.
- 1 Ryan, John, settled in Boston. Has received food to the amount of \$18, ceased March 31, 1880.
- 4 Roy, Joseph, and wife and two children. We allowed her to work out \$1 a week, and they live in the Town House on Heath Street. Relief ceased August 26.
- 1 Welch, Rose, wife of Thomas. We paid \$4 a month rent till June, 1880, when she died.

70

This gives 70 as the number of persons occasionally relieved, instead of 125, the number for the previous year. One has died during the year. We require some equivalent in work in every case for the amount of general relief afforded, when the applicant is able to work.

The following report shows the labor which has been performed by the female poor under the direction of Mrs. Codman and Mrs. Cabot of our board:—

Balance on hand Feb. 1, 1880	\$ 42
Cash received from sale of garments	160 48
Massachusetts Hospital, for sewing	11 95
New England Hospital	9 25
private individuals for sewing	18 66
	<hr/>
	\$200 76
Cash paid for 1,317½ yards cotton	\$108 57
134 yards calico	10 88
yarn	1 40
thread and buttons	6 87
17 pairs boots and shoes	21 50
Carbolic acid	1 00
	<hr/>
Amount carried forward	\$150 22

<i>Amount brought forward</i>	\$150 22
Amount paid to the town	50 00
Balance on hand	54
					<hr/>
					\$200 76
					<hr/>
Garments on hand Feb. 1, 1880	105
Garments made for the town from Feb. 1, 1880, to Feb. 1, 1881	568

Stockings knit for the town from Feb. 1, 1880, to Feb. 1, 1881	6 pair.
					<hr/>
					16 pair.
Stockings given away to the poor of the town	16 pair.
New boots remaining on hand Feb. 1, 1880	3 pair.
New boots purchased	17 pair.
					<hr/>
					20 pair.
New boots given away	19 pair.
New boots remaining on hand	1 pair.
					<hr/>
					20 pair.
Sheets made for Massachusetts Hospital	172
Pillow-cases made for Massachusetts Hospital	110
Shirts made for Massachusetts Hospital	15
Slippers made for New England Hospital	37 pair.
(Of materials supplied by the hospitals.)					

Second-hand garments received and distributed	. 244
boots and shoes 83 pair.
stockings 37 pair.
hats 24
Number of women employed 14

A large proportion of the expenses incurred for the poor is for children necessarily supported by the town. The Overseers board them in suitable homes, and believe that they would suffer morally as well as physically were they less carefully provided for.

The expenses of supporting the poor for the last year have amounted to \$7621.83.

The town appropriation was \$6,000 00
We have received from Boston 358 25
	<hr/> \$6,358 25

CHARLES H. DREW, ELIZABETH CABOT, HENRIETTA CODMAN, HORACE JAMES, OLIVER WHYTE, R. G. F. CANDAGE,	}	<i>Overseers of the Poor.</i>
--	---	-----------------------------------

REPORT
OF
THE WATER BOARD
OF THE
TOWN OF BROOKLINE.

REPORT.

THE Water Board herewith submit their annual report for 1880.

Oliver Whyte was elected Chairman at the annual meeting in April. The officers and employés connected with the works remain the same as at the time of making the report for 1879. The terms of service for which the members of the Water Board were elected will expire as follows : —

William J. Griggs	1881.
Francis Hunnewell	1882.
Oliver Whyte	1883.

As Mr. Whyte, owing to his intended absence from town, has tendered his resignation as a member of the Board, to take effect after the election in March next, it will be necessary to elect two persons to fill the vacancies, one to serve for three, and one for two years.

STREET-MAINS.

Various street-mains, as authorized by the town, have been laid, as shown by the Superintendent's report herewith annexed. There have also been laid sixty-four service-pipes.

The Water Board in their annual report for several years past have called the attention of the town to the advisability of laying a street-main from the reservoir on Fisher's Hill through Boylston street, to connect with the main on Cypress street ; but owing to the large expense (some \$17,000), and

the small revenue likely to be received directly from water-takers on the line, they did not urge, at the time of making their report, that the work should be done. They now think, and would recommend, that the work should no longer be delayed, and for the following reasons : —

First, On sanitary grounds, it is very important that the water in the reservoir should have a more perfect circulation than it now has. Most of our citizens are aware that, as the pipe to the reservoir is now arranged, the surplus of water pumped, over that used by consumers while the pumps are running, finds its way to the reservoir and is retained there until the pumps are at rest or working slowly, when it leaves the reservoir by the same pipe by which it enters and is distributed through the town. Very often, for several days or weeks, the water remains at about the same level in the reservoir, very little entering or leaving until at a time when the pumps are stopped ; the entire supply is then taken from the reservoir, and the quality of the water becomes a cause of complaint.

Secondly, The danger or risk of a break occurring in the main through Warren from Clyde street, or Walnut to Cypress street, by which the larger part of the town is supplied. Should such a break occur, the water would be entirely cut off from nearly the whole of the town until repairs could be made ; but the main, if laid as proposed in Boylston street, would obviate all trouble from such an accident, as it will give, if necessary, an entirely independent supply of water to the town.

Thirdly, The need of water by the residents on the line of Boylston street. There are several very large and valuable estates on the street, the owners of which are very desirous to obtain a supply of water which cannot be had without a main being laid in said street. On one estate extensive alterations and improvements are being made, and there will be a very

large increase in the taxable property, both real and personal, brought into town. A supply of water to this estate is of great importance. On another estate the occupant has been obliged for a number of years to cart the water used on the premises from the hydrant on Walnut street.

For the foregoing, as well as for other minor reasons, the Water Board have no hesitation in urging that a main be laid in Boylston street, and they ask the town to pass a vote authorizing the work to be done.

The only petition for new street mains which have been received by the Water Board up to the time of making this report, and which has not been reported to the town, is the one by the residents on Boylston street, for the main above recommended. In the Water Board's report for 1879, there were two petitions mentioned, one from Henry E. Raymond for main in Goddard avenue, and one from T. C. Brown for main in Beacon street and Englewood avenue. In that report, as the Board could see no immediate prospect of an increase of the water-takers on these lines, and as the income likely to be received would be but nominal as compared with the cost of the work, they did not advise the laying of a main; but since that time, as it is very desirable that the parties should have a supply of water from the town, the Board have proposed to them, that if they will in each case guarantee a payment of 5 per cent. per annum for five years on the estimated cost of laying such mains, as is generally done in the neighboring cities and towns, then the Water Board will recommend the work to be done. This proposition has been assented to by both parties, they agreeing to give such a guarantee.

NEW PUMPING STATION.

At the last annual meeting of the town, the committee having the charge of moving the Pumping Station to Cow Island was discharged, and the completion of the work was

left with the Water Board,—since which time the work has progressed as rapidly as circumstances would admit. With the exception of the building of a house for the engineer, the work as originally intended may be called completed, though it is of importance, and for convenience in the storing of fuel, that another method from that now in use should be adopted for housing the coal used in the furnaces; and this can be accomplished by building a bridge or tramway from the hill opposite the pump-house, by which means some three or four hundred tons of coal can be housed without the expense or waste of extra handling. Such a bridge, including grading, etc., would cost, as estimated, \$550. As the conveniences for storing wood, as well as the many articles used occasionally about the works at the new station, were altogether too limited, a shed 20x40 feet, with loft over it, has been erected, which gives ample room for all storage, as well as for horse-sheds and the privies connected with the works. At the time the estimates for removal of Pumping Station were made, it was thought that a suitable house for the engineer could be erected (using the material as far as practicable from the old station) for about \$1000, but that is found to be an error, as the grounds cannot be prepared, and the house built, for less than \$2300.

For several reasons, among which was the very great increase in price of all kinds of manufactured iron work and parts of machinery, which were obliged to be purchased in large quantities; and also, the fact that when the machinery was taken apart after being in use five years, there was a great amount of labor and expense to be incurred to put it in first class condition in its new locality; and that the lagging or wooden covering which encloses the steam cylinders on the engine was originally put directly on the cylinders without any protection against the heat, and on taking it off was found so badly charred as to be almost worthless, and necessitated a large expense to replace it and have it done in such a man-

ner as to guard against further damage by excessive heat,—these, as well as many other expenses necessarily incurred, and which could not have been foreseen at the time of making up the estimates, have exhausted the appropriation originally made, and leave undone and to be constructed the building of the engineer's house as was intended at a cost of \$1000, and also a balance due the contractor for building the engine-house, of about \$500. There is left of the appropriation of \$35,000, a balance of \$534.58, which lapses into the treasury.

The Board, while endeavoring to make no unnecessary expenditures, have not hesitated to have all the work over which they had charge, done in the best and most durable manner, believing it for the best interest of the town that parts of the original plans should be left undone, rather than any part of the work should be slighted.

The town, at a meeting held September 16, 1880, voted to allow \$1700 of the balance of the appropriation for the extension of the water works, then in the treasury, to be used toward building the engineer's house; but as there was soon after that meeting quite a demand for service-pipe, etc., for which that appropriation was in part originally made, and as it was late in the season, the Board decided to do nothing about the house until spring, and therefore did not draw any part of that sum for that purpose. Shortly after the boilers at the new Pumping Station were put in position, and the fire started, it was found that the great heat arising from them caused the three-inch planking, of which the roof is constructed, to warp and twist in such a manner as to break the slates and very much injure the roof, in fact, so much so that it will be necessary to make very extensive repairs, estimated to cost some \$475. From this cause a disagreement arose between the engineers who furnished the plans and specifications, and the contractor who erected the building; the engineers claiming that according to the terms of the contract, the builder was bound to provide that the roof should remain

in good shape under all conditions, and the contractor demanding his pay on the ground that though the work was done fully up to all the requirements of the plans and specifications, the plans were at fault, and a roof could not be constructed according to them, and remain in good condition. Under these circumstances it was thought best that the original committee of six who had charge of the work from the start, should be called to meet with the engineers and contractor, and endeavor to arrange the affair, rather than have a suit at law brought against the town. A meeting was accordingly held, and it was decided to pay the contractor the amount of his claim less \$475, the estimated cost of putting the roof in good condition, and that the opinion of an architect and also a competent builder be obtained as to the rights of the parties in the case. Such opinions have been furnished, and the committee have reached the conclusion that the contractor cannot be held to repair the roof at his cost, and that if a suit be brought the contractor will collect the full amount of the balance now withheld. They therefore ask the town to pass a vote appropriating the sum of \$475 for the purpose of repairing the roof.

WATER SUPPLY.

The past year has been one of great drought, the water in Charles river falling to a point seven inches lower than it has done since the works have been in operation. During the latter part of June it was found that while the pumps were constantly moving, the amount of water from the filtering galleries would not exceed 1,000,000 gallons daily, while the demand of the town supply was over 1,200,000 gallons. Therefore, acting on the suggestion of General G. S. Greene, C. E., of New York, the Water Board caused a canal 150 feet long to be dug along the banks of the river and parallel with the filtering gallery, and distant from it some thirty to fifty feet, the bottom of the canal being some three feet below the level

of the river, and connected therewith by a gate which can be opened or closed as desired. It was found on digging the canal, although it was but a short distance from the river, and three feet below the level of the water, there was no sign of water finding its way from the river into the canal until the bank of the river was cut and the water allowed to flow in, thereby showing that the bed of the river is so thoroughly cemented by the accumulation of sediment as to be practically watertight. In a short time after the water was allowed to enter the canal, the effect on the supply at the pumps was apparent, and increased the amount some 300,000 gallons each twenty-four hours. The Board do not think the filtering galleries can be depended on to supply more than from eight to nine hundred thousand gallons per day through the dry seasons, but they do not recommend the extension of the galleries, as the estimated cost is so large,—being about \$12 per foot; and the amount of water, according to the opinion of the engineers, will be much less per foot than that supplied by the galleries now in use. Any deficiency in the supply from the galleries can be made up by filtered water from the river by means of the canal. The cost would be but a nominal sum, any amount can be supplied without regard to drought, and at any time the water can be excluded by means of gates.

WASTE OF WATER.

Before the removal of the pumps to the new station, the water supplied to the town, owing to the leakage of the wooden conduit, was of a poor quality; consequently, much was obliged to be wasted at the street hydrants. Therefore, the Water Board took no action on what they knew was an excessive use of the hand-hose, thinking it was better for the citizens to enjoy the benefit of the water on their grounds, than that it should run to waste in the sewers. But now that the water is pure, and owing to its excessive waste by hose

during the summer months (many of the citizens using the hose from six to twenty-four hours per day), and as the number of takers of water, for household purposes, have largely increased, the Water Board will hereafter be obliged to enforce more strictly the ordinance restricting the use of the hand-hose to one hour each day.

POLLUTION OF WATER.

Last fall the Water Board learned that after a discontinuance of several years, parties were about to re-commence the business of washing sheep-skins at the building on Spring street bridge, about a mile above the pumping station. They therefore brought the subject, through the local board, to the notice of the State Board of Health, and were advised to apply to the Supreme Court for an injunction restraining the parties from carrying on the business. That the Water Board proceeded to do, but before the case came before the court, the town placed the matter in the hands of the Selectmen, and therefore no further action has been taken by the Water Board.

BILLS PRESENTED AND UNPAID, CONNECTED WITH THE MOVING OF THE PUMPING STATION.

The Board desire to lay before the town a matter connected with the final disbursements for removing the pumping station, and have subjoined a few bills, to which they call attention.

At the special town meeting, held October 10, 1878, a committee was appointed "to examine the cause of the alleged impurity of the water supply ; the best way to remedy it, with power to consult experts." At a subsequent meeting held April 29, 1879, the sum of one thousand dollars was appropriated to meet the expense of these investigations. Of this amount one hundred and twenty-five dollars and seventy-five cents were paid for sinking test wells, etc., near the site

of the proposed pumping station, and the balance, eight hundred and seventy-four dollars and twenty-five cents, was paid Messrs. Shedd & Sawyer for various preliminary surveys, drawings, and consultations. This amount they received, as the committee regarded it, as a full settlement for this portion of their services, although their bill rendered was for one thousand dollars. In the report submitted to the town by Messrs. Shedd & Sawyer, with their estimate of the cost of removing the pumping station, dated March 29, 1879, the sum of fifteen hundred dollars is named therein for engineering services, and in these estimates, upon which the appropriations were made for this work, no other sum is mentioned as incidental to the engineers' services.

Various sums at sundry times were paid the engineers during the progress of the work, until the sum had amounted to eighteen hundred and twenty-five dollars, as is shown in the final report of the Special Committee, submitted to the town March, 1880. The excess of \$325 over the estimate for engineering services is explained in the receipt given by Messrs. Shedd & Sawyer, which reads, "Plans for Engine House." Now, at a late date, as the annual report is about ready for print, the subjoined bills are rendered. It may be proper to state in relation to the bill for architectural services in connection with the new house for engineer, that the plans and specifications submitted were found to be unsuitable, on account of the estimated cost of the building, as well as for other reasons, and were made no use of.

BOSTON, January 20, 1881.

THE TOWN OF BROOKLINE,

TO SHEDD & SAWYER, Dr.

For services and expenses for Water Committee,			
to April 1, 1879, as per bill rendered,	.	.	\$1,000 00
Sept. 18, 1879. Cr. by Cash on account,	.	.	874 25
			<hr/>
			\$125 75
For personal services, services of Assistants, and			
expenses in relation to Water Supply, under			
direction of a Committee of the Town, in April			
and May, 1879,	325 29
			<hr/>
			\$451 04

PROVIDENCE, January 29, 1881.

THE TOWN OF BROOKLINE,

New Pumping Station,

To SHEDD & SAWYER, Dr.

For estimated cost of engineering, in reference to
the New Pumping Station, \$1,500 00

Cr. by Cash received at various times, 1,425 00

Balance, , . . . \$75 00

Received Payment.

PROVIDENCE, January 29, 1881.

THE TOWN OF BROOKLINE,

New Pumping Station,

To SHEDD & SAWYER, Dr.

For balance due for architectural services in relation
to Engine House, etc. \$225 00

Received Payment.

PROVIDENCE, January 29, 1881.

THE TOWN OF BROOKLINE,

New Pumping Station,

To SHEDD & SAWYER, Dr.

For architectural services in relation to new house
for Engineer, \$105 00

Received Payment.

PROVIDENCE, January 29, 1881.

THE TOWN OF BROOKLINE,

To SHEDD & SAWYER, Dr.

For professional services for the Board of Health in
reference to purity of water supply, and tem-
porary arrangements for improving the same,
in September, 1879, \$37 50

Received Payment.

PROVIDENCE, January 29, 1881.

THE TOWN OF BROOKLINE,

New Pumping Station,

To SHEDD & SAWYER, Dr.

For services for Wm. M. Brown, Jr., as foreman,
from December 16, 1879, to March 7, 1880.
Thirty-one days, at \$3.00, \$93 00

Received Payment.

These bills amount in the aggregate to \$986.54, and should the town decide to pay them, an appropriation will have to be made for that purpose.

The extension of the grounds connected with the pump-works, the addition of another engine and other machinery, thereby largely increasing the consumption of coal, together with the large increase of water-takers throughout the town, have augmented the amount of work to be done, and added materially to the cost of maintenance; and the Water Board ask that the appropriation of \$8000 be made for that purpose. The Board also ask for the passage of the following vote:

Voted, That there be appropriated for the several purposes connected with the construction and extension of the water works as hereafter named, the sum of \$26,970; and that the Water Board are authorized to carry out the different works as specified, viz:

For laying main in Fisher's avenue and Boylston street, to connect the reservoir with main in Cypress street	\$17,000
For laying main in Beacon street and Englewood avenue, to a point opposite the estate of T. C. Brown, provided the said Brown signs an agreement to pay to the town five per cent. per annum on the estimated cost of laying the same, less such an amount as may be chargeable to water rates on said street and avenue; said payment to be made yearly, in advance	2,725
For laying a main in Goddard avenue, from Cottage street to a point opposite the estate of Henry E. Raymond, provided the said Raymond shall sign an agreement to pay the town five per cent. per annum on the estimated cost of laying the same, less such an amount as may be chargeable to water rates on said avenue; said payment to be made yearly, in advance . .	1, 620
For putting in service-pipes throughout the town, and other work incidental thereto	1,200
For building house for engineer's use. . . .	2,300
For building bridge at coal house	550
For repairing roof of engine house	475
For bills remaining unpaid on account of moving pumping station	1,100

The following statistics are compiled from the books of the Water Registrar :

WATER TAKERS.

Families	1,278
Public boarding houses	4
Private hotels	4
Stores and shops	60
Public stables	11
Private stables	151
Greenhouses	26
Bakery	1
Gas-house	1
Halls	2
Railroad stations	4
Town buildings	10
Churches	4
Printing office	1

REVENUE COLLECTED.

	1879.	1880.
From private consumers	\$11,598 99	\$12,828 69
Rent of engineer's house	200 00	200 00
Sale of pipe	78 59	42 88
Sale of old material	6 83	16 90
Meter and repairs of meters		17 25
From Town of Brookline :—		
Highway Department	2,028 00	2,028 00
Fire Department	3,833 00	3,988 00
School-houses	78 00	78 00
Police station	28 50	28 50
Town Hall	56 00	56 00
Public Library	18 00	18 00
	<hr/>	<hr/>
	\$17,925 91	\$19,302 22

The rates are usually promptly paid. But few fines have been levied, occasioned by the shutting off of water to delinquent tax-payers. In the five years of collection of rates, which have amounted in the aggregate to more than \$50,000, there has been a loss of only \$33.41.

The cash water receipts for the five years since the introduction of water, are shown below :

1876	\$6,600 78
1877	8,877 13
1878	10,816 24
1879	11,884 41
1880	13,105 72

The annual revenue of the Water Department is now sufficient (unless the extensions of mains, etc., by vote of the town, in any one year should be exceptionally large,) to defray the annual expenses of both the maintenance and the extension accounts.

CONSTRUCTION ACCOUNT.

Expended to Feb. 1, 1880 (see last report) \$591,189 55

Expended from Feb. 1, 1880, to Feb. 1, 1881,
as follows :

On account of street-mains	.	\$4,360 35
service-pipe	.	1,186 58
hydrants and gates		305 75

Repairs, filtering gallery, conduit, and force-main	79 89
Repairs, engine house	25 70
Salaries and office expenses	1,201 03
Miscellaneous	442 07
Road and grounds at pumping station	23 55
	<hr/>
	\$7,578 94

We take pleasure in commending the efficient services of the Water Registrar, the Superintendent of the works, and the Engineer at the pumping station, who have greatly aided us by the intelligent, faithful and skilled labor, performed in their respective important departments.

OLIVER WHYTE,
F. HUNNEWELL,
W. J. GRIGGS,

Brookline Water Board.

BROOKLINE, Feb. 8, 1881.

REPORT OF THE SUPERINTENDENT.

To the Brookline Water Board:

GENTLEMEN, — I have the honor to present herewith the annual report of the Superintendent for the year ending Feb. 1, 1881.

EXTENSION OF STREET-MAINS.

Owing to the enhanced value of materials and labor, the cost of street-mains was correspondingly increased. The system of doing all work by the day has been followed the past year, with results quite favorable to the town, both in regard to expense and quality. The list of streets and private ways in which the water-pipe has been laid, with cost of each, is as follows :

SIX-INCH MAINS.

Tappan street, from Beacon street to Gorham avenue, along Gorham avenue to Davis avenue,	
a distance of 4151.9 feet. Total cost . . .	\$3,745 71
Ridgway street, from Freeman street, a distance of 241 feet. Total cost	320 57

TWO-INCH MAINS.

From end of pipe on Webster place, to Harrison place, easterly along Harrison place, a distance of 429.5 feet. Total cost	207 78
Kerrigan place, from end of pipe as before laid, a distance of 93.5 feet. Total cost	72 82

The change of grade in Thayer place, now called Thayer street and Thayer place, necessitated the re-laying of the two-inch pipe there, and as Thayer street was to be carried through to Davis avenue, it was thought best to re-lay that part in Thayer street with six-inch pipe; a portion of the expense was charged to the building of Thayer street. The total cost was \$223.47.

SERVICE-PIPE.

The number of service-pipes laid the past year was 64.

45 of these were laid with lead, at an expense of	\$727 01
and 19 with tarred iron pipe, at a cost of . . .	192 31
Total cost	<u>\$919 32</u>

In October, a small leak was detected in a service-pipe in Brookline avenue, and upon examination, the iron was found badly corroded by action of the salt-peat mud, by which it was surrounded; this knowledge led to a careful examination of all other service-pipes in the same materials, and without exception they were found in an unsafe condition, and were re-laid with lead pipe, at a cost of \$102.85.

LEAKS.

The number in street-mains was 3, costing to repair	\$33 90
in force-main, 1, costing	6 10
in service-pipe, 3, costing	13 36
Total number of leaks, 7. Total cost	<u>\$53 36</u>

Below is a summary of leaks for the last four years. In 1877, 29 leaks; in 1878, 27 leaks; in 1879, 22 leaks; in 1880, 7 leaks;—by which it will be seen that the record for the past year is much smaller than for any previous year since the water was introduced.

HYDRANTS.

Five hydrant-valves have been renewed, at a cost of \$27.32, and this, with frequent inspection, has been the only outlay on them. None have ever frozen.

RESERVOIR AND FILTERING GALLERIES.

The reservoir was carefully cleaned last April, since which time nothing has been done outside of the regular maintenance.

The filtering galleries were examined last December by going through them, and no signs of any recent disturbance in the masonry could be detected, and they are apparently in condition to last many years. An accumulation of fine sand on the bottom should be removed the coming season. The apprehension that the greater influx of water, due to the admission of river water into the gravel beds surrounding the galleries, would undermine the walls, seems to be unfounded.

The total cost of opening the canal to the river and maintaining it was \$82.04.

CONSUMPTION OF WATER.

The consumption of water is quite large, but that very little is lost by leakage from the mains, has been quite definitely settled by experiment. The method pursued was to shut off sections of the town during portions of the night and keep an accurate record of the fall in the reservoir; by comparing this record with one within the same section in communication with the reservoir, the amount of leakage could be determined, and in every case the leakage was traceable to water fixtures, either out of repair or left open. To prevent this waste, frequent examinations have been made, water fixtures reported leaky repaired, and the water cut off, in cases where it was left running through carelessness; but to stop the waste without the aid of a water meter, in certain classes of tenement houses, is an exceedingly difficult task. The water wasted to prevent freezing is a serious item in the consumption during the cold months.

The plumbing in every house should be so arranged that the pipes and fixtures would not freeze. This could be done in nearly every case, and those who do not so arrange their plumbing have no reason to complain if the water is cut off. One-half inch faucet left running for twenty-four hours would waste 10,000 gallons, which if paid for by meter would cost \$2 per day, or \$730 per year. Very few water-takers realize this.

I subjoin the following tables, the record of consumption, location of gates, hydrants, etc.

All of which is respectfully submitted.

F. F. FORBES,
Superintendent.

LIST OF HYDRANTS.

Number of hydrants set, as per last report, 154. The following have since been set in 1880 :—

- One on Tappan Street, near D. H. Rogers's house.
- One on Tappan Street, near W. I. Bowditch's house.
- One on Tappan Street, near H. V. Long's house.
- One on Ridgeway Street, near John Keegan's house.

Total number to date, 158.

LIST OF STOP-GATES SET IN 1880.

- One 8-inch gate, Washington and Thayer Streets.
- One 8-inch gate on Washington Street, near Gas House.
- One 6-inch gate, corner Tappan and Beacon Streets.
- One 6-inch gate, corner Davis Avenue and Gorham Avenue.
- One 6-inch gate, corner Freeman and Ridgeway Streets.
- One 2-inch gate, near hydrant on Webster Place.

WATER-CART FEEDERS.

Number, as per last report, 17.

Set in 1880, one corner Harvard and Second Streets.

Total number to date, 18.

DRINKING-FOUNTAINS SET.

One in Harvard Square.

One on Boylston Street, near Duffy's shop.

One on Boylston Street, corner of Brighton Avenue.

One on playgrounds, Cypress Street.

Set in 1880, one corner Aspinwall Avenue and St. Paul Street.

List of tools and materials on hand Feb. 1, 1881, is on file at office, Town Hall.

REPORT OF ENGINEER.

PUMPING-STATION, BROOKLINE WATER-WORKS,
WEST ROXBURY, Feb. 5, 1881.

To the Brookline Water Board.

GENTLEMEN,—I have the honor to present the report of the Engineer for the year ending Feb. 1, 1881.

The pumping engines are in first-class condition. Engine No. 2 was connected to the forcè-main in February, and was run steadily for three months while the old engine was being moved. It works very well, and can easily pump all the water used by the town without running it to its full capacity.

Engine and boiler No. 1 have been moved and set up in position. Before erecting the engine all the working parts were put in first-class order. A new plunger, $1\frac{1}{4}$ inches less in diameter than the old one, has been put in the high-pressure side, and metallic packing put on the piston rods. The steam cylinders and steam pipe are covered with ash felting. Additional stays and a surface blow-off have been put in the old boiler. The feed-pump has been fitted with new plungers, pistons, and piston rods.

The moving and erection of engine and boiler, building of engine foundation, and all the pipe work, was done under my supervision. The boilers were set according to plans furnished by Messrs. Shedd & Sawyer, Civil Engineers. The duty of the engine is not so good as it was last year. This is mainly due to the way in which the boilers are set, for, although it takes more coal than heretofore to pump a given quantity of water, a comparison of the indicator cards taken here and at the old station, show that the engine uses less steam than before to do the same work.

The following tables show the record of both engines, and the pumping expenses for the year.

Respectfully submitted,

RICHARD J. FLINN,

Engineer.

ENGINE RECORD FOR THE YEAR ENDING FEBRUARY 1, 1881.

ANNUAL REPORT
OF THE
BOARD OF SCHOOL COMMITTEE
OF THE
TOWN OF BROOKLINE,
FOR THE YEAR ENDING JANUARY 31, 1881.

REPORT.

At the first meeting of the Board for organization, W. H. Lincoln was chosen Chairman, and W. Goddard, Jr., Secretary.

The terms of service for which the several committee-men were elected, expire according to the following table :

1881.	1882.	1883.
A. MASON.	W. H. LINCOLN,	D. B. VAN SLYCK.
L. K. STORRS.	W. T. R. MARVIN.	C. CURRY.
W. GODDARD, JR.	L. J. MORRIS.	M. DRISCOLL.

MEMBERS OF THE ADVISORY BOARD OF LADIES.

MISS E. Q. GUILD.	MISS M. C. STEVENSON.
MISS BOWMAN.	MRS. FRANCIS CABOT.
MRS. F. S. FISKE.	MISS S. G. LITTELL.
MRS. F. HAVEN.	MRS. W. H. WILDER.

The following are the various sub-committees of the Board :

HIGH SCHOOL.	GRAMMAR SCHOOLS.
W. GODDARD, JR.	W. H. LINCOLN.
A. MASON.	L. J. MORRIS.
W. T. R. MARVIN.	C. CURRY.
PRIMARY SCHOOLS.	TEACHERS.
M. DRISCOLL.	W. GODDARD, JR.
L. K. STORRS.	W. H. LINCOLN.
D. B. VAN SLYCK.	L. K. STORRS.
FINANCE.	EXAMINATIONS.
M. DRISCOLL.	W. H. LINCOLN.
D. B. VAN SLYCK.	W. T. R. MARVIN.

SUMMARY OF STATISTICS.

Population of Brookline (U. S. census for 1880)	8,074
Number of children between five and fifteen years of age, May 1, 1880	1,303
Decrease upon number returned May 1, 1879	49
Valuation of school buildings and grounds, May 1, 1880	\$116,500 00
Approximate value of other school property, as desks, pianos, books of reference, etc.	5,200 00
Assessed valuation of real and personal estates of Brookline, May 1, 1880	\$22,869,700 00
Amount raised by taxation for support of day schools, including repairs	\$36,500 00
Total expenditure for schools for year	35,363 19
Percentage of valuation expended for schools00154
—or a little more than a mill and a half per dollar.	
Cost of instruction for each pupil, based on average whole number, including incidentals	\$32 00
Whole number of different pupils enrolled in all the schools for the year	1,418
Average whole number for year	1,105
Per cent. of attendance in all the schools, based on an average whole number	92.6
Number of pupils over fifteen years of age	162
Number of pupils enrolled in all the schools for the week ending Jan. 22, 1881	1,198
Of which there were in High School	80, or 6.7 percent.
Grammar Schools	626, or 52.2 percent.
Primary Schools	492, or 41.1 percent.
Average number of pupils to each teacher in High School	20
Average number of pupils to each teacher in Grammar Schools	37
Average number of pupils to each teacher in Primary Schools	38
Number of teachers in High School	4
Grammar Schools	17
Primary Schools	13
Special teachers : drawing, 1 ; music, 1 ; sewing, 1	3

THE School Committee herewith present to the town a report of their labors during the past year, and a review of the general condition of the schools under their charge. The Advisory Board of Ladies and the Superintendent of the Grammar Schools also render reports, which are embodied in that of the School Committee.

Regular meetings of the School Committee, excepting during the summer vacation, have been held on the second Monday evening of each month. Special meetings have also been called as occasion required. The Committee have met the Advisory Board on the Thursday afternoons preceding the regular Committee meetings, and some of the Committee and Advisory Board have attended the monthly Teachers' meetings. At these meetings, topics, usually assigned at the previous meeting, relating to school work, are discussed. Occasionally some one connected with the State Board of Education has been invited to address the teachers. The Chairman of the Board, at the request of the teachers, has presided, and Miss Deane, of the High school, has performed the duties of Secretary. Perfect freedom in the expression of views has been given to all the teachers, and an opportunity has thus been afforded the Committee, not only of learning their opinions, but also the difficulties that lie in the way of the faithful, earnest teacher. A new interest in school work has been created by these meetings, and by mutual sympathy and counsel, all have been better enabled to perform their duties to the schools. The Advisory Board freely "compare notes" with the Committee, and thereby both have been aided in arriving at wiser conclusions.

Much of the real work of the Committee has been done by the various sub-committees into which the Board is divided. Few changes during the past year have been made, and the school work has progressed in a satisfactory manner. Mr. Daniels has continued to discharge the duties of Superintendent, and the schools have prospered under his direction.

No important change has been made in the course of study. The High School Committee have been engaged in preparing a new course of study for that school, and it will probably be ready for adoption before the opening of another school year. This Committee unanimously favor extending the time to five years for completing the classical course of study.

In the Grammar schools, more attention has been given to reading and composition. A detailed account of what has been done in the Grammar and Primary schools is given by the Superintendent.

The Evening school has not been so well attended this year as formerly. The Sub-Committee on that school are unable to understand why this state of things exists. Peculiar circumstances, such as the national election, may have affected the attendance this year. The Committee think it wise to open the school another year, and to include drawing in the branches taught, but recommend that it be immediately closed if a sufficient number of pupils do not present themselves at the opening of the school. It ought to be said that those who have attended have been faithful and studious.

TRUANCY.

Special attention has been given to the work of reclaiming truants, and with unusual success. The truant officer has been efficient, and his labors have been well supplemented by the teachers, who have exerted not only a personal influence upon the pupils, but upon the parents. The cases of truancy have greatly diminished, and the *morale* of the Ward school, particularly, has greatly improved.

WARD SCHOOL.

Mr. Farnham, the head teacher of this school, lately of Quincy, and recently appointed, has succeeded admirably in securing proper discipline and in obtaining the respect and esteem of the pupils. This school has suffered from frequent but necessary changes of teachers in the upper grades, and has received our most solicitous care. To secure a proper person for Principal's head assistant, was a matter of the highest importance; such an one should unite firmness with kindness, and at the same time have the ability to instruct. Mr. Brown, who had been doing well, was called to the superintendency of the schools of Quincy, and we were fortunate in securing so able a successor as Mr. Farnham. The cases of corporal punishment are rare, and yet most excellent discipline, both in the building and yard, is preserved.

SEWALL STREET SCHOOL.

It was found necessary to occupy both of the rooms in this building, on account of the rapid increase of pupils in the lower grades. All of the rooms in this building are now in use, and it is fortunate the town responded so promptly to our request for a new building.

VENTILATION.

Considerable space was allotted this important subject in the last annual report. The system introduced last year has continued to work well. The quality of the air in the school-rooms is much improved, as is very perceptible to those in the habit of visiting the schools. The system, in the vacation, was introduced into the High school building. Our thanks are due Dr. Van Slyck for time and effort devoted to this subject. The town has been liberal in its

appropriations for this object, but we are confident the money has been well spent. All of our school-rooms are now thoroughly ventilated without exposing pupils and teachers to draughts of cold air, and thus endangering their health.

EXAMINATIONS.

No change has been made in the methods of conducting the written examinations. With the exception of the Ward school, the results attained compare favorably with those of previous years. For reasons already given, the Ward school has been hindered in its progress, but we look forward to a future for that school which has not been equalled or approached in the past. Important changes were made in the primary course of study over a year ago, particularly relating to methods of instruction, and these schools were never in so good condition as at present. The grammar classes have kept up to their former high standard.

MUSIC.

Mr. O. B. Brown has continued in charge of the musical instruction in the schools. The same system is now pursued which was adopted four years ago.

DRAWING.

Miss Emma T. Parker, after the resignation of Miss White, was appointed teacher of drawing. Miss Parker reports a decided and increased interest in drawing among the pupils of the High school, and a corresponding improvement in their work. Drawing-books have, for the first time this year, been put in the hands of the Primary children; and good results are expected to be shown by the more advanced work they will be able to do in consequence of this change.

REPORT OF THE ADVISORY BOARD.

The report of this year will be more of what we hope may be done than of what has been done; yet we have much pleasure in stating the success of the system of penny savings which has been tried in three rooms of the grammar classes, in the Ward, Pierce and Harvard schools.

The interest of the children was at once awakened by the offer of the School Committee. Books were prepared for recording the amount of money received. When the account in any child's book amounts to fifty cents, the money is deposited in the Brookline Savings Bank.

The first collection in the Ward school amounted to \$3.60; in the Pierce school, to \$6.76; and in the Harvard school, to \$10.97; in sums varying from one cent to three dollars; this last from a boy nine years old, who earned it, and has since earned eighty cents more. We feel a strong wish that the system of penny savings should be carried into all the rooms of the grammar classes, and believe the teachers will be willing to receive the money once a week, if some arrangement can be made for recording and depositing it outside of the school-rooms.

The ladies are still convinced of the wisdom of teaching sewing, only they wish it might be carried farther, into the higher classes.

We wish as strongly as ever some teaching could be given in the Grammar schools on trade, finance, and representative government. Would it not be possible to hire some competent person to give a lesson or lecture on these subjects once a month to the teachers, who might take notes and give oral instruction, or lessons in dictation, to their different schools? We already hire teachers in drawing, elocution, music and sewing.

It is, however, still more important to give some practical teaching to a large class of our boys who leave school at

fourteen or fifteen years of age to earn their living by their hands. "What training have their hands received in the school, that will be of much use to them?"

In Denmark, under the superintendence of Herr Classen Kause, a workshop is connected with each public school, in which each pupil is required to spend part of every day, that the fingers may be taught skill, and the brain understanding to direct skilled fingers. When this is done the difficult problem of how to prevent crime is half solved.

Is it not possible to provide next summer a vacation school four mornings in the week, at the Ward school-house, with teaching from a carpenter, and perhaps a cobbler. For it is something to know how to handle tools, and even to drive a nail straight. It might be tried for one vacation, by subscription.

We wish, also, to emphasize our confidence in nature's method of teaching,—teaching the youngest pupils in the schools as they are taught to talk and to walk; by imitation, to lure them on by kindness and excite their interest and pleasure in learning, not puzzling them by rules and discipline. To teach them to respect and love their teacher, and be kind to one another; to give up using bad words, to want to be clean, and to know what it is to speak the truth, is far wiser and better teaching than to enable them to pass an examination in reading and spelling before strangers, or to meet the requisitions of the programme: so much learned in so much time, which is the stumbling-block in the way through all the grades of our public schools.

It is very difficult to come to a fixed opinion upon the subject of exhibitions. At first sight it seems all wrong, and as one lady expressed it, "Worse than useless, and unworthy of the intelligence of this age and community, that this early sowing of the seeds of self-consciousness, vanity, and love of display, should form a part of our public school system." Another thinks the number of parents present, interested

and pleased with the success of their children, should be taken into consideration, and thinks it a good rather than an unwise thing to connect some entertainment with the school. Another thinks there is no object in the exhibition of music at the Town Hall, and thinks it should not be oftener than once in five years, and then only as an exhibition of the mode of teaching.

An English writer on education says: "I would have no woman speak before an audience unless she was under ten or over thirty."

We wish to call attention again to the need of forming a Teachers' retiring fund. A committee of the Boston School Board offered a report on this subject last June, "School Document No. 10," which may suggest a plan for the Brookline School Committee to follow.

E. Q. GUILD,

Secretary of Advisory Board.

REPORT OF THE SUPERINTENDENT.

To the School Committee of Brookline.

In compliance with the requirements of your regulations, I herewith respectfully submit my report, for the year ending Jan. 31, 1881:—

IRREGULAR ATTENDANCE AND TRUANCY.

In former reports the committee have laid considerable stress upon the evil effects upon the schools, arising from irregular attendance and they have in some cases suggested a remedy, but still the evil, although recently somewhat abated, continues to be an obstacle too formidable to pass by unnoticed.

If we could feel assured that all absentees have good and valid reasons for staying away from school, we might safely let the matter rest ; but we are forced to believe that in many cases of absence, no justifiable excuse can be given.

After giving the matter careful consideration, I find that a very large proportion of the absence is confined to few children kept at home by their parents, thoughtlessly, and from habit, for the most trivial reasons, rather than from any real necessity. Other parents, apparently with no less inconvenience to themselves, but evidently appreciating the advantages of an education, as some have voluntarily expressed to me, are willing to make a personal sacrifice to keep their children regularly at school.

The statutes plainly do not leave the matter to the convenience, caprice, or indifference of either parents or children, but they must attend some school. The duty of School Committees is so clearly defined that to err ignorantly is next to an impossibility.

All admit that for a child to derive the greatest benefit possible from his school, he must be punctual and regular in his attendance — be at school when it begins, and stay till it closes.

That there are unavoidable cases of absence, no one will deny, but I believe they are much fewer in number than we have supposed.

The chief causes of absence from school are the following : —

1. Sickness of pupils or other members of the family.
2. Destitution.
3. Indifference of parents.
4. Truancy.

(1.) The first cause, except temporarily while some contagious disease is prevailing among children, does not materially affect the schools. Absence from sickness of pupil is unavoidable and often justifiable when there is other sickness in the family.

(2.) Where there is health there should be no destitution to the extent of depriving children of school privileges. There may be isolated cases where frugal, industrious parents, with a large family of children, and without steady employment, find it difficult to provide suitable clothing for them to wear to school; but surely in Brookline, all families of this kind, on making their necessities known, would be promptly and cheerfully supplied. It will not do to assume that there is good cause for absence, but inquiries must be promptly made.

The truant officer should not be regarded as an enemy to parents or children, but as a friend and helper to both. Who can so well procure information, and with so little obtrusiveness, as he who visits every day the schools where absence may occur from the circumstances mentioned? Who can so quietly, and with so little display, distribute such articles of clothing as may be needed? The parents would be convinced thereby that we intend to make it possible, so far as within the power of the Committee, for every child to receive all the benefits which the statutes contemplate in the education of the rising generation. And here I cannot refrain from saying, that this winter, at the suggestion of the teachers, many articles of clothing have been contributed by pupils, and sent to schools where they were needed, the teachers manifesting real interest in their pupils, and in some cases taking the garments home and mending them for the children.

(3.) But how shall we reach the indifferent parents and cause them to become interested, and not only to send their children, but to see that they go to school and stay there through the session?

It may be said that the schools should be made so attractive that the children would not willingly be absent. If the responsibility rested alone with teacher and pupil, there would be fewer cases of absence than now; but the irregu-

larity will be greater or less as the *parents* feel the importance of keeping their children constantly at school. The personal visits of teachers to the parents, have in some instances been productive of good results.

A practice, which has of late diminished through the personal influence of the teachers, has long existed in the Ward school, of allowing pupils to be dismissed as early as half-past eleven o'clock, to carry dinners to their fathers or brothers who are at work at so great distance from home as to make it either inconvenient or impossible for them to go home and get dinner and return in season for the afternoon work. I am happy to say that this custom has been far from universal. Many parents would not allow their children to be dismissed for any such purpose, and in order to prevent the necessity, they take their dinners with them when they leave home in the morning; and I believe all, or nearly all, could do the same thing with little inconvenience to themselves, if they were so disposed.

Children who are thus dismissed lose on an average one-third of their time at school; often are absent at important recitations; become a drag upon their class; have little or no interest in their school, and fail so badly at recitations and examinations that they are a source of mortification to themselves and their class; and still in many cases the fault is not their own. If no one suffered but themselves, the mischief done would not be so serious, but the class is delayed to listen over and over again to explanations and illustrations which have become stale to them, but without which the absentees or irregular pupils must surely drift back to the lower classes. This custom, unknown elsewhere, if continued, will in the future, as it has in the past, be a serious obstacle to progress in the Ward school.

(4.) One of the most difficult problems connected with our school system, and which is yet to be solved, is just what to do with boys who occasionally absent themselves from school

without the knowledge or consent of their parents. They are as yet an entirely different class from the confirmed truants. A boy does not voluntarily stay away the first time, but he is enticed by some acquaintance who is more or less experienced in "bunking," as the boys call it, and he yields to temptation. If wisely managed, this may be his only attempt at truancy, but if he escape detection, and at the same time the love of home and school do not restrain him, he will find it easier to yield a second time and perhaps not return so promptly; and finally he becomes unmanageable at home, a constant absentee from school, loafing about the streets, and soon falls into vice of one kind or another, and sooner or later he is sent to some reformatory institution.

I think, in nearly all cases of confirmed truancy, on inquiry being made, it will be found to be due mainly to inefficiency in the family government.

If all parents, as many do, could and would coöperate with the teachers, truancy would soon be a thing of the past.

COURSE OF STUDY AND EXAMINATIONS.

The course of study prescribed by the Committee for Grammar and Primary schools more than a year ago remains substantially as adopted at that time, and meets our present wants quite well; but it is impossible to prepare a course of study which will meet the demands upon the schools for all time. To stand still or to rest satisfied with the past, or even with the present condition of our schools, would be virtually to retrograde, and they would soon fail to meet the demands of this age of progress.

It must be understood that the course of study, with the suggestions contained therein, leave the method and general plan of presenting subjects largely to the teachers.

Examinations, written so far as practicable, are given twice a year, under the direction of the Sub-Committee on Exam-

inations, and the questions are intended to be of such a character as will enable them to determine with some degree of accuracy what knowledge the pupils have of the branches taught, and to ascertain as far as possible their power to grasp and solve problems other than those in their text-books, and indirectly to ascertain the success of the teachers,—the great object of instruction being to enable children to think closely and connectedly, to reason and apply principles and draw their own conclusions, rather than to memorize.

While our course of study clearly indicates the work to be done from term to term in the various branches of study, the statutes lay equal stress upon the moral training of the youth,—and here we cannot so satisfactorily apply a test which will show on paper the moral standing of the pupil in regard to purity of thought, truthfulness, generosity, charity, honesty, and the other virtues; but we have reason to believe that the teachers generally are faithful and conscientious in this particular, and that they recognize the paramount importance of building up characters which will make the pupils become honorable citizens.

GEOGRAPHY.

In watching the work of the several classes, and considering the relative value of the different branches taught, I am forced to the conclusion that geography has an undue prominence in the schools. It is a memory study occupying five and a half years in our course, with an average of three lessons per week, largely spent in lumbering up the mind with a mass of comparatively unimportant details in the shape of map-questions soon to be forgotten.

The most important facts to be taught in geography are the following: Outlines and features of a country, to be fixed in the memory by map-drawing and moulding; surface; mountain and river systems; climate; productions,

including animal and vegetable life ; occupations ; exports and imports ; religion ; government ; a few of the great cities of the world, and the great commercial centres ; the size of states, countries, continents, length of rivers, and heights of mountains,—should be learned relatively.

A knowledge of the above and a familiarity in the use of encyclopædias, would give facility in looking up details which might be needed for any specific purpose, and thus bring relief to the already over-taxed memories.

BOOK-KEEPING.

I think the plan adopted last year, of giving the graduating classes in the Grammar schools some knowledge of simple accounts, was wise. Many children cannot well afford the time to pursue their studies beyond the Grammar schools, and it was for them mainly that this branch was added to the list of studies. Of course it would not be practicable or desirable to give them any extended insight into all the intricacies of what is called double-entry book-keeping, but to give them such instruction as will enable them to keep a journal and ledger suitable to their wants in after life.

READING.

The greater part of our pupils on leaving the public schools will discontinue a systematic course of study, but almost all of them will read more or less, as time and circumstances may allow. To my mind, our schools exert too little influence in forming a taste, positive and marked, for good and substantial reading, such as travels, histories and biographies. But it would seem to be the province of the teacher to know what books the pupils are reading, and also to recommend books of unquestionable value, and to set apart a small portion of school time for the discussion of the books read.

It is to be hoped and expected that the schools will be indirectly benefited by the lessons in elocution recently given to the teachers by Miss E. M. Ballou, and which have been so eminently practical. I believe they were needed, and I think the money was judiciously expended. If there is any one branch of study in our schools which needs, more than any other, the most assiduous attention of the teachers, it is in the education of the children to a just and ready appreciation of the thoughts contained not only in the various reading books, but in all the other text-books which the children are using.

CONCLUSION.

In presenting this my second annual report, I can say, briefly, that I have devoted my whole time the past year to the schools, examining and inspecting them, and advising with the teachers, thereby enabling me to form definite and settled opinions of the various schools and teachers.

This, however, is not a report in which to go into a detailed account of the condition of individual schools, nor to discuss the merits of individual teachers; neither must it be inferred that all schools are equally good, nor that all teachers are equally able, or that they can be made so. Different elements enter into the composition of the schools, sometimes embarrassing, and often beyond the control of the teachers; then, again, all teachers have not the same fitness, either in preparation or natural aptitude, for their special work. Some are constantly improving in their methods of instruction and discipline. We cannot judge wholly of the teacher's success by the percentage of correct answers which her class may be able to show at examinations. Very many circumstances and conditions should be considered before a teacher is pronounced a success or a failure. If the teacher can control her school, and at the same time

is so interested in and devoted to her work that she will give her time and study to her school and its needs, and will avail herself of the means within the reach of all teachers for information and improvement, she will in the end succeed.

In closing, I am impelled to express my gratitude and heartfelt thanks, first, to the Committee, from whom I have uniformly received firm support and wise counsel; and, second, to the teachers, who have so kindly received suggestions, and so willingly and ably aided me in all attempts to improve the schools; and lastly, but not least, to the many children, who have at all times been so respectful and who have so generally been faithful in the many tasks which to them have often been arduous.

D. H. DANIELS,
Superintendent.

APPROPRIATIONS.

There will be needed the coming year to defray school expenses :

For Salaries	\$29,200 00
Sewing teacher	550 00
Music "	600 00
Drawing "	250 00

--	----------

CONCLUSION.

While much of the detail of the work of supervision and direction devolves upon the Superintendent, and can be more efficiently and satisfactorily discharged by him than by individual members of the Committee, the responsibility rests upon the Board. It is to the Board that the town looks for a proper maintenance of the schools and for a creditable standard of education. The town is liberal in its appropriations ; it responds with alacrity to whatever seems requisite to secure good results, and it should have in return as excellent schools as can be found in the State. We do not claim that perfection has been reached ; we do not deny that there are improvements yet to be made ; but our system appears adapted to existing wants. The excellence of a school depends mainly upon the character and ability of the teacher, and it is the duty of your School Committee to make the best selection possible, and the responsibility rests upon them to dismiss a teacher when it is evident the work cannot be performed in a satisfactory manner. A careless selection, in a very short time, will work incalculable harm.

Without desiring to make any invidious distinctions, we cannot refrain from giving our testimony to the untiring devotion and unsparing efforts of some of our teachers, upon whom unusual responsibility has rested. There are those who have a large number of pupils under their charge, and some have a class of scholars that require especial care and training. Their influence and work have not been confined to the school-rooms or to school-hours, but have penetrated to the homes. It is in this way that the teacher can attain to eminent usefulness in her calling.

We congratulate ourselves upon possessing a corps of teachers, all of whom are earnest and faithful, and a large majority of whom are especially fitted by nature and education for their high and noble mission. Our teachers have

been selected from large numbers of applicants, and with the greatest care. For two years past, whenever it has been practicable, the Superintendent and Committee on Teachers have visited the schools where the applicants were teaching, and thus have been enabled to form more correct and intelligent opinions. The old theory, that anyone can teach a primary school, has been utterly discarded, and we have given as much care in the selection of our lowest primary teachers as of those who are to instruct the highest grammar grade.

The problem has ever been, and should be, how to render education most completely subservient to the welfare of the State. The future of our nation depends upon this solution.

Respectfully submitted.

HOURS — from 9 A.M. to 9 P.M.

TRUSTEES' REPORT.

THE Trustees herewith submit their twenty-fourth annual report, together with the reports of the librarian and of the treasurer of the board.

The number of books in the library is 25,181.

The circulation during the year has been 47,036.

The additions to the library during the year have been 1,163 volumes and 313 pamphlets.

For the details of the management and work of the library reference is made to the report of the librarian, hereto appended.

The Gardner Fund and the Hall Fund are well invested, and the income, in accordance with the previous practice of the board and the intention of the founders, has been expended in the purchase of books of a superior character.

These funds have enabled the board to gradually raise the standard of the library to a much higher point than a restriction to town appropriations, generous as they have always been, would have permitted.

The books are generally in as good condition as might be looked for in a library worked as hard as this. Frequent renewals of favorite works are demanded, and no inconsiderable portion of the purchases in each year consists of replacements of books worn out.

The work of examining, cleaning and repairing incoming volumes requires the almost constant services of an extra assistant. Most of the labor is necessitated by mischievous mutilation or culpable carelessness, although the last year has

shown a marked improvement in this respect. Every boy or girl who reads this statement should understand that the board would be able each year to add nearly two hundred more story books to the juvenile department if the money now expended in repairing unnecessary damages could be devoted to the purchase of new works.

The growth of the library has already forced the board to commence the occupation of the upper story of the building. One of the larger rooms has recently been shelved from floor to ceiling for additional accommodation. This will not only give room for the large number of bound newspapers, but will also provide for about 1,500 volumes of public documents. From time to time as the necessity arises, as it certainly will at no distant day, the other rooms can be utilized in the same way, and if the walls of the board room also be thus occupied, possibly from 8,000 to 10,000 volumes might be accommodated.

In the book hall some changes are contemplated. The alcove devoted to natural science will probably be soon required by works of travel, and the scientific books thus displaced will be then transferred to one of the gallery alcoves. Other classes are also outgrowing their old quarters, involving other changes.

The reading room has been much more used during the past year than ever before. The trustees have endeavored to make the tables attractive by the variety and amount of serial literature supplied, and they believe that few town libraries in the country show a longer list of periodicals and newspapers than this.

The supplementary catalogue is well under way, and will be in due time ready to go to press. This will include the most costly and most intrinsically valuable portion of the library. No effort has been spared to make a volume that will be of the greatest use to the hundreds of townspeople who are daily seeking books. It will be almost entirely the unaided work of the librarian.

One must know something of the science of cataloguing to appreciate the amount of learning, skill and perseverance involved in a work of this character and extent.

The board hope and have reason to believe that the result of the outlay involved will be highly satisfactory to the town.

The Brookline library is one of the largest, and, it is believed, one of the best of town libraries. In its historical and scientific departments it offers opportunities for researches of an extended character, while its departments of poetry, fiction and other lighter literature embraces all that is likely to be called for. If in any one department it has not met the expectations of any person, the trustees will be glad to have their attention called to the supposed deficiency.

The suggestions of all persons familiar with library matters or interested in literary pursuits will always be welcome to the board. A book may be found at the delivery desk in which the titles of any works called for, not already upon the shelves, may be entered. Such entries receive critical attention, and frequently bring before the board works of merit that might otherwise escape notice.

It is gratifying to the trustees to be able to state that all the duties of the library in the various departments have been, as usual, discharged in an entirely satisfactory manner during the year past, and they desire to express their full appreciation of the valuable services rendered by the librarian and her assistants.

BROOKLINE, January 31, 1881.

LIBRARIAN'S REPORT, 1880-81.

BROOKLINE, FEB. 1, 1881.

To the Trustees of the Brookline Public Library:

GENTLEMEN, — The doings of the library for the official year 1880-81 are herewith respectfully presented in my ninth annual report.

Little or no deviation from the beaten track has marked the course of library matters, and its history might almost be told by last year's report revised and corrected to date. Nor does such a fact indicate lack of vigor or inactivity on the part of the library, but rather the harmony of a working system in such complete running order that its ends are accomplished with nearly uniform results, and always without resort to experiments and expedients which are the bane of library existence.

That our library is enabled to maintain such a practical and convenient system, is undoubtedly due to the fact that, thus far in its history, it has never appealed in vain to the liberality of the town for either measures or means, when shown to be for the real advantage of the library. How great a source of congratulation this generous support is, can scarcely be appreciated enough!

To this support in the past we owe our present position among the representative town libraries of the land, — with its continuance in the future we may justly hope to stand without a rival in all that is excellent in library work.

In presenting the following statistical items, I beg indulgence for the familiar form they wear, pleading absolute impossibility of avoidance when dealing, year after year, with obstinate facts and figures on identical topics.

CONDITION OF THE LIBRARY.

The aggregate number of volumes now in the library amounts to 25,181, which, with the exception of 1,596 duplicates, are subject to all demands of circulation and reference, and yet no year in our history exhibits a more satisfactory record as to the general preservation of the property of the library.

This is true not only of the books, which usually suffer most seriously, but also of the library rooms that, for cleanliness and order have no rival, if one may credit the universal testimony of library visitors and strangers.

A marked feature in the present condition of the books is the rarity of carelessness and abuse while in borrowers' hands, a state of affairs as gratifying as unusual, and undoubtedly brought to pass by our practice of daily examinations; a practice therefore, to be commended for continuance.

In evidence of this improvement, I have to report less than a dozen fines imposed for maltreatment of books, only 53 volumes worn out and withdrawn, and but 192 volumes rebound — an experience which certainly has not occurred in the last nine years.

As agreeable as this record seems in comparison with former complaints, one cannot help regretting that the result has been obtained through compulsion of fines, rather than through that nice sense of honor which should prompt conscientious care on the part of all who share the benefits of the library.

ACCESSIONS.

Since the last report the library has acquired 735 volumes by purchase, 249 volumes by gift, and 179 volumes by the binding of the year's periodicals, making a total increase of 1,163 books.

The accession of pamphlets amounts to 313, and all of them gifts. Beside these, 107 unbound numbers of magazines and

reviews have been contributed, together with 29 government maps, 1 wall-map of Massachusetts, several broadsides, and Mr. Atkinson's chart of "Our national domain."

The new books exceed in number those of last year, and certainly equal them in standard merit and usefulness. In the absence of the usual annual list it will be impossible to call attention to the general excellence of the purchases as a whole, nor will space admit any special mention of the more important works save as they occur in the appended lists of purchases from the Gardner and Hall funds.

We are indebted, as in years past, to a host of friends for numerous and valuable gifts—especially to Hon. William Claflin for United States government documents, Hon. E. I. Thomas for state documents, and Hon. Charles L. Flint for a valuable collection of agricultural reports. To these and the hundred other benefactors our acknowledgments are tendered for the favors of the past year.

The annual growth of the library is rapidly filling up all available shelves, so that, even with the present moderate rate of increase, not many years can elapse before additional shelf-room will be needed, the first movement having already been forced upon us by the over-crowded state of the alcove of voyages and travels, which can only find relief by displacing its next neighbor, which in its turn relegates the public documents to the upper story, where they will, when arranged, form a special department. This work is only planned and the preliminary step of shelving the necessary room in progress; before our next report I hope to see this work completed, but do not propose to undertake it until the supplement to the catalogue is finished.

CIRCULATION.

The statistics of circulation register 305 working-days, in which 44,585 volumes were delivered for home use, averaging 146 per day. This account shows a decrease of several

thousand from the last report, and may be partially explained by the fact that the average circulation of juvenile books has been greatly reduced—a change in nowise to be lamented.

Among the items of possible interest in connection with this delivery for home use, may be mentioned the largest and smallest daily loans, which scored respectively 368 volumes on the 17th of April, and 45 volumes on the 1st of July, 1880.

Besides the 44,585 volumes reported above, an additional 2,451 volumes have been charged for special reading or reference within the library, making the entire circulation, so far as recorded at the desk, amount to 47,036 volumes.

The unregistered loans of bound volumes of pictorial papers, like Harper's Weekly, London Illustrated News, and Punch, are so frequent and numerous that anything approaching an accurate statement of statistics would be regarded as fabulous.

Incident to the circulation, four volumes have been lost and replaced by borrowers, and two lost beyond recovery through non-residents.

Postal notices have been sent on 3,163 overdue accounts, the fines thereon amounting to \$126.95. The sum of \$3.30 in fines on pencilled books has also been collected.

THE SUPPLEMENT TO THE CATALOGUE.

My earnest wish and endeavor has been to announce the supplement not only in the printer's hands, but well advanced toward completion, and I confess to a keen sense of disappointment at not being able to report its progress up to my anticipations. Yet, in looking back over the year's work, I cannot find occasion to take myself to task for many idle moments for hand or brain, therefore can only solve the discrepancy between my anticipations and actual results by the fact that my regular duties from month to month have occupied so great a share of my time that from five to eight days

per month have been all I could bestow upon the preparation of the manuscript, and they who are conversant with the difficulties of cataloguing or the arrangement of copy for the printer will understand that the manuscript for a catalogue of more than 10,000 volumes cannot be successfully prepared and finished in the space of seventy-five days or less, even when consecutive, an advantage which our supplement has not enjoyed.

Notwithstanding these disadvantages, no small portion of the alphabetical arrangement is completed, so that I think I may report, with reasonable confidence, that the printing can begin in June, and if fair success attends the work, the supplement may be ready for use by the middle or last of September, at which time begins the busy season, when the need of a complete catalogue is most urgent.

The principal work remaining to be done, after the completion of the alphabetical arrangement, is the final revision of the entire manuscript, with a last search for unknown authors; a critical eye to all possible inaccuracies of cataloguing and numbering; and a careful supply of the necessary directions and signs for the guidance of the compositor. This revision exacts the strictest attention and care, since upon its faithfulness depends the accuracy and reliability of the catalogue.

In consequence of the anticipated supplement, in which all the new books of the year have been incorporated, no annual list of accessions will accompany this report. This list will undoubtedly be missed by many of our constant readers, but it is hoped that the temporary inconvenience will be counterbalanced by the greater convenience of the full catalogue when ready for service.

The bulletins of the past year can partially supply the lack of the annual list; and the interleaved catalogue at the desk, which continues to be posted from month to month, may be relied upon for authoritative information as to the contents of the entire library.

CONCLUSION.

From the foregoing statements may be gathered all the principal features of condition, accession and circulation; the details of every-day library duties can never be written or sung, for their name is legion, but being met one by one and day by day, it gives me pleasure to record that the library corps faithfully hold the vantage ground.

Thus another library year has accomplished its work, rendered its account, and taken its place with its predecessors in the long line of years whose annual reports must serve as milestones along the way of progress for nearly a quarter of a century, and in entering the twenty-fifth year I beg to suggest the propriety of making it a *memorial year* worthy the institution and worthy the town of Brookline.

MARY A. BEAN,

Librarian.

REPORT
OF THE
PARK COMMISSIONERS
OF THE
TOWN OF BROOKLINE.

REPORT.

THE undersigned, elected Park Commissioners of the town of Brookline at the annual meeting of March 30, 1880, met on April 5th, and organized by the choice of Mr. Lawrence as Chairman, and Mr. Sargent as Secretary.

The plan for the improvement of Muddy River has been the only matter of importance which has been brought before them, and the information respecting that plan will be found in the report of the committee on that subject.

No money has been expended by the Board.

FRANCIS W. LAWRENCE,
THEODORE LYMAN,
CHARLES S. SARGENT,

Park Commissioners of Brookline.

BROOKLINE, February 7, 1881.

REPORT OF COMMITTEE

— ON —

MUDDY RIVER IMPROVEMENT.

AT the annual meeting, held March 30, 1880, the subject of the "Improvement of Muddy River" was referred to a committee, consisting of the Selectmen and the Park Commissioners.

That committee herewith present to the town for its consideration, the "Suggestions for the Improvement of Muddy River" of Mr. Frederick Law Olmsted, the eminent landscape architect.

These "Suggestions" will fully explain the plan by which it is hoped that the present unsightly and unhealthy stream may become, at a comparatively small cost, an ornamental park-way.

MR. OLMSTED'S LETTER AND PLAN.

SUGGESTIONS FOR THE IMPROVEMENT OF MUDDY RIVER.

To the Commissioners of Parks:

GENTLEMEN, — In a plan which I had the honor, in conjunction with the City Engineer, to submit to you a year ago, the drainage difficulties of Back Bay were proposed to be met by forming a part of it into a basin in which water would, under ordinary circumstances, be maintained at a nearly uniform level, but in which, when an unusually high tide would for a few hours prevent outflow, a larger amount could be harmlessly stored. Public roads were to be laid out around and across this basin, and its banks to be planted and otherwise treated picturesquely.

The plan was adopted, and with the concurrence of the City Council work is now advancing under it. In presenting it last January to the Council, you pointed out that while its scope was limited to that part of the Back Bay which had some years before been placed in your charge with a view to a public park, the evils which it was designed to meet would still remain to be dealt with in that arm of the bay known as Muddy River.

The question has since been raised whether the best plan for this purpose might not be found in extending a corresponding arm of the Back Bay basin to the head of tide-water in Muddy River, and the present report is designed to present this suggestion (as far as practicable in advance of surveys and mature study) in a form to invite preliminary discussion.

The tidal part of Muddy River above the basin now under construction has the usual character of a salt creek winding through a valley, the marshy surface of which, lying from fifteen to twenty feet below the general level of the adjoining uplands, is partially submerged at extreme high water. The tide ordinarily flows to a point about a mile above the basin. Streets have been laid out upon the uplands upon no continuous system; those of each side independently, and regardless of what may be eventually required in the low lands; the leading motive being to make small bodies of land immediately available, at little cost, for suburban residences. The city is rapidly advancing in compact blocks towards the region, and public convenience will, before many years, require a more comprehensive treatment of it.

It usually happens when a town is building up on both sides of a small water-course and valley that the sanitary and other disadvantages of the low ground prevent it from being much occupied, except in a way damaging to the value of the adjoining properties. In process of time the stream and valley and the uses to which they are put, come to be

regarded as a nuisance ; and radical measures, such as the construction of a great underground channel, and the filling up of the valley, are urged as the only adequate remedy. The cost of these, and the local disturbance they make, excite opposition to them ; their complete beneficial operation is long delayed, and the character of the district becomes so strongly fixed before this period is reached that it can only be partially changed. Though necessary, therefore, to public health and to convenience of general transit through the district, the result in the increased tax-bearing capacity of the locality is no compensation for the required outlay.

As an alternative to such a possible course the policy now suggested for Muddy River would look to the preservation of the present channel with certain modifications and improvements adapted to make it permanently attractive and wholesome, and an element of constantly increasing advantage to the neighborhood. Except where the valley is now narrowest, it would be reduced in width by artificial banks, so that the river with its shores would everywhere have a general character, resembling that which it now has near Longwood bridge, only that its water would be kept at a nearly uniform level, and guarded from defilement by intercepting sewers and otherwise. The Brookline margin would be the broadened base of the present railroad embankment, bearing a woody thicket. The opposite or Boston bank would have an elevation above the water of ten feet where wholly artificial, rising where the natural bank is used to twenty feet. Upon this would be laid out a public way ninety feet wide, in continuation of that now forming upon the Back Bay basin ; divided like that into foot, carriage, and saddle courses, and designed to serve as a public promenade along the river bank, as well as a trunk line giving an element of continuity to the street system of the neighborhood.

It is proposed that this parkway should be continued along the small water-course above and through the valley

to Jamaica Pond, which would add another mile to its length. There are three smaller ponds near the head of the valley, which would thus be skirted, and below them a large marsh, which, though formerly reached by the tide, is now a fresh-water swamp, and cannot long remain in its present condition without great peril to the health and life of the increasing population of the adjoining parts, both of Boston and Brookline. Physicians practising in the neighborhood believe it to have been already the source of serious epidemics.

The supply of water to it from local springs is supposed to be large enough to maintain a pond to be formed by a dam at the lower end, by which it would be changed from a foul and noisome to a pleasing and healthful circumstance. The property is of little value speculatively, and of none otherwise, and the improvement thus projected would be neither difficult nor costly. If the fresh water supply should finally be thought insufficient for the purpose, it would be possible to extend the salt-water basin to cover the ground. The swamp-soil excavated would be of value for covering the slopes below, and the operation would not be costly.

Adopting either expedient, the result would be a chain of pleasant waters, including the four closely adjoining ponds above the swamp, extending from the "mill-dam" on Beacon street to the far end of Jamaica Pond, all of natural and in some degree picturesque outline, with banks wooded and easily to be furnished with verdure and foliage throughout. Except at one point where there are about a dozen cheaply-built wooden dwellings and shops, the whole would be formed on land of little value, occupied by no buildings, and for no productive purposes, and all of it now in a condition hazardous to public health.

Such a chain of waters, even if connected and having a sweeping current, always becomes objectionable in a town, when streets are so laid out that its immediate borders are

private property, or have private properties backing upon them. In such case it is found necessary to give it the character of a canal, to wall its banks with masonry, and, if the water supply greatly fluctuates, to take other measures to prevent its becoming a nuisance. At the best it is an eyesore. But if uniformly filled, its banks made comely, and kept neatly, in the usual manner of public parks, and if no private property is allowed to abut upon them, any natural water-course will be attractive and wholesome.

On the other hand, private property looking upon the park-way would at small cost be well drained; there would be nothing objectionable in its rear but in general a pleasant neighborhood, already formed, and, as it would lie midway between an attractive urban and an attractive suburban residence district, agreeably connected, there would be no doubt as to its ultimate character, or that it would be rapidly taken up for dwellings of a superior class. This prospect would have an immediate favorable influence on adjoining properties, and the entire operation would be attended by an advance of market and taxable values securing the city a rapid return for its outlay.

The indirect course of the park-way, following the river bank, would prevent its being much used for purposes of heavy transportation. It would thus, without offensive exclusiveness or special police regulation, be left free to be used as a pleasure route.

The Brookline Branch Railroad and the drive of the park-way where they come nearest together, would be two hundred feet apart, and there would be a double screen of foliage between them.

Taken in connection with the mall upon Commonwealth avenue, the Public Garden and the Common, the park-way would complete a pleasure route from the heart of the city a distance of six miles into its suburbs. These older pleasure-grounds, while continuing to serve equally well all their

present purposes, would, by becoming part of an extended system, acquire increased importance and value. They would have a larger use, be more effective as appliances for public health, and every dollar expended for their maintenance would return a larger dividend.

The scheme offers hardly less advantage to Brookline than to Boston, and a plan of equitable coöperation in carrying it out is probably feasible.

If the interests of the city required that the region affected should be largely occupied for manufacturing and commercial purposes, and that for this reason it should be provided with frequent, continuous, and direct lines of communication upon easy grades, the proposition would be more open to objection. But such provisions would be very costly, and if the tendency at present manifest on every side to make the district a residence quarter, with only such provisions for trade as local convenience may call for, is not desirable to be checked, then the suggestion would seem to offer a much-needed sanitary improvement at moderate cost, and with a promise of large incidental profits.

Respectfully,

FREDERICK LAW OLMSTED.

BOSTON, December, 1880.

These suggestions have been favorably received by the Boston Park Commissioners, and form a part of their annual report. They say "The plan suggested would be mutually advantageous to the city and town, and offers a solution of the matter at the least eventual cost, both from the direct returns in the way of betterments which can be assessed, and the annual increase of tax receipts from increased valuations and improvements." This plan is at present but a sketch, and in order to present full details, with specifications and estimates, your committee ask for an appropriation of one thousand dollars.

Respectfully submitted,

MOSES WITHINGTON,

Treasurer.

AUDITORS' REPORT
OF THE
TOWN OF BROOKLINE,
FOR THE
YEAR ENDING JANUARY 31, 1881.

REPORT.

The Auditors for the year ending January 31, 1881, have examined the accounts of Moses Withington, Treasurer of the town of Brookline, of the Warren Tree Fund, and of the Walnut Hills Cemetery Fund, and find the same correctly cast and with proper warrants.

At the beginning of the financial year the unpaid taxes for the past six years were :—

	For 1875.	For 1876.	For 1877.	For 1878.	For 1879.	For 1880.
Received during the year, and abated during this and former years...	\$348 48	\$587 24	\$1,487 00	\$4,744 25	\$16,526 63	
	2 00	73 44	919 00	4,151 28	10,945 52	
Leaving unpaid at end of year	\$346 48	513 80	\$568 00	\$592 97	\$5,581 11	\$12,147 60

The following table gives the recommendations for appropriations for the coming year, and the recommendations and expenditures for the same accounts during the year 1880-81 :—

OBJECT OF APPROPRIATION.	Appropriation Recommended.	Appropriated and applica- ble last year	Expended last year.
Abatement of taxes	\$1,000 00	\$1,000 00	\$991 60
Assessors	2,200 00	2,200 00	2,200 00
Auditors	150 00	150 00	150 00
Cemetery, Walnut street	200 00	200 00	162 11
Clerk of Selectmen and Overseers of the Poor.	750 00	500 00	500 00
Clerk of Trustees of Walnut Hills Cemetery	150 00	150 00	150 00
Construction of Brook st. and two short streets, re-appropriation	681 22	9,000 00	8,318 78
Contingencies	8,000 00	8,000 00	7,906 37

ASSESSORS' REPORT.

IN presenting their annual report the Assessors beg to state that they have attended to their multiplied duties in strict accordance with the requirements of the statutes. The natural increase of the town, together with the additional duties imposed on them, have so increased their labors that constant session has been required to complete the records in season for the issuing of the warrant to the Town Treasurer. They would gratefully acknowledge the apparent satisfaction evinced by their townsmen with the result of their labors. The applications for abatements have been few, and the aggregate amount is unusually small. Notwithstanding the loss of some heavy tax-payers, the aggregate amount of taxable property has increased \$375,000, so that, with the prudent economy which has governed the appropriations, we have the gratifying result of a reduced rate of taxation. Should the spirit of careful and resolute economy continue to regulate our town expenses in the future, as it is greatly to be hoped it will, we may fairly expect, from the incoming tide of prosperity which is already perceptible, a steady accession of tax-payers and a steady reduction of tax-rate, which is so desirable. Appended is a condensed statement of the taxation of the town, with a table of expenditures, debt, valuation and rate of taxation extended to the present time.

WILLIAM LINCOLN,	}	Assessors.
J. ANSON GUILD,		
WILLIAM D. COOLIDGE,		

BROOKLINE, February 14, 1881.

CONDENSED STATEMENT

REPORT OF THE SELECTMEN
UPON THE
ARTICLES IN THE WARRANT

FOR THE
ANNUAL TOWN MEETING OF MARCH 30, 1880;

AND
REPORT OF THE SPECIAL COMMITTEE, CONSISTING OF THE
SELECTMEN AND FIVE OTHER CITIZENS, APPOINTED
BY THE TOWN AT THE MEETING HOLDEN ON
JAN. 29, 1880, TO OPPOSE THE ANNEXA-
TION OF BROOKLINE TO BOSTON

BOSTON:
FRANKLIN PRESS: RAND, AVERY, & CO.
1880.

town shall have similar rights, and be subject to similar duties to those hereinbefore given to and imposed upon the city of Boston in relation to incurring debts for the purpose of defraying expenses incurred under this Act: provided, however, that the provisions of this section shall not apply to any such adjoining city that has not accepted the same by a vote of a majority of the legal voters at the annual meeting for the choice of municipal officers.

This Act has been duly accepted by the requisite number of the legal voters of the city of Boston, and it is not probably necessary for the town to formally accept it before choosing Park Commissioners. At the same time it is wise to accept the Act for the sake of greater caution.

We deem it proper to point out, that, by the terms of the Act, if the Park Commissioners are chosen, the town will be, in the language of the section above quoted, "subject to similar duties to those hereinbefore given to and imposed upon the city of Boston in relation to incurring debts for the purpose of defraying expenses incurred under this Act."

The duties referred to are imposed upon the city of Boston by sections 3 and 12 of said Act, the former containing a proviso which is as follows: —

"Provided, however, that no land shall be taken, or other thing involving an expenditure of money done, until an appropriation sufficient to cover the estimated expense thereof shall have been made by a vote of two-thirds of each branch of the city council of said city," and the latter providing that the city council of Boston may issue bonds to defray the expenses of parks in Boston.

It is difficult to see how these provisions can be made applicable to the town of Brookline, so that Park Commissioners, chosen by the town, could safely proceed with the actual purchase of lands and construction of parks.

Believing, however, that such officers, if chosen, could consult with the Park Commissioners of Boston, and mature plans for co-operation in the future, and that necessary legislation could be procured by the time that it would be proper to take action, we recommend that Park Commissioners be chosen.

FOURTH ARTICLE. — To see if the town will authorize the Selectmen to purchase from John Zecher, for a gravel-pit, a tract of land in Newton, containing about 19,490 square feet, as shown upon a plan on file in the office of the Selectmen, at the price of two hundred and fifty dollars.

The land which Mr. Zecher offers to sell is adjacent to the gravel-pit now owned by the town upon the boundary line of the city of Newton. The gravel of the old pit is now exhausted; that of the proposed pit is of good quality. We need a supply in that locality for the repair of streets in the upper part of the town. We consider the price reasonable, and advise the town to authorize a purchase in the name of the town, if the title is found satisfactory upon investigation.

FIFTH ARTICLE. — To see if the town will provide six additional street-lamps upon High Street.

This article was inserted in the warrant upon petition of the following persons; to wit: Joshua Crane, H. D. Chapin, C. Curry, M. W. Quinlan, Edward Stanwood, Samuel Hall, Salem T. Lamb, Henry W. Lamb, John H. Cabot, F. Rockwood Hall, John W. Candler, Charles A. Williams, James W. Edgerly, Moorfield Storey, T. Loring.

These posts and the setting of the same will cost about \$17 apiece. The lighting of the same at present prices will cost: —

For gas	\$22 per lamp a year.
" kerosene	19 " "
" gasoline	11 " "

SIXTH ARTICLE. — To see if the town will appropriate the sum of one hundred and fifty dollars (\$150) to lay three street-crossings, — one across Chestnut Street at the foot of High Street, one across Sewall Street running parallel with Chestnut Street, and one across Cypress Street at Chestnut Street.

This article was inserted upon petition of the following persons: Peter A. Hogan, John Johnson, John J. McCormack, John F. Bolan, J. B. Hand, J. F. Quinn, Martin Finaghty, Michael Doyle, James Quinn, William Maloney, William Kelly.

The streets mentioned in this article are unquestionably muddy at the points where crossings are sought for during much of the year. We recommend that this subject be referred to the Selectmen, with power to lay all or either of these crossings as they may think necessary.

SEVENTH ARTICLE. — To see if the town will fix the pay of its laborers at one dollar and seventy-five cents (\$1.75) per diem for the year commencing March 31, 1880, and ending March 31, 1881.

This article was inserted upon petition of the following persons; to wit: —

John J. McCormack, Peter A. Hogan, Lawrence Cahill, Royal McIntosh, J. W. Wharton, Patrick Lynch, Edward Cusick, Patrick Hawley, Patrick Barrett, Charles E. Madore, John Murphy.

The town laborers now receive \$1.25 per day. We advise the town not to take the action proposed by this article, believing that the Board of Selectmen to be elected at the annual meeting can be safely trusted to act with justice to the laborers, and for the best interests of the town. The effect of passing the proposed vote would be to diminish the number of persons who could share in the town work, inasmuch as the appropriations for highways, &c., are fixed sums which the Selectmen cannot exceed.

EIGHTH ARTICLE. — To see if the town will appropriate the sum of two hundred dollars (\$200) to lay a plank sidewalk on Chestnut Street, from the foot of High Street to Cypress Street.

This article was inserted upon petition of the following persons; to wit: —

Peter A. Hogan, John F. Bolan, John J. McCormack, J. F. Quinn, Martin Finaghty, Michael Doyle, James Quinn, John A. Long, L. Cahill, Royal McIntosh, J. W. Wharton, William Kelly.

We think that part of this sidewalk should be laid. The general appropriation for sidewalks will be adequate. We recommend that this subject be referred to the Selectmen,

with power to lay all, or any part of the sidewalk asked for, as they may think necessary.

NINTH ARTICLE. — To hear and act upon the reports of town officers and committees, and especially to hear and act upon the report of the committee upon the revision of the by-laws of the town; and, if the town shall see fit, to repeal all existing by-laws, and substitute therefor the by-laws reported by said committee, with such alterations and amendments as may be made by the town.

We recommend the town to act finally upon the revision of the by-laws, by accepting the same in lieu of the existing by-laws.

TENTH ARTICLE. — To see if the town will authorize the selectmen to license the city of Boston to use the main sewer and lateral sewers of the town of Brookline, and to fix the terms upon which such license may be made, and the consideration to be paid by the city therefor.

We reprint upon this article the report of the Selectmen to the town meeting of Feb. 11, 1879, upon an article for the same purpose as this one, as follows; to wit:—

ART. 3. — To see if the town will accept the offer of the city of Boston for the right to use our main sewer and the lateral sewer in Brookline Avenue and Washington Street; or authorize the Selectmen or some committee to accede to this or some other proposition.

The following letter gives approximately the area in Boston and Brookline which can be drained into our main sewer:—

PROVIDENCE, Aug. 9, 1878.

HORACE JAMES, Esq., *Selectman of Brookline*

Dear Sir, — In response to the request of Mr. C. D. Lincoln, clerk of the Selectmen, I forward to you the following information:—

The area in Boston which would naturally drain into the main sewer in Brookline cannot be accurately ascertained without more information than I am able to obtain without a survey; but, as taken from the maps, with the best checks I can make, the area appears to be about 300 acres, on which there are now about 140 buildings, mostly houses.

The area in Brookline, which would eventually be drained into the main sewer above the junction of Beacon and Carlton Streets, is about 842 acres, on which there are about 711 dwellings or principal buildings, and about 208 other buildings. The area which will drain into the main sewer below Carlton Street is about 293 acres. The number of dwellings

or principal buildings now on this area is about 90, and the number of other buildings about 55.

In addition to the area in Boston given above, as naturally draining into the Brookline main sewer, and which I suppose includes the territory in the minds of the Selectmen when the question was asked, there is another area roughly estimated at 50 acres, lying in the Brighton district, which will naturally drain through the Brookline territory into the Aspinwall Brook branch of the main sewer. I have made no examination of this area for the purpose of learning the number of buildings on it.

Yours respectfully,

J. HERBERT SHEDD.

We requested Mr. Shedd to confer with the Boston authorities, and see if he could come to some understanding with them on this subject.

The following letter explains the result of such conferences :—

PROVIDENCE, Oct. 4, 1878.

WM. I. BOWDITCH, Esq.

Dear Sir, — . . . My consultations with Mr. Bradley have finally resulted in the following propositions, which we agree to be equitable and proper : 1. In case permission is given to Boston to enter lateral sewers into the Brookline main sewer, then Boston shall pay at the rate of \$135 per acre drained by the connecting sewer, with interest at six per cent from Jan. 1, 1878; the total area which might drain into the particular sewer to be estimated when connected, and any extensions to be estimated and paid for when such extensions are made. 2. Boston to reimburse Brookline annually for such portion of the expenses of maintenance as may correspond to the ratio of area drained in Boston with the area drained in Brookline.

In estimating the rate per acre to be paid by Boston, it is assumed that a cost upon the main sewer of \$141,000 may properly be applied to 1,042 acres, to be finally drained in the territories of Brookline and Boston together.

Yours respectfully,

J. HERBERT SHEDD.

The city objected to paying a round sum for draining the whole territory which might finally use our sewer, but professed willingness to pay for all the territory which now drains into Muddy River, so that the contamination of the river on the part of the city may be put an end to.

The following letter contains the offer :—

SEWER DEPARTMENT, CITY HALL, BOSTON, 10th Oct., 1878.

Dear Sir, — The amount to be paid by the city of Boston to the town of Brookline, under the arrangement agreed upon between Mr. Shedd

and myself, would amount to \$2,852 for a connection from Downer-street and Francis-street sewers.

Yours truly,

W. H. BRADLEY.

W. I. BOWDITCH.

We offer for consideration the following vote : —

Voted, That the Selectmen are hereby authorized to allow the city of Boston to use our main sewer, and the laterals in Brookline Avenue and Washington Street, upon the terms set forth in letter of J. H. Shedd, dated Oct. 4, 1878.

Prompt action upon this subject would have been well warranted by the facts of the case when this report was made, and the experience of the past year has only served to make action more necessary.

Muddy River cannot be purified at all until Boston, as well as Brookline, ceases to drain into it.

Boston is ready to cease draining into it at once, and to pay us adequately beside, if we will allow her to drain her Downer-street and Francis-street districts into our main sewer. There is no possible reason why we should not allow her to do so, since regard for the public health, as well as regard for the public purse, alike require it.

To delay action in this important matter is folly, as well as a great wrong.

The city is ready now to carry out the plan agreed upon by our Selectmen a year ago.

ELEVENTH ARTICLE. — To see if the town will issue Brookline water scrip for the amount of the orders drawn by the Selectmen against water receipts during the year ending Feb. 1, 1880, after making such deductions therefrom as may be necessary or expedient.

During the year ending Feb. 1, 1880, the following orders were drawn against water receipts; to wit : —

Judgment in Charles-river mill-owners' cases	\$23,626 06
“ “ Mrs. Gardner's case	9,607 56
“ “ James B Hand's case	1,961 39
“ “ Enoch Joy's case	544 29
“ “ Aaron D. Weld's cases	1,411 54
<i>Amount carried forward</i>	<u>\$37,150 84</u>

<i>Amount brought forward</i>	\$37,150 84
Land damages of Mrs. Richards and Mrs. Kingsbury	600 00
Counsel fees in above cases, &c.	1,674 90
	<hr/>
	\$39,425 74
Amounts received from water rates during the year	11,884 41
	<hr/>
Balance	\$27,541 33

To meet this balance we think the town should issue Brookline water scrip; and we, therefore, recommend that the following vote be passed; to wit:—

The Treasurer is authorized to issue, under the direction of the Selectmen, such amount of Brookline water scrip, bearing interest at a rate not exceeding five per centum per annum, as shall realize a sum equal to the amounts of the orders drawn by the Selectmen against water receipts during the year ending Feb. 1, 1880, after deducting therefrom the sums of money received from water rates during said year,—all of said orders having been drawn on account of suits arising out of the construction and maintenance of the water-works of the town.

When the judgments of the Charles-river mill-owners, and that of Mrs. Gardner, were rendered against the town, the Treasurer had no funds arising from water receipts in his hands applicable to their payment; but, as executions had been issued upon the judgments, he rightfully discharged them out of other moneys in his hands. It is now necessary, however, to issue these bonds.

TWELFTH ARTICLE.—To see whether the town will rescind the vote passed on the twenty-ninth day of January last raising a committee to oppose the annexation of Brookline to the city of Boston.

THIRTEENTH ARTICLE.—To see what action the town will take with reference to the union of the town with the city of Boston.

FOURTEENTH ARTICLE.—To see what action the town will take with reference to its transfer from Norfolk to Suffolk County.

These articles were inserted upon two petitions, the former signed by the following persons; to wit: M. P. Kennard, J. M. Russell, Alfred Winsor, John H. Foster, Charles U. Cotting, James Baker, W. A. Humphrey, Albert A. Cobb,

Charles O. Foster, Allen S. Weeks, — and the latter signed by the following persons; to wit: Henry B. Wells, Allen S. Weeks, E. F. Cushman, Richard L. Luscomb, Winthrop B. Jones, Charles M. Proctor, Thomas G. Hunt, W. G. Carrier, Justin Jones, Thomas Aspinwall, C. F. Harrington.

Since the town has so lately voted upon these subjects by ballot, and since the Legislature has so recently refused to take any action upon the petitions to annex Brookline to Boston, and to make it part of Suffolk County, we can only regard the agitation of these subjects, at present, as vexatious, and intended to weary the town, by constant annoyances, into an approval of annexation.

FIFTEENTH ARTICLE. — To see if the town will accept "An Act to authorize cities and towns to erect and maintain public bath and wash houses," being chapter 214 of the Acts of 1874, and take any action authorized thereby.

This article was inserted upon the petition of the following persons; to wit: John J. McCormack, Jacob Morlock, J. Crowley, J. F. Quinn, L. Cahill, William Maloney, John T. Bolan, James Cusick, Charles E. Madore, W. Cummings, P. W. Byrne.

A similar article was inserted in the warrant for the annual town meeting of 1879, upon petition of John J. McCormack and others, and was referred by vote of the town to the present Board of Selectmen.

We think there is no exigency to warrant any outlay under this article, and recommend that the town reject the Act, instead of accepting it.

SIXTEENTH ARTICLE. — To see if the town will light Heath Street from the gateway of Mr. Walter C. Cabot to the Newton line.

This article was inserted at the request of George Thompson, who last year presented to the Board of Selectmen a petition, signed by himself and some twenty others, for the same thing. To light Heath Street as prayed for will require about twenty posts costing about \$350, and an annual expense for lighting of from \$200 to \$400.

We think there is no exigency for such an outlay, and recommend the town to take no action under this article.

SEVENTEENTH ARTICLE. — To see if the town will provide a street-lamp on Freeman Street, opposite the foot of Ridgeway Street.

The cost of this lamp, including the setting of the post, will be about \$17, and the annual expense for lighting (with gasoline), about \$11.

MOSES WILLIAMS, JR.,
FRANCIS W. LAWRENCE,
HORACE JAMES,
R. G. F. CANDAGE,
OLIVER WHYTE,

Selectmen of the Town of Brookline.

REPORT OF THE SPECIAL COMMITTEE

CONSISTING OF THE SELECTMEN AND FIVE OTHER CITIZENS,
APPOINTED BY THE TOWN AT THE MEETING
HOLDEN ON JAN. 29, 1880,

TO OPPOSE THE ANNEXATION OF BROOKLINE
TO BOSTON.

THE committee organized by the choice of Mr. Williams as chairman.

The Committee on Towns of the Legislature, by its Chairman, Hon. Eben Hutchinson of the Senate, duly notified us that a hearing would be given by the committee upon the petitions for annexation of the town to Boston, and to set it off from Norfolk County to Suffolk County, on Feb. 26, 1880.

The petitioners and remonstrants appeared before the committee on that day when the hearing was adjourned until March 4, at which time the petitioners appeared by their counsel, Thomas H. Talbot and George Griggs, Esqs. Mr. Chandler of the committee and the chairman conducted the defence for the town, and Hon. F. D. Ely appeared for the County of Norfolk and for individual remonstrants from Norfolk County.

The petitioners occupied the whole of three days' hearings with their opening argument and evidence; the counsel for the town occupied one day with their opening argument and evidence; Mr. Ely occupied about half a day with his evi-

dence, and the remainder of this day was occupied by the closing arguments of counsel on both sides.

The committee reported two days after, on March 15, that it was inexpedient to legislate upon the order of inquiry, whether Brookline should be made part of Suffolk County, and recommended that the petitioners for the annexation of Brookline to Boston should have leave to withdraw.

These reports were accepted by the Senate on March 16, 1880, and by the House of Representatives on March 22, 1880, the decision of the committee and the Legislature being adverse to the annexationists upon every point.

SELECTMEN'S REPORT

ON THE

ARTICLES IN THE WARRANT

FOR THE

MEETING,

September 16, 1880.

BOSTON:

FREDERICK A. SEARLE, PRINTER,

262 WASHINGTON STREET,

1880.

REPORT.

ARTICLES III., IV., V., and XII.

A single report is made upon these articles, as they all relate to the same subject. The attention of the Selectmen was called to the necessity of providing drainage for Thayer place, in 1878, by petition signed by Ira B. Cushing and several others, including most of the abutters and owners of property on the place. A hearing on the petition was had in June, 1878, and a committee of the Board appointed upon the subject; but no action was then taken, because of the more pressing need of constructing sewers in other parts of the town, and because of the probably large amount of damage which would be caused to the estate of Mr. E. C. Emerson, through which the sewer, if constructed, must pass. The subject was taken up by the present Board early in the summer, and, after some negotiation with Mr. Emerson, he made the proposition contained in the following letter: —

To the Selectmen of the Town of Brookline : —

GENTLEMEN, — Believing that the town must eventually build a sewer from Thayer place, and knowing that I can provide sewerage for my own estate, and learning that the surveyors have submitted a plan, which they recommend the town to adopt, I herewith submit the following propositions: —

First. I propose to give the town 40 feet in width of my land, for a road through which to build the sewer, commencing on Davis avenue and ending at Thayer place, as laid down on plan herewith submitted, on the following conditions, viz.: That the town shall make and grade the road, build the sewer, lay said

road with curbstones, from Davis avenue to Washington street, at the town's expense. Said road to be graded from three to four feet above the present level of that portion now used by me as a drive-way, and to be built, constructed, and accepted by the town within six months from this date.

Second. I propose to give the town a strip of land ten feet in width on Thayer place, commencing at my iron gate and ending at a point near my cottage house; the whole of Thayer place to be graded in conformity with the new road to be laid out from Davis avenue; the town to remove and reset my iron gate and fence on Thayer place, and on my drive-way, at the town's expense.

All land belonging to me bordering upon said new road, and all land belonging to me on Thayer place, shall be free to me from all tax for sewerage and betterments.

I offer the town the right to take a strip of land 12 feet in width, running from Davis avenue, and next adjoining the estate of C. D. Lincoln, to the railroad, at fifty cents per square foot; said land to be used for the sewer, and for no other purpose whatsoever, and not to be fenced.

All trees that have to be cut down to make the road and sewer I shall move at my own expense. I shall also move the loam.

E. C. EMERSON.

BROOKLINE, Aug. 4, 1880.

This offer was afterwards so far modified as to require laying edgestones for but 215 feet from Davis avenue.

This proposition of Mr. Emerson, which was made by him in view of the improvement of his estate by the probable building of streets and laying of house lots upon the same, seemed to the Board a very good one for the town, as it would reduce the cost of the proposed sewer very much below all estimates which had been made. The Selectmen were, however, of opinion that the offer could not be accepted without modification, as they believed that neither they nor the town could settle the question of betterments in advance, and agree that the betterments and the

sewer assessments should offset the damages. But they were convinced that those two assessments would not probably amount to so much as the damages, and therefore, while awarding damages to Mr. Emerson, they have asked him (if the town should vote to lay out the way and sewer) to allow the amount of damages assessed by them to remain in the town treasury until the assessments upon his estate shall be determined, with the full expectation that these assessments will not amount to so much as the damages, in which case Mr. Emerson will waive the excess. The Selectmen, after receiving the letter of Mr. Emerson, were clearly of opinion that the sewers and ways should be laid out as proposed, and accordingly they have done so, and they annex copies of the locations herewith, with estimates of the cost. The two districts which will be provided with sewerage, known as Thayer place and White place, are in such condition that, in their opinion, serious consequences will result, not only to the health of those who live in those districts, but to the community generally, if sewerage is not soon provided for them. The plan which the Selectmen have adopted seems to them the best and most economical which could be adopted, and, indeed, the only feasible one. The Board estimate the amount of sewer assessments which will accrue to the town at \$4,682, and exclusive of the assessment upon Mr. Emerson, above referred to, at about \$3,000. Of the amount of the betterments they cannot now judge.

ARTICLE III.

The undersigned, Selectmen of the town of Brookline, having given printed and written notices to E. C. Emerson, Joshua Conant, heirs of John W. Kingman, Michael Griffin (being all the parties known to us to be interested in the subject-matter of the street or town way to be laid out), that we intend to lay out a town way under the law authorizing the assessments of betterments, being Chap. 382 of the Acts of 1871, viz.: A street

called by us Thayer street, leading from Davis avenue (northerly side) through land of E. C. Emerson, and the private way now known as Thayer place, to the southerly side of Washington street, under which it is proposed to build a sewer, such notices requiring such persons to appear before us at the Town Hall, on the 23d day of August, 1880, at four o'clock in the afternoon; and having caused such notices to be actually served according to law, upon all such persons, by a constable of this town, at least seven days before the day so appointed for the hearing; and having given notice to them, and all other persons (if any) who may be interested in the subject-matter of said street, whose names are not known to us, or who have no place of abode in the town, or who have no tenant or authorized agent known to us, by posting up a copy of the printed and written notice in a public place in town, at least seven days before the time appointed for the hearing; pursuant to such notice we met at the time and place appointed for the hearing, and after hearing the parties and their remarks and objections, and the route of the street having been viewed and examined by us, after fully considering the subject, do adjudge that it is necessary for the public convenience, that a street or town way, called by us Thayer street, should be laid out and maintained by the town, leading from Davis avenue to Washington street, as hereinafter described by its centre line, viz. : —

Commencing on the northerly side of Davis avenue, at a point situated 106.00 feet westerly from the stone street-monument, between the estates of E. C. Emerson and Frederick Beck, and running N. 19° W. 98.59 ft.
 Thence curving left with a radius of 143.13 feet 116.21 "
 Thence curving right with a radius of 60 feet . 121.98 "
 Thence N. 50° 57' 40" E. 136.32 "
 Thence N. 43° 25' 5" E. 182.88 feet to the southerly side of Washington street, taking a parallel width of 20 feet on both sides of the above-described centre line, and curving the in-

tersection of the side lines of the proposed street and the northerly side of Davis avenue, with a radius of 14 ft.

The land taken for the proposed street is described as follows: —

From the estate of Elijah C. Emerson, a parcel of land bounded southerly by Davis avenue, easterly and westerly by the side lines of the proposed street, and northerly by the southerly side of Thayer place, containing 18,185 sq. ft.

Also from the estate of Elijah C. Emerson, a parcel of land bounded westerly by the westerly side of the proposed street, easterly and southerly by the westerly and northerly sides of Thayer place, as now constructed, and extending from the westerly branch of Thayer place to land of Michael Griffin, containing 85 “

From the estate of Joshua Conant, a parcel of land bounded easterly by the easterly side of the proposed street, westerly by the easterly side of Thayer place, as now existing, and extending from the estate of Elijah C. Emerson to Washington street, containing 1,605 “

From the estate of Michael Griffin, a parcel of land bounded westerly by the westerly side of the proposed street, easterly by the westerly side of Thayer place as now laid out, and extending from the estate of E. C. Emerson to that of the heirs of John W. Kingman, containing 157 “

From the estate of the heirs of John W. Kingman, a parcel of land bounded westerly by the westerly side of the proposed street, easterly by the westerly side of Thayer place, as now con-

structed, and extending from estate of Michael
 Griffin to Washington street, containing . . . 98 sq. ft.
 From some person or persons unknown, the fee of
 that part of Thayer place, as now constructed,
 extending from Washington street to estate of
 Elijah C. Emerson, and containing about . 6,150 "

The location of said street is in accordance with a plan and
 profile of the same, dated August 23, 1880, made by A. H.
 French, Civil Engineer, approved by us; and such plan and
 profile are adopted by us as a part of this record.

The Selectmen also take the right to support said street by
 sloping the banks on each side thereof on the adjoining land owned
 by said parties respectively; but this is not intended to affect or
 impair at all the right of any owner of such adjoining land to use
 such slopes for building or any other purpose or use whatsoever,
 incident to the ownership of the fee in said slopes, that will not
 impair the security of the road-bed. We have estimated the dam-
 age sustained by the owners of land, rights, and interests, caused
 by the laying out and construction of said street in manner afore-
 said, whether by taking property, or by injuring property in any
 manner whatsoever; and do estimate and determine the amounts
 to be paid to said parties respectively as follows, viz. : —

We take from Elijah C. Emerson 18,270 square feet of land,
 and also the right to support the road-bed as aforesaid; and we
 award him as damages, for the land and rights thus taken, the
 sum of \$3,639 00

We take from Joshua Conant 1,605 square feet of land, and
 also the right to support the road-bed as aforesaid; and we award
 him as damages, for the land and rights thus taken, the sum
 of \$1,250 00

We take from the heirs of John W. Kingman 98 square feet
 of land, and also the right to support the road-bed as aforesaid;
 and we award them as damages, for the land and rights thus taken,
 the sum of \$230 00

We take from Michael Griffin 157 square feet of land, and the right to support the road-bed as aforesaid; and we award him as damages, for the land and rights thus taken, the sum of \$75 00

We take from owners unknown to us about 6,150 square feet of land, and we award to such owners the sum of \$5 00
And we have given the owners of the lands through which said street is laid out fifteen days from the date of the acceptance of this report by the town, in which to remove structures, buildings, walls, fences, hedges, or trees, standing on said land.

And said street, as so laid out, located, and described, is hereby reported to the town for acceptance; and when so accepted, allowed, and recorded is to be known as a town way.

The said plan, profile, and this record have this day been filed by us in the Town Clerk's Office.

The estimated cost of building this street is	. . .	\$3,062 80
The land damage we estimate at	5,199 00
The estimate cost of building the sewer in said street	1,800 00

Making total cost	\$10,061 80
-------------------	-----------	-------------

CHAS. H. DREW,	}	<i>Selectmen of the Town of Brookline.</i>
HORACE JAMES,		
OLIVER WHYTE,		
ROLAND C. LINCOLN.)		

BROOKLINE, September 9, 1880.

ARTICLE IV.

The undersigned, Selectmen of Brookline, having given printed and written notices to E. C. Emerson, Michael Mahan, W. H. Bowker and L. F. Lyon, and Fergus B. Turner (being all the parties known to us to be interested in the subject-matter of the place or private way to be laid out), that we intend to lay out a private way, under the law authorizing the assessment of betterments, being Chapter 382 of the Acts of 1871, viz., a place called by us Thayer place, leading from the westerly side of the proposed new street called Thayer street to the land of Michael Mahan, being the westerly branch of Thayer place as now constructed, under which it is proposed to build a sewer, such notices requiring such persons to appear before us, at the Town Hall, on the 23d day of August, 1880, at four o'clock in the afternoon; and having caused such notices to be actually served according to law upon all such persons, by a constable of this town, at least seven days before the day so appointed for the hearing; and having also given notice to them, and all other persons (if any) who may be interested in the subject-matter of said private way, whose names are not known to us, or who have no place of abode in town, or who have no tenant or authorized agent known to us, by posting up a copy of the written and printed notice in a public place in the town, at least seven days before the time appointed for the hearing; pursuant to such notice, we met at the time and place appointed for the hearing, and, after hearing the parties and their remarks and objections, and the route of the private way having been viewed and examined by us, after fully considering the subject do adjudge that it is necessary for the public convenience and the convenience of the abutters thereon, that a private way or place, called by us Thayer place, should be laid out and maintained by the town, leading from a proposed new street, called by us Thayer street, to the land of Michael Mahan, as hereinafter described by its centre line, viz. : —

Commencing at a point in the northerly side of a proposed street, running from Davis ave. to Washington st., situated 15.67 feet westerly from the angle in the northerly line of said proposed street and running N. $55^{\circ} 49' 50''$ W., 164.87 feet to the land of Michael Mahan, and taking a parallel width of 15 feet in each side of the above-described centre line, and curving the intersection of the northerly side of the proposed street, and the westerly side of Thayer Place, with a radius of 10 feet.

The land taken is described as follows :—

From the estate of Elijah C. Emerson, a parcel of land bounded northerly by the southerly side of Thayer place as now constructed, southerly by the southerly side of the above-described taking, and extending from proposed street to land of Michael Mahan, containing . . . 1.356 sq. ft.
(398 feet of which is contained in lot in which dwelling-house is situated.)

From estate of Fergus V. Turner, a parcel of land bounded northerly by the northerly side of the above-described taking, southerly by Thayer place as now constructed, and extending from land of Bowker and Lyon to that of E. C. Emerson, containing 54 “

From Levi T. Lyon and W. H. Bowker, a parcel of land containing 6 “

From some person or persons unknown, the fee of that part of Thayer place as now constructed, extending from northerly side of proposed street to land of Michael Mahan, containing about . . 3,550 “

The location of said private way or place is in accordance with a plan and profile of the same, dated August 23d, 1880, made by A. H. French, Civil Engineer, approved by us, and such plan and profile are adopted by us as a part of this record.

The Selectmen also take the right to support said private way or place by sloping the banks on each side thereof on the adjoining land owned by said parties respectively ; but this is not intended to affect or impair at all the right of any owner of such adjoining land to use such slopes for building, or any other purpose or use whatsoever, incident to the ownership of the fee in said slopes, that will not impair the security of the road-beds.

We have estimated the damage sustained by the owners of land, rights, and interests, caused by the laying out and construction of said private way or place, in manner aforesaid, whether by taking property, or by injuring property in any manner whatsoever, and do estimate and determine the amounts to be paid to said parties respectively as follows, viz. : —

We take from Elijah C. Emerson 1,356 square feet of land, and also the right to support the road-bed as aforesaid, and we award him as damages, for the land and rights thus taken, on which the dwelling-house is situated, the sum of \$195.00 ; and we award him as damages, for the remainder of the land and rights taken, the sum of \$191 60

We take from Fergus B. Turner 54 square feet of land, and also the right to support the road-bed as aforesaid ; and we award him as damages, for the land and rights thus taken, the sum of \$26 50

We take from H. H. Bowker and Levi T. Lyon 6 square feet of land ; and we award them as damages for the land thus taken the sum of \$5 00

We take from aforesaid owners, unknown to us, about 3,550 square feet of land ; and we award to such owners the sum of \$3 00

And we have given the owners of the lands through which said private way is laid out, fifteen days from the date of the acceptance of this report by the town in which to remove structures, buildings, walls, fences, hedges, or trees, standing on said land.

And said place or private way, as so laid out, located, and described, is hereby reported to the town for acceptance; and, when so accepted, allowed, and recorded, is to be known as a private way.

The said plan, profile, and this record have been this day filed by us in the Town Clerk's office.

The estimated cost of building this private way or place is	\$250 00
The land damages we estimate at	421 10
The estimated cost of building the sewer therein is	400 00
	<hr/>
Making total cost	\$1,071 10

CHAS. H. DREW,	} <i>Selectmen of the Town of Brookline.</i>
HORACE JAMES,	
OLIVER WHYTE,	
ROLAND C. LINCOLN,	

BROOKLINE, September 9, 1880.

ARTICLE V.

The undersigned, Selectmen of the Town of Brookline, having given printed and written notices to E. C. Emerson, Sarah A. Lincoln, Thomas McMahan, Edward Mealey, Kenrick Brothers, James M. Seamans, James A. Dupee, Mrs. Solomon Burt, John R. Tuscher, Rose Hicks, Mary Cummings, Patrick Hogan, Ira Stubbs, Ellen Stitt, Jeremiah Shea, Paul Kelly, Mrs. J. O. Libby, Patrick McAvoy, Michael Whelan, Robert Stanfield, P. W. Bowen, Estate of Charles Follen, S. B. Logan, John Sheehan, Estate of John Dustin, Adam Halfenstine, and Boston and Albany Railroad Company (being all the parties known to us to be interested in the subject-matter of the sewer to be laid out), that we intend to lay out a sewer, commencing at the termination of the present main sewer under the tracks of the Boston and Albany Railroad, and continuing through White place, and the private grounds of J. W. Seamans and others, to Davis avenue, such notices requiring such persons to appear before us, at the Town Hall, on the 23d day of August, at 4 o'clock in the afternoon; and having caused such notices to be actually served according to law, upon all such persons, by a constable of this town, at least seven days before the day so appointed for the hearing; and having also given notice to them, and all other persons (if any) who may be interested in the subject-matter of said sewer, whose names are not known to us, or who have no place of abode in the town, or who have no tenant or authorized agent known to us, by posting up a copy of the printed and written notice in a public place in the town at least seven days before the time appointed for the hearing; pursuant to such notice we met at the time and place appointed for the hearing, and after hearing the parties, and their remarks and objections, and the route of the sewer having been viewed and examined by us, do adjudge that it is necessary for the public convenience and the public health, that a sewer should be laid out, and maintained by the town, as hereinafter described by its axis line, viz. : —

Commencing at a point on the axis of and at the end of the present sewer, beneath the tracks of the Boston and Albany Railroad, and running in the same direction as does said sewer 9.93 feet.

Thence deflecting left $41^{\circ} 15'$, and running . . . 18.02 "

" " " $41^{\circ} 15'$, " . . . 86.12 "

in a line parallel with and 25 feet distant from the northerly bridge abutment.

Thence deflecting right $43^{\circ} 39'$, running . . . 81.65 "

" " left, $26^{\circ} 32' 15''$, " . . . 832.35 "

in the centre line of White place.

Thence deflecting right, $42^{\circ} 24' 15''$, and running . . . 22.15 "

" " " $42^{\circ} 24' 15''$, " . . . 172.74 "

to the southerly side of Davis' avenue, and taking land as hereinafter described : —

From the Boston and Albany Railroad a parcel of land 10 feet in width on each side of the axis line, and extending from the end of the present sewer to the easterly end of White place, containing about 1,000 sq. ft.

From the owners of the fee of White place a strip of land 10 feet in width on each side of the axis line, and extending from the land of the Boston and Albany Railroad to that of James M. Seamans, containing about 14.400 "

From James M. Seamans a parcel of land bounded northerly by a line 6 feet from the axis line, southerly by land of Mary Cummings, and extending from land of Kenrick Brothers to westerly end of White place, and containing . . . 360 "

From Kenrick Brothers a parcel of land bounded northerly by a line 6 feet from the axis line, southerly by land of Mary Cummings, and extending from land of James M. Seamans to that of Edward Mealey, containing 429 "

From Edward Mealey a parcel of land bounded both northerly and southerly by lines 6 feet from the axis line, and extending from land of Kenrick Brothers to Kerrigan place, containing	386 sq. ft.
From Thomas McMahan a parcel of land bounded both northerly and southerly by lines 6 feet distant from the axis line, and extending from Kerrigan place to land of Sarah A. Lincoln, containing	396 "
From Sarah A. Lincoln a parcel of land bounded both northerly and southerly by lines 6 feet from the axis line, and extending from land of Thomas McMahan to that of Elijah C. Emerson, containing	1,260 "
From Elijah C. Emerson, a parcel of land bounded southerly and westerly by a line 6 feet from the axis line, northerly by Davis avenue and easterly by land of Sarah A. Lincoln, containing .	2,288 "

The location of said sewer is in accordance with a plan of the same drawn by Shedd & Sawyer, Civil Engineers, approved by us this 9th day of September, 1880, and such plan is adopted by us as a part of this record.

We have estimated the damages sustained by the owners of lands, rights, and interests, caused by the laying out and construction of said sewer, whether by taking property or by injuring property in any manner whatsoever, and do estimate and determine the amounts to be paid to said parties respectively as follows, viz. : —

The Boston & Albany Railroad Corporation waives all claim for compensation for the easement thus taken by the town in lands owned by them.

The owners of the fee of White place, 14,400 sq. ft.	\$5 00
James M. Seamans, 360 sq. ft.	45 00
Kenrick Brothers, 429 sq. ft.	100 00

Edward Mealey, 386 sq. ft.	\$73 72
Thomas McMahan, 396 sq. ft.	68 04
Sarah A. Lincoln, 1,260 sq. ft.	475 00
Elijah C. Emerson, 2,288 sq. ft.	1,144 00

Reserving to each of said persons the right to use the strip of land taken from him for the purpose of passing to and from the remainder of the lot from which said strip of land is taken, and all other rights not inconsistent with the use of said land for the construction and maintenance of said sewer.

And reserving to all abutters on White place, so called, and all other persons having rights therein, either as owners of the fee or of easements therein, the right to pass and repass either on foot or with vehicles over the strip of land taken as aforesaid from White place, in the same way and to the same extent as the same is now used by them.

And we have given the owners of the lands through which said sewer is laid out fifteen days from the date of the acceptance of this report by the town in which to remove walls, fences, hedges, or trees standing on said land.

And said sewer, as so laid out, located, and described, is hereby reported to the town for acceptance, and, when so accepted, allowed, and recorded, is to be known as a public drain or common sewer.

The said plan and this record have been this day filed by us in the office of the Town Clerk.

The estimated cost of building this sewer is	\$5,800 00
The land damages we estimate at	1,910 76
Total of cost and damages	<u>\$7,710 76</u>

CHAS. H. DREW, HORACE JAMES, ROLAND C. LINCOLN, OLIVER WHYTE,	} <i>Selectmen of the Town of Brookline.</i>
--	--

ARTICLE VI.

The original appropriation made for the removal of the Pumping-Station contemplated a cost of one thousand dollars for building a house for the use of the engineer ; but owing to several unforeseen and unavoidable expenses which have arisen during the progress of the work, together with the large advance in price of many articles obliged to be purchased as the work progressed, the appropriation will be nearly exhausted without doing any work on the house ; and as it is found that the estimate made will not be sufficient to build the house the Water Board ask that a transfer of seventeen hundred dollars be made from the appropriation for the Extension of the Water Works for that purpose, and would ask the passage of the following vote : —

Voted, That the sum of seventeen hundred dollars be transferred from the appropriation for the Extension of Water Works to the appropriation for the removal of the Pumping-Station, and that so much of it, as is necessary may be used for the erection of a dwelling-house for the engineer.

ARTICLE VII.

The amount of the appropriation (\$9,000) for lighting streets was based upon the offer of Mr. E. S. Ritchie to light the streets for one year for that sum. The contract with him began on the first of May. From the first of February (the beginning of the financial year) to the first of May the streets were lighted with gas at a cost exceeding the cost of Mr. Ritchie's light for a similar period of thirteen hundred dollars, which sum should be provided for by appropriation. It is believed that there will be sufficient balances from other appropriations to meet the appropriation which is asked for.

TOWN MEETING.

Commonwealth of Massachusetts.

NORFOLK, SS.

To either of the Constables of the Town of Brookline,

GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Brookline, qualified to vote in elections, to meet at the

TOWN HALL,

IN SAID TOWN,

On Thursday, the Sixteenth Day of September, current,

At Seven of the Clock in the Evening, for the following purposes, to wit:

First.—To choose a Moderator.

Second.—To hear and act upon the Reports of Town Officers and Committees.

Third.—To see if the Town will accept and allow a new Town Way called Thayer Street, running from Davis Avenue to Washington Street, as laid out by the Selectmen.

Fourth.—To see if the Town will accept and allow a Place or Private Way called Thayer Place, leading from the proposed new Town Way called Thayer Street to the estate of Michael Mahan, as laid out by the Selectmen.

Fifth.—To see if the Town will accept and allow a lateral Sewer, beginning at the end of the Main Sewer, under the tracks of the Boston and Albany Railroad, and continuing through White Place, and private grounds of Seamen and others, to Davis Avenue, as laid out by the Selectmen.

Sixth.—To see if the Town will transfer from the appropriation for the Extension of Water Works, to the appropriation for the Moving of the Pumping Station, the sum of seventeen hundred dollars, to be used in the construction of the Engineer's House.

Seventh.—To see if the Town will appropriate the sum of thirteen hundred dollars for lighting streets, to be paid from any unexpended balances in the Treasury.

Eighth.—To see what action the Town will take relative to the claim of Philip Duffy.

Ninth.—To see what action the Town will take relative to the petition of John C. Abbott and others, for a change of grade of Beacon Street, between Tappan Street and Park Street.

Tenth.—To see if the Town will appropriate the sum of five hundred dollars for the repair of Longwood Bridge, to be taken from any unexpended balances in the Treasury.

Eleventh.—To see if the Town will discontinue the Newton Street School.

Twelfth.—To see if the Town will authorize the construction of a sewer under the new ways called Thayer Street and Thayer Place, and through a portion of Davis Avenue, to the proposed new Sewer from Davis Avenue through White Place.

Thirteenth.—To see if the Town will appropriate sums now in the Treasury or which may be received from Sewer assessments, for the construction of the proposed Sewers; and will also authorize the Treasurer, under the direction of the Selectmen, to borrow such additional sums of money as shall be necessary for the construction of said Sewers, and of said proposed Street and Place, and the payment of damages, to be paid from the taxes of next year.

Fourteenth.—To raise and appropriate such sums of money as may be necessary for any or all of the foregoing articles.

Hereof fail not, and make due return of this warrant with your doings thereon, to the Selectmen, four days at least before the day of said meeting.

Given under our hands at Brookline aforesaid, this ninth day of September, in the year of our Lord one thousand eight hundred and eighty.

CHARLES H. DREW,
R. G. F. CANDAGE,
HORACE JAMES,
OLIVER WHYTE,
ROLAND C. LINCOLN,

SELECTMEN
OF THE TOWN OF
BROOKLINE.

A TRUE COPY.—ATTEST:

W. Y. GROSS, Constable.

r o

ARTICLE VIII.

This article is inserted by request of Mr. Duffy, who claims that he suffered damage by the widening of Brookline avenue some years ago; but as he did not make claim for damage, or bring his petition for assessment thereof, within the time provided by law, he lost his right to the same. We recommend that the matter be referred to a special committee, or to the Selectmen.

ARTICLE IX.

At the point in the street indicated in the petition there is a considerable depression, which, if filled in, and the grade of the street raised, would greatly improve its condition. It seemed to the petitioners that advantage might be taken of the opening of the street by the City of Boston, at this time, to do the work at a moderate cost; a large quantity of suitable road material having been removed from the street, which could be used for the proposed work. This matter came before us at so late a time that we have not been able to properly investigate the subject, and we are unable, therefore, to make any recommendation to the town.

ARTICLE X.

Longwood bridge is in such condition as to need immediate repairs, which it is estimated will cost about \$500. Repairs were made upon it in the spring at a cost of \$200. As the appropriation for highways is not sufficient to meet the present exigency, the appropriation asked for is necessary. It is hoped that there will be sufficient balances from other appropriations to meet this appropriation.

ARTICLE XI.

This article is placed in the warrant at the request of the School Committee, who have sent to this Board the letter following: —

BROOKLINE, Sept. 1, 1880.

To the Board of Selectmen: —

GENTLEMEN, — I am instructed by the School Committee to request that the following article be inserted in the warrant calling the next town meeting: “To see if the town will discontinue the Newton-st. School.”

Some of the members seem to think it is a useless expense to maintain the school for six to ten pupils, especially as the Heath-street School is not crowded.

Yours respectfully,

WM. H. LINCOLN,
Chairman.

ARTICLE XII.

See Report under Articles 3, 4, and 5.

ARTICLE XIII.

The Selectmen are of opinion that the town should appropriate the money arising from sewer assessments to the building of new sewers, rather than for general purposes. To that end they ask that the town will appropriate the sum (\$8,000) necessary to construct the sewers recently laid out (if the town shall vote to build them) from the money in the Treasury received on account of sewer assessments. There is now in the Treasury, or is likely soon to be received on this account, about \$9,000. The money necessary to defray the cost of constructing the ways referred to, and to pay all land damages, estimated at \$7,204.66, the Selectmen recommend to be borrowed, to be paid from the taxes of next year.

REPORT OF THE COMMITTEE

APPOINTED TO

REVISE THE BY-LAWS

OF THE

TOWN OF BROOKLINE.

4

BROOKLINE:

T. R. MARVIN & SON, PRINTERS.

1880.

REPORT.

THE committee appointed to revise the by-laws of the town have attended to that duty, and submit their report to the town. The committee have re-arranged the by-laws, and, in many instances, re-drafted them. They have not felt authorized, however, to omit from the draft herewith submitted any provisions of the existing by-laws, except when they seemed to conflict with by-laws passed subsequently. The committee have prepared by-laws upon the subjects of the discharge of fire-arms, driving of cattle, and sewers, to which their attention was called by citizens of the town, and have incorporated them with the others.

With these exceptions, the committee believe that the draft submitted embraces only the provisions of the existing by-laws.

CHARLES H. DREW,	}	<i>Committee.</i>
THOMAS H. TALBOT,		
MOSES WILLIAMS, JR.,		

PROPOSED BY-LAWS
OF THE
TOWN OF BROOKLINE.

I.—THE CALLING OF TOWN MEETINGS.

SECT. 1. The Selectmen, whenever it is possible, shall, before calling any town meeting, post notices of their intention so to do, in at least ten places in the town, at least fifteen days before the time of such meeting. Printed notifications of all annual town meetings shall be left at the place of residence of every legal voter in the town, at least four days before the day upon which the meeting is to be held ; all other town meetings may be notified by printed notices, posted in at least twenty public places in the town, and by publication in any newspaper published in the town, or in the city of Boston, and that said publication be at least twenty-four hours before the time of said meeting. The notifications shall, in all cases, contain an enumeration of all subjects specified in the warrant.

II.—TAXES.

SECT. 2. All taxes shall be assessed according to law, and the tax-bills shall be delivered as soon as the assessment is completed.

SECT. 3. All taxes shall be paid on or before the first day of October in each year, unless otherwise ordered by the town. Except bills for Poll Taxes only, which shall be paid on presentation thereof.

SECT. 4. The Assessors shall keep a record of all abatements of taxes, the names of the parties taxed, and the reasons for, and amounts of, abatement.

SECT. 5. In all cases where tax-bills are not paid at the time specified in the second section, it shall be the duty of the collector forthwith to issue a summons to each delinquent; and, if such delinquent do not pay the amount of his tax within ten days after the issuing of the summons, with twenty cents more for the summons, the collector shall issue his warrant to an officer, who shall forthwith proceed to collect the amount due, in manner provided by law. Seven per cent interest shall be charged on all tax-bills from the time they respectively become due until paid, unless otherwise determined by the town.

III.—CONVEYANCES OF TOWN PROPERTY.

SECT. 6. The Town Clerk, under the direction of the Selectmen, shall have the custody of the Town Seal.

SECT. 7. All conveyances under seal, which may hereafter be executed on behalf of the town, pursuant to a vote of the town or otherwise, shall be sealed with such seal, and subscribed by the whole Board of Selectmen for the time being.

SECT. 8. The Town Clerk shall keep a true copy (in a book to be kept for such purpose alone) of all deeds, or other instruments executed by the Selectmen, in accordance with the provisions of this by-law.

IV.—CONTRACTS BY TOWN OFFICERS.

SECT. 9. No member of the Board of Selectmen or any Officer appointed by the legal voters of the town, authorized to make any contract or agreement in behalf of the town for

labor, materials, goods, wares or merchandise furnished to the town, or for a loan of money, shall be interested in a private capacity, either directly or indirectly, in such contract, agreement or loan ; nor shall either directly or indirectly for himself or for any other person, receive any commission, discount, bonus, present or reward from the persons making such sale, loan, contract or agreement, or furnishing such materials, goods, wares and merchandise.

SECT. 10. All calls for contracts shall be advertised in not less than two Boston daily newspapers, and shall have not less than three insertions in each, at intervals of two days ; the last publication to be at least two days before the day of opening the bids.

SECT. 11. The advertisement shall require each proposal to be sealed, the name of the bidder to be in a separate envelope, properly designated, and shall announce the place, day and hour at which they will be opened. The bids as received shall be deposited in a box securely locked, and at the time and place named shall be publicly opened in the presence of a majority of the Board of Selectmen, or Committee authorized by the town to make the contract. No bids shall be deposited after the time advertised for opening.

V.—CONSTRUCTION OF TOWN-WAYS.

SECT. 12. Whenever any way shall have been laid out or altered by the Selectmen, and accepted and allowed by the town, no entry for the purpose of constructing any part of such laying out or alteration shall be made, until all claims for damages by reason thereof shall have been finally adjusted or determined ; unless such entry shall be authorized by special vote of the town.

VI.—APPROPRIATIONS.

SECT. 13. It shall be the duty of the Selectmen to prepare and print in the Annual Town Report a table of estimates of all the regular appropriations proposed to be made at the

annual meeting. In order that they may make such a table, each Board or Standing Committee shall make out an estimate for each respective regular appropriation needed, and cause the same to be handed to the Selectmen, in writing, in season for such publication, with the reasons therefor.

SECT. 14. Any Board or Standing Committee or Officer of the town, or any person or persons intending to ask an appropriation at any meeting of the town, other than the regular annual appropriations before named, shall file a written notice in the office of the Town Clerk of such intention, at least ten days before such meeting, stating the object and sum of the appropriation intended to be asked. The Town Clerk shall thereupon record such notice, and inform the Selectmen thereof. It shall thereupon be the duty of the Selectmen to examine into the subject and be prepared to inform the town thereon.

SECT. 15. If the sum of the appropriation so proposed to be asked shall exceed one thousand dollars, a statement of the proposition shall be printed and circulated with the warrant for the meeting, or at least four days before such meeting.

Provided, that an appropriation may be asked, without such notice, at any meeting of the town, but in the absence of such previous notice, the subject shall not be acted upon except at an adjournment of said meeting, or at another meeting; in either case not less than one week from the date thereof, and during said interim the Selectmen shall cause a printed notice of the sum and object of said proposed appropriation to be distributed among the voters, at least three days before such adjourned or other meeting, and shall also fully inform themselves upon the subject, and report thereon when it comes before the town for action.

VII.—REPORTS.

SECT. 16. The Town Clerk shall make an annual report upon the vital statistics of the town.

SECT. 17. The Selectmen, acting in their function of a Board of Health, shall report such statistics, recommendations

and suggestions, as they shall deem suitable, in order to give to the town full information upon the subject of the public health and sanitary welfare of the inhabitants of the town.

SECT. 18. The Selectmen shall, in their annual report, state in detail what action they have taken in the year preceding, whether as Selectmen, Overseers of the Poor, Surveyors of Highways or Board of Health. In regard to town-ways, county-ways and sewers, they shall state specifically what have been laid out and constructed, what have been altered, what damages have been assessed and paid ; what claims are outstanding, and what claims are in suit against the town. They shall also state what ways or sewers that have been ordered, laid out or accepted, remain to be constructed. They shall especially give full reports in regard to all suits against the town, by or with all the circumstances relating thereto.

SECT. 19. The Selectmen shall, on the first day of each month, cause an exhibit to be prepared of the sum and object of each appropriation made by the town, the amount of the warrants drawn against the same, and the balance unexpended. Said exhibit shall be recorded in a book kept for the purpose, subject to the inspection of the citizens.

SECT. 20. In his annual report, the Treasurer shall state specifically the objects for which the debt of the town was increased during the year preceding, and recite the votes under which the money was borrowed ; and shall render a classified statement of all expenditures and receipts of the town in such detail as to give a fair and full exhibit of the objects and methods of all expenditures. He shall also state the amount of money received from other sources than taxation by the town ; and the expenditures and town debt for each year since the year 1847, including the year last ended.

SECT. 21. The Assessors shall append to their annual report, a table of the valuation, real, personal and total, the rate of taxation, and the amount of money raised.

SECT. 22. The School Committee shall append to their annual report a statement of the total number of children who have attended the public schools during the year.

SECT. 23. The Trustees of the Public Library shall append to their annual report an account of the amounts received and of the sum and object of their expenditures for the support of the Town Library during the year preceding.

SECT. 24. All Boards, Standing Committees and officers of the town shall cause records of their doings and accounts to be kept in suitable books. Said books shall be kept in their respective places in the Town Hall, and shall not be removed therefrom. Said record books shall be open to the inspection of the citizens of the town during business hours on every day, but shall remain during such inspection under the supervision of the Board, Committee or Officer designated to keep charge thereof.

SECT. 25. All Boards, Standing Committees, Special Committees or Officers of the town having the charge of the expenditure of money, shall annually report thereon in print in such manner as to give the citizens a fair and full understanding of the objects and methods of such expenditures, referring, however, to the report of the Treasurer for specific details.

SECT. 26. All reports intended to be presented or proposed to be acted upon at the annual meeting of the town, shall be made on or before February 15th, in each year, and shall thereupon be printed, and shall be distributed at least four days before said meeting.

SECT. 27. The Town Clerk shall have charge of printing and make a full index of the reports, but the contracts for printing the reports shall be made by the Selectmen.

VIII.—PUBLIC WAYS.

SECT. 28. All persons intending to erect, repair, or take down any building, on land abutting on any way which this town is obliged to keep in repair, and who desire to make use of any portion of said way for the purpose of placing thereon building materials or rubbish, shall, ten days at least before so placing any building materials or rubbish, give notice in writing, to the Selectmen of such wish. And thereupon the Selectmen

may grant a permit to occupy such a portion of said way to be used for such purpose, as in their judgment the necessity of the case demands and the security of the public allows ; such permit in no case to be in force longer than ninety days, and to be on such conditions as the Selectmen may require ; and especially, in every case, upon condition that during the whole of every night, from twilight in the evening until sunrise in the morning, lighted lanterns shall be so placed as effectually to secure all travellers from liability to come in contact with such building materials or rubbish.

SECT. 29. Whoever shall use any portion of any way which the Town of Brookline is obliged to keep in repair, without the permit, in writing, of the Selectmen, as above provided, or having obtained such permit, shall fail to comply with the conditions thereof, shall forfeit and pay into the Town Treasury ten dollars for each offence, and shall also reimburse the town for all expenses by way of damages or otherwise, which the town may be compelled to pay by reason of the way being encumbered.

SECT. 30. Whoever shall move, or assist in moving, any building more than ten feet high, over any way in this town, which this town is obliged to keep in repair, without the written permit of the Selectmen being first obtained, or, having obtained such permit, shall not comply with the restrictions and provisions thereof, shall forfeit and pay into the Town Treasury, for every such offence, twenty dollars.

SECT. 31. In case any building shall be moved contrary to the provisions of the third section, the owner of the building shall reimburse the town for all expenses by way of damages or otherwise, which the town may be compelled to pay by reason of the way being encumbered.

SECT. 32. Whoever shall coast upon a sled in any of the streets, or upon any of the sidewalks in this town, shall forfeit and pay into the Town Treasury, for each offence, a sum not less than one dollar, and not more than five dollars.

SECT. 33. Whoever shall drive, or take charge of, at the same time, in any of the public ways of the town, two or more vehicles, drawn by horses or other beasts, or shall allow any

vehicle belonging to him to be driven in the public ways of the town, without some competent person in charge thereof, shall forfeit and pay for each offence the sum of five dollars.

SECT. 34. No person shall drive cattle in droves of more than six, through any of the streets of the town, without first obtaining a license from the selectmen so to do.

SECT. 35. Whoever having charge of any beast, shall suffer or permit any such beast to run, gallop, trot, pace, or go, at any rate exceeding eight miles to the hour, through any way, avenue or street in this town, shall forfeit and pay not less than five dollars, nor more than twenty dollars for each offence, to be paid into the treasury of the town.

SECT. 36. Whoever shall suffer horses, or grazing beasts, or swine, to run at large in this town, or to feed by the roadside, either with or without a keeper, shall forfeit and pay into the Town Treasury five dollars for every such offence.

SECT. 37. Whoever shall drive, wheel, or draw any coach, cart, wheelbarrows, handcarts, velocipedes, bicycles, or any carriages of burden or pleasure (excepting children's carriages, drawn by hand), upon any sidewalk in the town, or permit any horse, cattle, swine, or sheep under his or her care, to go upon any sidewalk in the town, so as to interfere with the convenient use of the same by all passengers, or behave himself in a rude or disorderly manner, or use any indecent, profane, or insulting language, in any public place in the town, or near any dwelling house, or other building, therein, or be, or remain upon any sidewalk, or upon any doorstep, portico, or other projection of any house or other building, not his own, to the annoyance or disturbance of any person, or by any noise, gestures, or other means, wantonly and designedly frighten any horse in any street, or other public place in the town, or shall throw stones, snowballs, sticks or other missiles, or kick at football, or play at any game in which a ball is used, or fly any kites, or balloons, in any of the public ways in the town, shall forfeit and pay for each offence, not less than five dollars and not more than twenty dollars.

SECT. 38. Whoever shall stand in any public way, in such a manner as to obstruct a free passage for passengers, or shall

make any bonfire, or other fire in any public way or public place in the town, or within two hundred feet of any such way or place within the town, shall forfeit and pay for each offence, not less than five dollars, and not more than twenty dollars.

SECT. 39. Whoever shall shoot with, or use a bow and arrow, in any of the public ways of the town, or shall place or cause to be placed upon any public way, footpath, or sidewalk, within the town, any lumber, iron, coal, trunks, bales, boxes, crates, casks, barrels, package or other thing, or shall otherwise obstruct such way by placing things therein, for more than one hour, or more than ten minutes after being notified by a Constable, Police Officer, or the Selectmen, or shall lay, throw, or place, or cause to be laid, thrown or placed, any ice or snow into any street within the town, unless the same be broken into small pieces, and spread evenly on the surface of such street, shall forfeit and pay not less than two, nor more than five dollars for every offence.

IX.—HAY SCALES.

SECT. 40. The Selectmen shall appoint, for a term not exceeding one year, a superintendent of the hay-scales belonging to the town; who may at any time, be removed from office by the Selectmen.

SECT. 41. In case of temporary absence, or inability properly to perform the duties of his office, the Superintendent shall at his own expense procure a substitute to perform such duties, who shall be approved by the Selectmen, and be removable at their pleasure.

SECT. 42. It shall be the duty of the Superintendent to weigh all the hay and other articles, which may be offered to be weighed, subject to such rules and regulations as shall be established by the Selectmen, concerning the scales and the fees for weighing.

X.—FIRE DEPARTMENT.

SECT. 43. Until otherwise provided, there shall be one Engine Company, and one Hose Company, and one Hook and Ladder Company. No person shall be appointed a member of either of said Companies, except he is eighteen years of age, and a resident in the town ; nor shall any one be appointed for a less term than three months.

SECT. 44. Each Company shall have a Foreman, an Assistant Foreman, and a Clerk, who shall be chosen by each Company annually, at a meeting to be held in May ; subject to the approval of the Board of Engineers.

SECT. 45. It shall be the duty of the Foreman to see that the engines and apparatus and engine-houses are all kept neat, clean, and in order for immediate use, and to preserve order and discipline at all times in the Companies.

SECT. 46. It shall be the duty of the Clerk to keep a record (in a book to be provided by the Engineers) of the names of all the officers and members of the companies, specifying the times of appointment, discharge, and age of each member, and the absence of each from all fires in this town, and from the monthly meetings, provided for in the sixth section ; and also a full account of the town property in charge of the companies. This book to be always subject to the control and inspection of the engineers, and to be actually submitted to their inspection some time in the months of January and July in each year. In the course of the same months, the Clerk is to deliver to the Town Treasurer a certified list of the officers and members of the Companies, specifying the number of times (if any) each officer or member has absented himself as aforesaid.

SECT. 47. Each Company shall perform all duties by law required to be performed by engine-men, and shall use their endeavors, in as orderly and quiet a manner as possible, to extinguish all fires which may break out in this town. And in no instance shall the engines or apparatus leave the town, without the consent of one or more of the engineers of the town.

SECT. 48. On the return of the apparatus from the fire, the same shall be well and securely taken care of ; and once a month the companies shall meet, for the purpose of examining the state of the engines and apparatus, and see that the same are in good repair, and ready for use.

SECT. 49. The officers and members shall quarterly receive from the Town Treasurer, in full for their services, such compensation as the Selectmen may, from time to time, by vote determine. Provided that no member not appointed as provided in the first section, and no officer not approved as provided in the second section, shall receive any portion of such compensation.

SECT. 50. No claims whatever on account of said Company, its members or officers, shall be paid by the Town Treasurer, except the compensation provided for by the seventh section.

SECT. 51. The members of the Companies are not to meet in their respective houses for any purpose except those properly and reasonably connected with their duty as firemen, unless by permission of the board of engineers ; and no distilled or fermented liquors shall be used at any meeting whatever, which shall be held in the engine-houses. At any time, when, in the judgment of the Selectmen, the public good will be advanced thereby, they may dismiss from the service all or any portion of the companies, their officers or members.

SECT. 52. Whoever shall take away, or cause to be removed, from any engine-house or other buildings in this town, or in any way interfere with any Fire Engine, Hose Carriage, Ladder Carriage or any Hooks, Ladders, Hose or other apparatus for extinguishing fires, or connected with any Engine Company, (said property belonging to this town,) without the consent of the Engineers or officers of any engine company, or members thereof duly authorized, or one of the Selectmen of the Town, shall forfeit and pay not less than five dollars, nor more than twenty dollars for each offence, to be paid into the treasury of the town.

SECT. 53. Whoever shall maliciously enter into any of the buildings belonging to this town, which are used for engine-houses or the storage of apparatus connected with extinguish-

ing fires, without the consent of the Engineers or officers of any engine company, shall forfeit and pay not less than five dollars, nor more than twenty dollars, for each offence, to be paid into the treasury of the town.

XI.—PUBLIC SCHOOLS.

SECT. 54. Habitual truants and children between the ages of seven and fifteen years wandering about in the streets and public places of this town, having no lawful occupation or business, not attending school, and growing up in ignorance, shall be punished by a fine not exceeding twenty dollars, or by commitment to any institution of instruction, house of reformation, or suitable situation, provided for the purpose under the authority of the first section of chapter 262 of the Acts of the year 1873.

SECT. 55. The school committee shall annually appoint two or more truant-officers whose duty it shall be to report all cases coming to their knowledge of habitual truancy, and of children found wandering in the streets as aforesaid, to the parents or guardians of the children found offending; and in case such children so reported are again found violating this by-law, to make complaint thereof before a court or magistrate having jurisdiction of the offence. They shall also inquire diligently concerning all persons between the ages aforesaid, who seem to be idle or vagrant; or who, whether employed or unemployed appear to be growing up in ignorance, and enter a complaint against any one violating section first of this by-law. Before making complaint against any child, the truant-officers shall notify the child and its parents or guardian of the penalty of the offence.

SECT. 56. Every child before being admitted into any public school in this town, shall present to the teacher a certificate from some physician, or from its parents or guardians, that he or she has been properly vaccinated. No child shall be allowed to attend school who has not been properly vaccinated.

XII.—PUBLIC HEALTH.

SECT. 57. It shall be the duty of the Board of Health to be vigilant and active in protecting the public health; to see that the laws and ordinances in relation to the same are enforced; to communicate their views to the Board of Selectmen from time to time, as they may deem expedient; and they shall have power to call upon the police and the various town officers to aid them in the performance of these duties.

SECT. 58. The Board of Health shall make all contracts and regulations for the cleaning of cesspools, vaults, and privies, and the collection of house offal, and the employment of laborers required therefor; provided, however, that the expenditure for the purposes herein enumerated shall not exceed the amount previously appropriated therefor by the town; and all contracts for such work shall contain the condition that they shall be performed to the satisfaction of the Board of Health.

SECT. 59. The Board of Health shall organize annually by choice of one of their members as chairman. The said board shall also appoint a secretary, whose duty it shall be to have charge of the records of the board.

SECT. 60. The board shall annually, on or before the 10th day of February, send to the Selectmen an estimate, in detail, of the appropriations required by the Health Department during the next financial year. All bills for expenditures from the appropriations for the Health Department shall be drawn for by the chairman of the board, and examined by the auditor of the Selectmen, before they are paid by the Town Treasurer.

SECT. 61. The Board of Health shall annually, in the month of February, present to the town a report made up to and including the last day of the preceding January, containing a full and comprehensive statement of the acts of the board during the year, and a review of the sanitary condition of the town.

SECT. 62. Whenever the board sells any article or materials belonging to the town, or does, or causes to be done, work for any individual, they shall enter, in books to be kept for that

purpose, all such sales and work done, with the price thereof, and shall forthwith make out bills for the same and deliver them to the Town Treasurer for collection, and the Treasurer shall forthwith demand payment of the said bills; and in case any bills or dues under this by-law remain unpaid at the expiration of thirty days after demand for payment as aforesaid, the Treasurer shall deliver the same to the Board of Selectmen for legal proceedings; but if the Selectmen are satisfied that the interests of the town require it, they may cause legal proceedings to be had at any time.

SECT. 63. The Board of Health may give licenses for burials, and for the removal of dead bodies from the town, and point out the place, depth, width and range of all graves in the several burying-grounds, and shall forbid graves to be dug within those limits in such grounds in which, in its judgment, it would be dangerous to the public health to allow graves.

SECT. 64. No person shall bury or inter, or cause to be buried or interred, any dead body, in violation of any direction or order of the board, given in accordance with the preceding section, or without having first obtained a license so to do.

SECT. 65. No person shall inter, or cause to be interred, any dead body in a grave less than three feet deep from the surface of the ground surrounding the grave to the top of the coffin.

SECT. 66. On the first Monday of February annually, or within ten days thereafter, the Board of Health shall appoint for a period of one year, from the first Monday of April in the year in which they may be appointed, such a number of funeral undertakers as may be deemed expedient, and they shall be responsible for the decent, orderly, and faithful management of the funerals undertaken by them, and for a strict compliance with the ordinances of the town in this behalf. Each undertaker may employ porters, of a discreet and sober character, to assist him, and he shall be accountable for their conduct; said undertakers and porters may be removed at the pleasure of the board. No person not appointed as aforesaid shall open any tomb or grave for the purpose of depositing or removing a dead body, without the permission of the Board of Health.

SECT. 67. No person shall bury or inter, or cause to be buried or interred, any dead body at any other time of the day than between sunrising and sunseting, except when otherwise permitted by the Board of Health.

SECT. 68. The Board of Health are authorized to make and adopt any regulations in relation to the interment of the dead which they may deem expedient.

SECT. 69. In order to abate a nuisance the Board of Selectmen, with the approval of the Board of Health, is authorized to permit, under such restrictions, not inconsistent with existing by-laws of the town in relation thereto, and on the payment of such sum as they may deem expedient, the construction of sufficient passage-ways or conduits under ground for the purpose of conveying the contents of any vault, privy, or wet lands into any common sewer or drain.

SECT. 70. If the Board of Health shall at any time be satisfied that any tenement, used as a dwelling-house, is not provided with a suitable privy, vault, and drain, or either of them, as aforesaid, they shall give notice in writing to the owner, agent, occupant, or other person having the care thereof; and in case of neglect or refusal to obey such notice the Board of Health shall cause such privy, vault, and drain to be made for such tenement or other building, at the expense of such owner, agent, occupant, or other person; and in case any such drain, vault, or privy is constructed as aforesaid, for the use of more than one house, then the owner, agent, occupant, or other person having the charge of each of such houses, shall be liable to pay a proportional part of such expense.

SECT. 71. Whenever any vault, privy, or drain becomes offensive or obstructed, the same shall be cleansed and made free, and the owner, agent, occupant, or other person having charge of the land in which any vault, privy, or drain is situated, the state or condition of which is in violation of the provisions of this ordinance, shall remove, cleanse, alter, amend, or repair the same within such reasonable time, after notice in writing to that effect given by the Board of Health, as shall be expressed in such notice. In case of neglect or refusal so to do, the Board of Health may cause the same to be removed, altered,

amended, or repaired, as they may deem expedient, at the expense of the owner, agent, occupant or other person as aforesaid.

SECT. 72. No cesspool, vault or privy situated within one hundred feet of any town way or public building shall be emptied in any other mode, or at any other time, than the Board of Health may direct and appoint, subject to such regulations as the board from time to time shall make on the subject, and always at the expense of the owner, agent, occupant, or other person having charge of the tenement in which such vault is situated.

SECT. 73. Books, in which shall be entered all applications for opening and cleansing vaults, shall be kept in convenient places under the charge of the Chief of Police; such applications shall specify the number of loads, if less than the whole contents of the vault, to be removed; and they shall receive attention in the order in which they are made, so far as practicable.

SECT. 74. All house offal, whether consisting of animal or vegetable substances, shall be placed in suitable vessels, and no ashes or other refuse matter shall be mingled therewith; and the same shall be kept in some convenient place, to be taken away by the town scavengers, which shall be done as often as once in each week.

SECT. 75. No person shall remove, or carry in, or through, any of the streets, squares, courts, lanes, avenues, places, or alleys within the town of Brookline any house dirt or house offal, either animal or vegetable, or any grease or bones, or any refuse substances from any of the dwelling-houses or other places in the town, unless each person so removing or carrying the same, and the mode in which the same may be removed or carried, shall have been expressly licensed by the Board of Health, upon such terms and conditions as they may deem the health and interest of the town require. But all the ashes and cinders made from steam engines, or steam boilers, forges or furnaces, used for mechanical purposes, shall be removed at the expense of the parties occupying the building, or the

owners thereof, and at such times, and in such manner, as the Board of Health may direct.

SECT. 76. No person shall drive, or cause to be driven, any cart or wagon containing night-soil, or any wagon or cart used for that purpose, through any public way in the town, between the hours of four A. M. and nine P. M., nor permit any such wagon or cart to stand between said hours, in any street, lane or alley in said town.

SECT. 77. No person shall keep any swine within a distance of fifty feet of any public way or place, or within a distance of one hundred feet of any dwelling-house not his own, or within a distance of twenty-five feet of his own dwelling-house, without a permit from the Selectmen previously obtained.

SECT. 78. No person shall put or suffer to accumulate on his premises any refuse, animal or vegetable matter, rubbish or filth, whereby any offensive or noxious stench or effluvia shall be created, and the health or comfort of the citizens be injuriously affected, or shall throw any such substances into the streams or brooks of the town, not laid out by the town as common sewers, or shall allow the contents of any vault, or house-drain, or the refuse of manufacturing or slaughtering process, to drain into such streams or brooks.

SECT. 79. No person shall throw or suffer to fall into any common sewer in the town, or into any inlet of the same, any dead animals, stones, bricks, sticks, or other substances likely to obstruct the flow of water in the same, and no person shall allow his vault or house-drain to drain into any sewer, without first obtaining from the proper authorities the permission so to do.

SECT. 80. No person, without the license of the Board of Health, shall throw into, or leave in, or upon, any street, court, square, lane, alley, public square, public enclosure, vacant lot, or any pond or body of water within the limits of the town, any dead animal, dirt, sawdust, soot, ashes, cinders, shavings, hair, shreds, manure, oyster, clam or lobster shells, waste water, rubbish or filth of any kind, or any refuse animal or vegetable matter whatsoever. Nor shall any person throw into, or leave

in, or upon, flats or tide water within the jurisdiction of the town, any dead animal, or other foul or offensive matter.

SECT. 81. If any of the substances mentioned in the preceding section shall be thrown or carried from any house, warehouse, shop, cellar, yard, or other place, or left in any of the places specified in the preceding section, the owner and occupant of such house, warehouse, shop, cellar, yard, or other place as aforesaid, and the person who actually threw, carried, or left the same, or who caused the same to be thrown, carried, or left, shall severally be held liable for such violation of this ordinance; and all such substances shall be removed from the place where they have been so thrown or left, as aforesaid, by such owner or occupant, or other person, within two hours after personal notice, in writing, to that effect, given by the Board of Health or any police officer; or such removal shall be made under the direction of said board or its officers, and the expense thereof borne by such owner or occupant.

SECT. 82. All dirt, sawdust, soot, ashes, cinders, shavings, hair, shreds, manure, oyster, clam or lobster shells, waste water, or any animal or vegetable substance, rubbish or filth, of any kind, in any house, warehouse, or other building, cellar, yard, unaccepted street, alley-way, or other place which the Board of Health may deem injurious to the health of the town shall be removed by the owner or occupant of such house, warehouse, other building, cellar, yard, unaccepted street, alley-way, or other place where the same may be found, within twenty-four hours, or such other time as the Board of Health may deem reasonable, after notice in writing to that effect, or such removal shall be made under the direction of the Board of Health, and the expense thereof borne by such owner or occupant, who shall also be liable to a penalty.

SECT. 83. No person shall beat or shake any carpets within one hundred feet of any public way or place, or within one hundred feet of any dwelling-house not his own, or in any places so that the dust from such carpets shall injure any person in any dwelling-house or upon any public way or place.

SECT. 84. No person shall bring into town, any decayed or damaged grain, rice, coffee, fruit, potatoes, or other vegetable

product, or any tainted or damaged meat or fish, without a permit therefor, from and in such a manner only as directed by the Board of Health.

SECT. 85. The Board of Health shall have charge of any buildings which are or may be established within the town limits, for the admission of patients having the small-pox, or any other infectious disease; and they shall make such rules and regulations for the management and government of the patients and employes as they may deem proper and necessary. And the board shall carefully guard against the introduction of any cases of infectious disease into any other buildings under their charge than those appropriated for that purpose by the town.

SECT. 86. All notices issued by the Board of Health shall be served personally upon the owner or occupant, or their authorized agent, by any police officer or person competent to serve a notice in a civil suit, or it may be left at the owner's, occupant's, or agent's last and usual place of abode, if the same be known and be within the State.

XIII.—MISCELLANEOUS PROVISIONS.

SECT. 87. Whoever posts, affixes, or in any way attaches any poster, handbill, notice, advertisement or placard, or paints, draws, or stamps any letter, notice, figure, advertisement, or marks upon or into, or otherwise defaces any wall, fence, post, tree, building or structure, not his own, within the town of Brookline, without the permission of the owner of such wall, fence, post, tree, building or structure, shall forfeit and pay for each offence a fine of not less than five nor more than twenty dollars, to be paid into the treasury of said town; and if such posters, handbills, notice, placard, letter, figure, advertisement or marks be obscene, or indecent, the penalty shall not be less than twenty dollars for each offence.

SECT. 88. Whoever shall swim or bathe in any of the waters within or surrounding the town, so as to expose himself to the view of any passenger or other person in any public

way, railroad or house within the town, shall forfeit and pay not less than five dollars, and not more than twenty dollars.

SECT. 89. No person shall fire or discharge any gun, fowling-piece, or fire-arm, within two hundred feet of any street in the town of Brookline; provided, however, that this by-law shall not apply to the use of such weapons at any military exercise or review, or in the lawful defence of the person, family, or property of any citizen.

SECT. 90. The Board of Selectmen may make, from time to time, such rules and regulations for the government, disposition, and management of the police as they may deem expedient.

XIV.—PROSECUTIONS AND PENALTIES.

SECT. 91. Prosecutions for offences under these by-laws, may be made by any constable or police officer of the town.

SECT. 92. Any person who shall violate any provision of these by-laws, or who shall refuse or neglect to obey any order of the Board of Health duly issued under these by-laws, and directed to him and properly served upon him, shall, in cases not otherwise provided for, forfeit and pay for each offence a fine not exceeding twenty dollars.

XV.—ACCOUNTS OF THE TOWN TREASURER.

SECT. 93. The books of the Treasurer shall be kept in such manner and form as shall be prescribed by the auditors; and they shall report to the Selectmen any failure to comply with their instructions.

SECT. 94. The Treasurer shall, on the first day of each quarter, notify all officers, boards, committees, and agents of the town, authorized to expend money, or incur indebtedness on account of the town, of the balances of the appropriations against which they are authorized to draw, to the end that no debt shall be contracted in excess of such appropriations.

ADDITIONAL REPORT
OF THE
COMMITTEE ON BY-LAWS
OF THE
TOWN OF BROOKLINE.

BROOKLINE:
T. R. MARVIN & SON, PRINTERS.
、 1880.

SUPPLEMENTAL REPORT.

The Committee on By-Laws present herewith a Supplemental Report containing sections omitted through inadvertence from their former report.

CHARLES H. DREW,

THOMAS H. TALBOT,

MOSES WILLIAMS, JR.

Committee.

ADDITIONAL REPORT.

XVI. CARRIAGE-STANDS.

SECT. 95. No person shall use any portion of any public way in this town as a carriage-stand for the solicitation of passengers for hire, without a license from the Selectmen.

SECT. 96. The Selectmen may grant licenses to use a certain portion of any public way as a carriage-stand, under such terms and conditions as they may prescribe.

XVII. DEALERS IN JUNK.

SECT. 97. No person shall deal in junk within this town, or go from house to house purchasing or endeavoring to purchase, junk, bottles, bones or grease, without a license from the Selectmen.

XVIII. SEWERS.

SECT. 98. All common sewers, which may be considered necessary by the Board of Selectmen, in any street or highway, shall be laid as nearly as possible in the centre of such street or highway, and shall be built of such materials and of such dimensions as the said Board shall direct. And where it is practicable, they shall be of a sufficient size to be entered and cleaned without disturbing the road-bed or pavement above.

SECT. 99. The Board of Selectmen shall have power, in all cases where there is any common sewer in any street or high-

way, to cause every owner of land adjoining said street or highway, his agent or tenant, to make a sufficient drain from his house, yard or lot, whenever in their opinion the same may be necessary ; and they shall thereupon give such owner, agent or tenant, notice in writing, specifying the time within which such drain must be completed ; and if the said owner, agent or tenant, neglects to complete the same within the time specified, the Board of Selectmen shall cause it to be done, and shall recover the whole amount of the expense thereof, with ten per cent. damages, by an action in the name of the town of Brookline, before any court proper to try the same ; *provided*, however, that in no case shall the ten per cent. claimed by way of damage exceed the sum of twenty dollars.

SECT. 100. It shall be lawful for all persons having the care of any buildings, to carry the rain-water from the roofs of said buildings at their own expense, into any common sewers, free of any charge from the town ; *provided*, that the same be done by tight water-spouts and tubes under ground, and under the direction of the Board of Selectmen.

SECT. 101. Every person entering his or her particular drain into any common sewer without a permit in writing from the Board of Selectmen or Superintendent of Common Sewers, as hereinafter mentioned, shall forfeit and pay the sum of twenty dollars, and shall also be liable to pay all such damage by way of indemnification as the said Board may deem just and reasonable.

SECT. 102. All particular drains which enter into any common sewer in any street or highway ; shall be built of such size and materials, and in such a direction, and at such a grade, and in such a manner as the Board of Selectmen or the Superintendent of Sewers shall direct ; and all openings into such common sewer for the purpose of connecting a drain therewith, and all drains and repairs of drains from any house, cellar, yard or other premises connecting with such common sewer, and all openings or excavations in any street or highway, for the purpose of constructing or repairing any private drains, shall be made by a person licensed in writing for that purpose by the Selectmen.

SECT. 103. Every person licensed as provided in the preceding section shall, before performing any work authorized thereby, execute a bond to the town in such sum as the Selectmen may prescribe, (but such sum shall not be less than five hundred dollars), with one or more persons as sureties, satisfactory to the Selectmen, conditioned that he will properly make the openings into the sewer ; that he will properly construct or repair the drains connecting with the sewer or any other drain ; that he will leave no obstruction of any description in the sewer which he may open ; that he will properly close up the excavation and restore the earth and pavement taken up, and regrade and repave the street, should it settle or become out of order within one year thereafter, or if he shall fail to do so within twenty-four hours after being notified thereof in writing, then it shall be regraded or repaved at his expense, by direction of the Selectmen ; also, that he will cause a sufficient fence to be placed and fixed so as to enclose the excavation and the earth, stone or other material which may be put into the street, and that he will maintain such fence during the whole time such excavation, earth or other material may obstruct the street ; and that he will cause one or more lighted lanterns to be maintained in a conspicuous place over such excavation, earth or fence, from the beginning of twilight every evening, and through every night during the time such excavation or obstruction in the street may exist : and further, that he will comply with the by-laws and ordinances in relation to sewers, and drains, and streets, and to such orders and regulations as the Board of Selectmen may adopt for the proper government of persons licensed to construct or repair private drains, or open and dig in the street or highway for that purpose ; and that he will indemnify and hold harmless the town from any damage or costs to which they may be put by reason of injuries resulting to any one from neglect or carelessness in making and repairing such drain, or in performing any work connected therewith, or in properly fencing or lighting at night any excavation or obstruction caused by making or repairing such drain.

SECT. 104. If any drain in any street or highway be constructed or repaired, or any excavation be made for that purpose, without the permission authorized in section eleven, or in mode different from that prescribed therein, the person doing such work, and the owner or agent directing the same, shall respectively be liable to a penalty not exceeding twenty dollars.

SECT. 105. No owner or owners of any real estate to whom permission has been or shall be given to construct private drains for such estate shall, by the construction of such private drains, be exempted from an assessment lawfully imposed for constructing common sewers in the same vicinity.

SECT. 106. Whenever any drain connecting with any common sewer or drain becomes clogged, obstructed, broken, out of order or unfit for the purpose of drainage, the owner, agent, occupant or person having charge of any building, yard, lot of land or other premises which are drained by said drain, shall, when directed by the Board of Selectmen, within five days after notice in writing from said Board, remove, reconstruct, alter, cleanse or repair said drain, as the condition of said drain may require. In case of neglect or refusal to remove, reconstruct, repair, alter or cleanse said drain for the space of five days, the Board of Selectmen shall cause the same to be removed, reconstructed, repaired, altered or cleansed, as they may deem expedient, at the expense of the owner, agent, occupant or other person as aforesaid, and such owner, agent, occupant or other person shall also be liable to a penalty not exceeding fifty dollars.

SECT. 107. Any owner, agent, occupant, or other person having charge of any building, yard, lot of land, or other premises which are drained into any common sewer or drain, who permits any gravel, sand, ashes, or any substance or matter which may form a deposit or obstruction in any common sewer or drain to flow or pass into the same, shall be liable to a penalty of not more than twenty dollars for each offence. And said owner, agent, occupant, or other person as aforesaid shall, when directed by the Board of Selectmen, within ten days after notice in writing to that effect from said Board, provide his

drain with a sufficient cesspool or catch-basin, or, if one already exists, clean out, repair, or alter the same, and provide such other means as shall prevent any substance or matter from passing into the sewer or drain which may cause a deposit or obstruction therein.

In case of neglect or refusal to provide a cesspool or catch-basin, or to clean out, repair, or alter such cesspool or catch-basin, if one exist, for the space of five days, the Board of Selectmen shall cause to be constructed a suitable and sufficient cesspool or catch-basin, or, if one exists, shall cause it to be repaired, altered and cleaned, and provided with such other means to prevent any substance or matter from passing into the sewer or drain that may cause a deposit or obstruction therein, as they may deem expedient, at the expense of the owner, agent, occupant, or other person having charge of the premises, and such owner, agent, occupant, or other person shall also be liable to a penalty not exceeding twenty dollars.

SECT. 108. The Board of Health is authorized to permit, under such restrictions and on the payment of such sum, not exceeding thirty dollars, as they may deem expedient, the construction of sufficient passage-ways or conduits underground for the purpose of conveying the contents of any vault into any common sewer or drain.

XIX. REPEAL.

SECT. 109. Upon the approval of the foregoing By-Laws by the Superior Court, all By-Laws heretofore existing shall be annulled and repealed.

BY-LAWS
OF THE
TOWN OF BROOKLINE.

ADOPTED APRIL 4TH, 1881.

BROOKLINE:
The Chronicle Press: C. A. W. Spencer.
1882.

BY-LAWS.

ARTICLE I.—THE CALLING OF TOWN MEETING.

SECTION 1. The Selectmen, whenever it is possible, shall, before calling any town meeting, post notices of their intention so to do, in at least ten places in the town, at least fifteen days before the time of such meeting. Printed notifications of all annual town meetings shall be left at the place of residence of every legal voter in the town, at least four days before the day upon which the meeting is to be held; all other town meetings may be notified by printed notices, posted in at least twenty public places in the town, and by publication in any newspaper published in the town, or in the city of Boston, and that said publication be at least twenty-four hours before the time of said meeting. The notifications shall, in all cases, contain an enumeration of all subjects specified in the warrant.

ARTICLE II. — TAXES.

SEC. 2. All taxes shall be assessed according to law, and the tax-bills shall be delivered as soon as the assessment is completed.

SEC. 3. All taxes shall be paid on or before the tenth day of October in each year, unless otherwise ordered by the town; except bills for Poll Taxes only, which shall be paid within ten days after presentation thereof.

SEC. 4. The Assessors shall keep a record of all abatements of taxes, the names of the parties taxed, and the reasons for, and amounts of, abatement.

SEC. 5. In all cases where tax-bills are not paid at the time specified in the third section, it shall be the duty of the Collector forthwith to issue a summons to each delinquent; and, if such delinquent do not pay the amount of his tax within ten days after the issuing of the summons, with twenty cents more for the summons, the Collector shall issue his warrant to an officer, who shall forthwith proceed to collect the amount due, in manner provided by law. Six per cent. interest shall be charged on all tax-bills from the time they respectively become due until paid, unless otherwise determined by the town.

ARTICLE III. — CONVEYANCES OF TOWN PROPERTY.

SEC. 6. The Town Clerk shall have the custody of the Town Seal.

SEC. 7. All conveyances under seal, which may hereafter be executed on behalf of the town, pursuant to a vote of the town or otherwise, shall be sealed with such seal, and subscribed by a majority of the Board of Selectmen for the time being.

SEC. 8. The Town Clerk shall keep a true copy (in a book to be kept for such purpose alone) of all deeds, or other instruments executed by the Selectmen, in accordance with the provisions of this by-law.

ARTICLE IV. — CONTRACTS BY TOWN OFFICERS.

SEC. 9. No member of the Board of Selectmen or any officer appointed by the legal voters of the town, authorized to make any contract or agreement in behalf of the town for labor, materials, goods, wares or merchandise furnished to the town, or for a loan of money, shall be interested in a private capacity, either directly or indirectly, in such contract, agreement or loan; nor shall either directly or indirectly for

himself or for any other person, receive any commission, discount, bonus, present or reward from the persons making such sale, loan, contract or agreement, for furnishing such materials, goods, wares or merchandise.

SEC. 10. All calls for contracts shall be advertised in not less than two Boston daily newspapers, and shall have not less than three insertions in each, at intervals of two days; the last publication to be at least two days before the day of opening the bids.

SEC. 11. The advertisement shall require each proposal to be sealed, the name of the bidder to be in a separate envelope, properly designated, and shall announce the place, day and hour at which they will be opened. The bids as received shall be deposited in a box securely locked, and at the time and place named shall be publicly opened in the presence of a majority of the Board of Selectmen, or Committee authorized by the town to make the contract. No bids shall be deposited after the time advertised for opening.

ARTICLE V. — CONSTRUCTION OF TOWN-WAYS.

SEC. 12. Whenever any way shall have been laid out or altered by the Selectmen, and accepted and allowed by the town, no entry for the purpose of constructing any part of such laying out or alteration shall be made, until all claims for damages by reason thereof shall have been finally adjusted or determined; unless such entry shall be authorized by special vote of the town.

ARTICLE VI. — APPROPRIATIONS.

SEC. 13. It shall be the duty of the Selectmen to prepare and print in the Annual Town Report a table of estimates of all the regular appropriations proposed to be made at the annual meeting. In order that they may make such a table, each Board or Standing Committee shall make out an estimate

for each respective regular appropriation needed, and cause the same to be handed to the Selectmen, in writing, in season for such publication, with the reasons therefor.

SEC. 14. Any Board or Standing Committee or Officer of the town, or any person or persons intending to ask an appropriation at any meeting of the town, other than the regular annual appropriations before named, shall file a written notice in the office of the Town Clerk of such intention, at least ten days before such meeting, stating the object and sum of the appropriation intended to be asked. The Town Clerk shall thereupon record such notice, and inform the Selectmen thereof. It shall thereupon be the duty of the Selectmen to examine into the subject and be prepared to inform the town thereon.

SEC. 15. If the sum of the appropriation so proposed to be asked shall exceed one thousand dollars, a statement of the proposition shall be printed and circulated with the warrant for the meeting, or at least four days before such meeting. *Provided*, that an appropriation may be asked, without such notice, at any meeting of the town, but in the absence of such previous notice, the subject shall not be acted upon except at an adjournment of said meeting, or at another meeting; in either case not less than one week from the date thereof; and during said interim the Selectmen shall cause a printed notice of the sum and object of said proposed appropriation to be distributed among the voters, at least three days before such adjourned or other meeting, and shall also fully inform themselves upon the subject, and report thereon when it comes before the town for action.

ARTICLE VII. — REPORTS.

SEC. 16. The Town Clerk shall make an annual report upon the vital statistics of the town.

SEC. 17. The Selectmen shall report such statistics, recommendations and suggestions, as they shall deem suitable,

in order to give to the town full information upon the subject of the public health and sanitary welfare of the inhabitants of the town.

SEC. 18. The Selectmen shall, in their annual report, state in detail what action they have taken in the year preceding, whether as Selectmen, Overseers of the Poor, Surveyors of Highways or Board of Health. In regard to townways, county-ways and sewers, they shall state specifically what have been laid out and constructed, what have been altered, what damages have been assessed and paid; what claims are outstanding, and what claims are in suit against the town. They shall also state what ways or sewers that have been ordered, laid out or accepted, remain to be constructed. They shall especially give full reports in regard to all suits against the town, with all the circumstances relating thereto.

SEC. 19. The Selectmen shall, on the first day of each month, cause an exhibit to be prepared of the sum and object of each appropriation made by the town, the amount of the warrants drawn against the same, and the balance unexpended. Said exhibit shall be recorded in a book kept for the purpose, subject to the inspection of the citizens.

SEC. 20. In his annual report, the Treasurer shall state specifically the objects for which the debt of the town was increased during the year preceding, and recite the votes under which the money was borrowed; and shall render a classified statement of all expenditures and receipts of the town in such detail as to give a fair and full exhibit of the objects and methods of all expenditures. He shall also state the amount of money received from other sources than taxation by the town; and the expenditures and town debt for each year since the year 1847, including the year last ended.

SEC. 21. The Assessors shall append to their annual report, a table of the valuation, real, personal and total, the rate of taxation, and the amount of money raised.

SEC. 22. The School Committee shall append to their annual report a statement of the total number of children who have attended the public schools during the year.

SEC. 23. The Trustees of the Public Library shall append to their annual report an account of the amounts received and of the sum and object of their expenditures for the support of the Town Library during the year preceding.

SEC. 24. All Boards, Standing Committees and Officers of the town shall cause records of their doings and accounts to be kept in suitable books. Said books shall be kept in their respective places in the Town Hall, and shall not be removed therefrom. Said record books shall be open to the inspection of the citizens of the town during business hours on every day, but shall remain during such inspection under the supervision of the Board, Committee or Officer designated to keep charge thereof.

SEC. 25. All Boards, Standing Committees, Special Committees or Officers of the town having the charge of the expenditure of money, shall annually report thereon in print in such manner as to give the citizens a fair and full understanding of the objects and methods of such expenditures, referring, however, to the report of the Treasurer for specific details.

SEC. 26. All reports intended to be presented or proposed to be acted upon at the annual meeting of the town, shall be made on or before February 7th, in each year, and shall thereupon be printed, and shall be distributed at least four days before said meeting.

SEC. 27. The Town Clerk shall have charge of printing and make a full index of the reports, but the contracts for printing the reports shall be made by the Selectmen.

ARTICLE VIII. — PUBLIC WAYS.

SEC. 28. All persons intending to erect, repair, or take down any building, on land abutting on any way which this town is obliged to keep in repair, and who desire to make

use of any portion of said way for the purpose of placing thereon building materials or rubbish, shall, ten days at least before so placing any building materials or rubbish, give notice in writing, to the Selectmen of such wish. And thereupon the Selectmen may grant a permit to occupy such a portion of said way to be used for such purpose, as in their judgment the necessity of the case demands and the security of the public allows; such permit in no case to be in force longer than ninety days, and to be on such conditions as the Selectmen may require; and especially, in every case, upon condition that during the whole of every night, from twilight in the evening until sunrise in the morning, lighted lanterns shall be so placed as effectually to secure all travellers from liability to come in contact with such building materials or rubbish.

SEC. 29. Whoever shall use any portion of any way which the Town of Brookline is obliged to keep in repair, without the permit, in writing, of the Selectmen, as above provided, or having obtained such permit, shall fail to comply with the conditions thereof, shall forfeit and pay into the Town Treasury ten dollars for each offence, and shall also reimburse the town for all expenses by way of damages or otherwise, which the town may be compelled to pay by reason of the way being encumbered.

SEC. 30. Whoever shall move, or assist in moving, any building more than ten feet high, over any way in this town, which this town is obliged to keep in repair, without the written permit of the Selectmen being first obtained, or, having obtained such permit, shall not comply with the restrictions and provisions thereof, shall forfeit and pay into the Town Treasury, for every such offence, twenty dollars.

SEC. 31. In case any building shall be moved contrary to the provisions of the thirtieth section, the owner of the building shall reimburse the town for all expenses by way of damages or otherwise, which the town may be compelled to pay by reason of the way being encumbered.

SEC. 32. Whoever shall coast upon a sled in any of the streets, or upon any of the sidewalks in this town, shall forfeit and pay into the Town Treasury, for each offence, a sum not less than one dollar, and not more than five dollars.

SEC. 33. Whoever shall drive, or take charge of, at the same time, in any of the public ways of the town, two or more vehicles, drawn by horses or other beasts, or shall allow any vehicle belonging to him to be driven in the public ways of the town, without some competent person in charge thereof, shall forfeit and pay for each offence the sum of five dollars.

SEC. 34. No person shall drive cattle in droves of more than six, through any of the streets of the town, without first obtaining a license from the Selectmen so to do.*

SEC. 35. Whoever having charge of any beast, shall suffer or permit any such beast to run, gallop, trot, pace, or go, at any rate exceeding eight miles to the hour, through any way, avenue or street in this town, shall forfeit and pay not less than five dollars, nor more than twenty dollars for each offence, to be paid into the treasury of the town.

SEC. 36. Whoever shall suffer horses, or grazing beasts, or swine, to run at large in this town, or to feed by the roadside, either with or without a keeper, shall forfeit and pay into the Town Treasury five dollars for every such offence.

SEC. 37. Whoever shall drive, wheel, or draw any coach, cart, wheelbarrows, handcarts, velocipedes, bicycles, or any carriages of burden or pleasure (excepting children's carriages, drawn by hand), upon any sidewalk in the town, or permit any horse, cattle, swine, or sheep, under his or her care, to go upon any sidewalk in the town, so as to interfere with the convenient use of the same by all passengers, or behave himself in a rude or disorderly manner, or use any indecent, profane, or insulting language, in any public place in the town, or near any dwelling-house, or other building, therein, or be, or remain upon any sidewalk, or upon any doorstep, portico, or other projection of any house or other building,

* Section thirty-four not approved by the Superior Court.

not his own, to the annoyance or disturbance of any person, or by any noise, gestures, or other means, wantonly and designedly frighten any horse in any street, or other public place in the town, or shall throw stones, snowballs, sticks or other missiles, or kick at football, or play at any game in which a ball is used, or fly any kites, or balloons, in any of the public ways in the town, shall forfeit and pay for each offence, not less than five dollars, and not more than twenty dollars.

SEC. 38. Whoever shall stand in any public way, in such a manner as to obstruct a free passage for passengers, or shall make any bonfire, in any public way or public place in the town, shall forfeit and pay for each offence, not less than five dollars, and not more than twenty dollars.

SEC. 39. Whoever shall shoot with, or use a bow and arrow, in any of the public ways of the town, or shall place or cause to be placed upon any public way, footpath, or sidewalk, within the town, any lumber, iron, coal, trunks, bales, boxes, crates, casks, barrels, packages or other things, or shall otherwise obstruct such way by placing things therein, for more than one hour, or more than ten minutes after being notified by a Constable, Police Officer, or the Selectmen, or shall lay, throw, or place, or cause to be laid, thrown or placed, any ice or snow into any street within the town, unless the same be broken into small pieces, and spread evenly on the surface of such street, shall forfeit and pay not less than two, nor more than five dollars for every offence.

ARTICLE IX. — HAY SCALES.

SEC. 40. The Selectmen shall appoint, for a term not exceeding one year, a Superintendent of the hay-scales belonging to the town; who may, at any time, be removed from office by the Selectmen.

SEC. 41. In case of temporary absence, or inability properly to perform the duties of his office, the Superintend-

ent shall at his own expense procure a substitute to perform such duties, who shall be approved by the Selectmen, and be removed at their pleasure.

SEC. 42. It shall be the duty of the Superintendent to weigh all the hay and other articles, which may be offered to be weighed, subject to such rules and regulations as shall be established by the Selectmen, concerning the scales and the fees for weighing. .

ARTICLE X. — FIRE DEPARTMENT.

SEC. 43. Until otherwise provided, there shall be one Engine Company, and one Hose Company, and one Hook and Ladder Company. No person shall be appointed a member of either of said Companies, except he is eighteen years of age, and a resident in the town; nor shall any one be appointed for a less term than three months.

SEC. 44. Each Company shall have a Foreman, an Assistant Foreman, and a Clerk, who shall be chosen by each Company annually, at a meeting to be held in May; subject to the approval of the Board of Engineers.

SEC. 45. It shall be the duty of the Foreman to see that the engines and apparatus and engine-houses are all kept neat, clean, and in order for immediate use, and to preserve order and discipline at all times in the Companies.

SEC. 46. It shall be the duty of the Clerk to keep a record (in a book to be provided by the Engineers) of the names of all the officers and members of the Companies, specifying the times of appointment, discharge, and age of each member, and the absence of each from all fires in this town, and from the monthly meetings, provided for in the forty-eighth section; and also a full account of the town property in charge of the Companies. This book to be always subject to the control and inspection of the Engineers, and to be actually submitted to their inspection some time in the months of January and July in each year. In the course of the same months, the

Clerk is to deliver to the Town Treasurer a certified list of the officers and members of the Companies, specifying the number of times (if any) each officer or member has absented himself as aforesaid.

SEC. 47. Each Company shall perform all duties by law required to be performed by engine-men, and shall use their endeavors, in as orderly and quiet a manner as possible, to extinguish all fires which may break out in this town. And in no instance shall the engines or apparatus leave the town, without the consent of one or more of the Engineers of the town.

SEC. 48. On the return of the apparatus from the fire, the same shall be well and securely taken care of; and once a month the Companies shall meet, for the purpose of examining the state of the engines and apparatus, and see that the same are in good repair, and ready for use.

SEC. 49. The officers and members shall quarterly receive from the Town Treasurer, in full for their services, such compensation as the Selectmen may, from time to time, by vote determine. Provided, that no member not appointed as provided in the forty-third section, and no officer not approved as provided in the forty-fourth section, shall receive any portion of such compensation.

SEC. 50. No claims whatever on account of said Company, its members or officers, shall be paid by the Town Treasurer, except the compensation provided for in the forty-ninth section.

SEC. 51. The members of the Companies are not to meet in their respective houses for any purpose except those properly and reasonably connected with their duty as firemen, unless by permission of the Board of Engineers; and no distilled or fermented liquors shall be used at any meeting whatever, which shall be held in the engine-houses. At any time, when, in the judgment of the Selectmen, the public good will be advanced thereby, they may dismiss from the

service all or any portion of the Companies, their officers or members.

SEC. 52. Whoever shall take away, or caused to be removed, from any engine-house or other buildings in this town, or in any way interfere with any Fire Engine, Hose Carriage, Ladder Carriage, or any Hooks, Ladders, Hose or other apparatus for extinguishing fires, or connected with any Engine Company, (said property belonging to this town,) without the consent of the Engineers or officers of any Engine Company, or members thereof duly authorized, or one of the Selectmen of the town, shall forfeit and pay not less than five dollars, nor more than twenty dollars for each offence, to be paid into the treasury of the town.

SEC. 53. Whoever shall maliciously enter into any of the buildings belonging to this town, which are used for engine-houses or the storage of apparatus connected with extinguishing fires, without the consent of the Engineers or officers of any Engine Company, shall forfeit and pay not less than five dollars, nor more than twenty dollars, for each offence, to be paid into the treasury of the town.

ARTICLE XI.—PUBLIC SCHOOLS.

SEC. 54. Habitual truants and children between the ages of seven and fifteen years wandering about in the streets and public places of this town, having no lawful occupation or business, not attending school, and growing up in ignorance, shall be punished by a fine not exceeding twenty dollars, or by commitment to any institution of instruction, house of reformation, or suitable situation, provided for the purpose under the authority of the first section of chapter 262 of the Acts of the year 1873.

SEC. 55. The School Committee shall annually appoint two or more Truant-officers whose duty it shall be to report all cases coming to their knowledge of habitual truancy, and of children found wandering in the streets as aforesaid, to

the parents or guardians of the children found offending; and in case such children so reported are again found violating this by-law, to make complaint thereof before a court or magistrate having jurisdiction of the offence. They shall also inquire diligently concerning all persons between the ages aforesaid, who seem to be idle or vagrant; or who, whether employed or unemployed, appear to be growing up in ignorance, and enter a complaint against any one violating section fifty-four of this by-law. Before making complaint against any child, the Truant-officers shall notify the child and its parents or guardian of the penalty of the offence.

SEC. 56. Every child before being admitted into any public school in this town, shall present to the teacher a certificate from some physician, or from its parents, or guardians, that he or she has been properly vaccinated. No child shall be allowed to attend school who has not been properly vaccinated.

ARTICLE XII.—PUBLIC HEALTH.

SEC. 57. It shall be the duty of the Board of Health to be vigilant and active in protecting the public health; to see that the laws and ordinances in relation to the same are enforced; to communicate their views to the Board of Selectmen from time to time as they may deem expedient; and they shall have power to call upon the police and the various town officers to aid them in the performance of these duties.

SEC. 58. The Board of Health shall make all contracts and regulations for the cleaning of cesspools, vaults, and privies, and the collection of house offal, and the employment of laborers required therefor; provided, however, that the expenditure for the purposes herein enumerated shall not exceed the amount previously appropriated therefor by the town; and all contracts for such work shall contain the condition that they shall be performed to the satisfaction of the Board of Health.

SEC. 59. The Board of Health shall organize annually by choice of one of their members as chairman. The said board shall also appoint a secretary, whose duty it shall be to have charge of the records of the board.

SEC. 60. The board shall annually, on or before the 7th day of February, send to the Selectmen an estimate, in detail, of the appropriations required by the Health Department during the next financial year. All bills for expenditures from the appropriations for the Health Department shall be drawn for by the chairman of the board, and examined by the Selectmen, before they are paid by the Town Treasurer.

SEC. 61. The Board of Health shall annually, in the month of February, present to the town a report made up to and including the last day of the preceding January, containing a full and comprehensive statement of the acts of the board during the year, and a review of the sanitary condition of the town.

SEC. 62. Whenever the board sells any article or materials belonging to the town, or does, or causes to be done, work for any individual, they shall enter, in books to be kept for that purpose, all such sales and work done, with the price thereof, and shall forthwith make out bills for the same and deliver them to the Town Treasurer for collection, and the Treasurer shall forthwith demand payment of the said bills; and in case any bills or dues under this by-law remain unpaid at the expiration of thirty days after demand for payment as aforesaid, the Treasurer shall deliver the same to the Board of Selectmen for legal proceedings; but if the Selectmen are satisfied that the interests of the town require it, they may cause legal proceedings to be had at any time.

SEC. 63. The Board of Health may give licenses for burials, and for the removal of dead bodies from the town, and point out the place, depth, width and range of all graves in the several burying-grounds, and shall forbid graves to be dug within those limits in such grounds, in which, in its

judgment, it would be dangerous to the public health to allow graves.

SEC. 64. No person shall bury, or inter, or cause to be buried or interred, any dead body, in violation of any direction or order of the board, given in accordance with the preceding section, or without having first obtained a license so to do.

SEC. 65. No person shall inter, or caused to be interred, any dead body in a grave less than three feet deep, from the surface of the ground surrounding the grave to the top of the coffin.

SEC. 66. On the first Monday of February annually, or within ten days thereafter, the Board of Health shall appoint for a period of one year, from the first Monday of April in the year in which they may be appointed, such a number of funeral undertakers as may be deemed expedient, and they shall be responsible for the decent, orderly, and faithful management of the funerals undertaken by them, and for a strict compliance with the ordinances of the town in this behalf. Each undertaker may employ porters, of a discreet and sober character, to assist him, and he shall be accountable for their conduct; said undertakers and porters may be removed at the pleasure of the board. No person not appointed as aforesaid shall open any tomb or grave for the purpose of depositing or removing any dead body, without the permission of the Board of Health.

SEC. 67. No person shall bury or inter, or cause to be buried or interred, any dead body at any other time of the day than between sunrising and sunsetting, except when otherwise permitted by the Board of Health.

SEC. 68. The Board of Health is authorized to make and adopt any regulations in relation to the interment of the dead which they may deem expedient.

SEC. 69. In order to abate a nuisance the Board of Selectmen, with the approval of the Board of Health, is authorized

to permit, under such restrictions, not inconsistent with existing by-laws of the town in relation thereto, and on payment of such sum as they may deem expedient, the construction of sufficient passage-ways or conduits under ground for the purpose of conveying the contents of any vault, privy, or wet lands into any common sewer or drain.

SEC. 70. If the Board of Health shall at any time be satisfied that any tenement, used as a dwelling-house, is not provided with a suitable privy, vault, and drain, or either of them, as aforesaid, they shall give notice in writing to the owner, agent, occupant, or other person having the care thereof; and in case of neglect or refusal to obey such notice the Board of Health shall cause such privy, vault, and drain to be made for such tenement or other building, at the expense of such owner, agent, occupant, or other person; and in case any such drain, vault, or privy is constructed as aforesaid, for the use of more than one house, then the owner, agent, occupant, or other person having the charge of each of such houses, shall be liable to pay a proportional part of such expense.

SEC. 71. Whenever any vault, privy, or drain becomes offensive or obstructed, the same shall be cleansed and made free, and the owner, agent, occupant, or other person having charge of the land in which any vault, privy, or drain is situated, the state or condition of which is in violation of the provisions of this ordinance, shall remove, cleanse, alter, amend, or repair the same within such reasonable time, after notice in writing to that effect given by the Board of Health, as shall be expressed in such notice. In case of neglect or refusal so to do, the Board of Health may cause the same to be removed, altered, amended, or repaired, as they may deem expedient, at the expense of the owner, agent, occupant or other person as aforesaid.

SEC. 72. No cesspool, vault, or privy situated within one hundred feet of any town-way or public building shall be

emptied in any other mode, or at any other time, than the Board of Health may direct and appoint, subject to such regulations as the board from time to time shall make on the subject, and always at the expense of the owner, agent occupant, or other person having charge of the tenement in which such vault is situated.

SEC. 73. Books, in which shall be entered all applications for opening and cleansing vaults, shall be kept in convenient places under the charge of the Chief of Police; such applications shall specify the number of loads, if less than the whole contents of the vault, to be removed; and they shall receive attention in the order in which they are made, so far as practicable.

SEC. 74. All house offal, whether consisting of animal or vegetable substances, shall be placed in suitable vessels, and no ashes or other refuse matter shall be mingled therewith; and the same shall be kept in some convenient place, to be taken away by the town scavengers, which shall be done as often as once in each week.

SEC. 75. No person shall remove, or carry in, or through, any of the streets, squares, courts, lanes, avenues, places, or alleys within the town of Brookline any house dirt or house offal, either animal or vegetable, or any grease or bones, or any refuse substances from any of the dwelling-houses or other places in the town, unless such person so removing or carrying the same, and the mode in which the same may be removed or carried, shall have been expressly licensed by the Board of Health, upon such terms and conditions as they may deem the health and interest of the town require. But all the ashes and cinders made from steam engines, or steam boilers, forges or furnaces, used for mechanical purposes, shall be removed at the expense of the parties occupying the building, or the owner thereof, and at such times, and in such manner, as the Board of Health may direct.

SEC. 76. No person shall drive, or cause to be driven, any cart or wagon containing night-soil, or any cart or wagon

used for that purpose, through any public way in the town, between the hours of four A. M. and nine P. M., nor permit any such wagon or cart to stand between said hours, in any street, lane or alley in said town.

SEC. 77. No person shall keep any swine within a distance of fifty feet of any public way or place, or within a distance of one hundred feet of any dwelling-house not his own, or within a distance of twenty-five feet of his own dwelling-house, without a permit from the Selectmen previously obtained.

SEC. 78. No person shall put or suffer to accumulate on his premises any refuse, animal or vegetable matter, rubbish or filth, whereby any offensive or noxious stench or effluvia shall be created, and the health or comfort of the citizens be injuriously affected, or shall throw any such substances into the streams or brooks of the town, not laid out by the town as common sewers, or shall allow the contents of any vault, or house-drain, or the refuse of manufacturing or slaughtering process, to drain into such streams or brooks.

SEC. 79. No person shall throw or suffer to fall into any common sewer in the town, or into any inlet of the same, any dead animals, stones, bricks, sticks, or other substances likely to obstruct the flow of water in the same, and no person shall allow his vault or house-drain to drain into any sewer, without first obtaining from the proper authorities the permission so to do.

SEC. 80. No person, without the license of the Board of Health, shall throw into, or leave in, or upon, any street, court, square, lane, alley, public square, public enclosure, vacant lot, or any pond or body of water within the limits of the town, any dead animal, dirt, sawdust, soot, ashes, cinders, shavings, hair, shreds, manure, oyster, clam or lobster shells, waste water, rubbish or filth of any kind, or any refuse animal or vegetable matter whatsoever. Nor shall any person throw into, or leave in, or upon, flats or

tide water within the jurisdiction of the town, any dead animal, or other foul or offensive matter.

SEC. 81. If any of the substances mentioned in the preceding section shall be thrown or carried from any house, ware-house, shop, cellar, yard, or other place, or left in any of the places specified in the preceding section, the owner and occupant of such house, warehouse, shop, cellar, yard, or other place as aforesaid, and the person who actually threw, carried, or left the same, or who caused the same to be thrown, carried, or left, shall severally be held liable for such violation of this ordinance; and all such substances shall be removed from the place where they have been so thrown or left, as aforesaid, by such owner or occupant, or other person, within two hours after personal notice, in writing, to that effect, given by the Board of Health or any police officer; or such removal shall be made under the direction of said Board or its officers, and the expense thereof borne by such owner or occupant.

SEC. 82. All dirt, sawdust, soot, ashes, cinders, shavings, hair, shreds, manure, oyster, clam or lobster shells, waste water, or any animal or vegetable substance, rubbish or filth, of any kind, in any house, warehouse, or other building, cellar, yard, unaccepted street, alley-way, or other place which the Board of Health may deem injurious to the health of the town shall be removed by the owner or occupant of such house, warehouse, other building, cellar, yard, unaccepted street, alley-way, or other place where the same may be found, within twenty-four hours, or such other time as the Board of Health may deem reasonable, after notice in writing to that effect, or such removal shall be made under the direction of the Board of Health, and the expense thereof borne by such owner or occupant, who shall also be liable to a penalty.

SEC. 83. No person shall beat or shake any carpets within one hundred feet of any public way or place, or

within one hundred feet of any dwelling-house not his own, or in any places so that the dust from such carpets shall injure any person in any dwelling-house or upon any public way or place.

SEC. 84. No person shall bring into town, any decayed or damaged grain, rice, coffee, fruit, potatoes, or other vegetable product, or any tainted or damaged meat or fish, without a permit therefor, from and in such a manner only as directed by the Board of Health.

SEC. 85. The Board of Health shall have charge of any buildings which are or may be established within the town limits, for the admission of patients having the small-pox, or any other infectious disease; and they shall make such rules and regulations for the management and government of the patients and employés as they may deem proper and necessary. And the board shall carefully guard against the introduction of any cases of infectious disease into any other buildings under their charge than those appropriated for that purpose by the town.

SEC. 86. All notices issued by the Board of Health shall be served personally upon the owner or occupant, or their authorized agent, by any police officer or person competent to serve a notice in a civil suit, or it may be left at the owner's, occupant's, or agent's last and usual place of abode, if the same be known and be within the State.

ARTICLE XIII. — MISCELLANEOUS PROVISIONS.

SEC. 87. Whoever posts, affixes, or in any way attaches any poster, handbill, notice, advertisement or placard, or paints, draws, or stamps any letter, notice, figure, advertisement, or marks upon or into, or otherwise defaces any wall, fence, post, tree, building or structure, not his own, within the town of Brookline, without the permission of the owner of said wall, fence, post, tree, building or structure, shall forfeit and pay for each offence a fine of not less than five nor

more than twenty dollars, to be paid into the treasury of said town; and if such posters, handbills, notice, placard, letter, figure, advertisement or marks be obscene, or indecent, the penalty shall not be less than twenty dollars for each offence.

SEC. 88. Whoever shall swim or bathe in any of the waters within or surrounding the town, so as to expose himself to the view of any passenger or other person in any public way, railroad or house within the town, shall forfeit and pay not less than five dollars, and not more than twenty dollars.

SEC. 89. No person shall fire or discharge any gun, fowling-piece, or fire-arm, on or within two hundred feet of any street in the town of Brookline, or on any private grounds, except with the consent of the owner thereof; provided, however, that this by-law shall not apply to the use of such weapons at any military exercise or review, or in the lawful defence of the person, family, or property of any citizen.

SEC. 90. The Board of Selectmen may make, from time to time, such rules and regulations for the government, disposition, and management of the police as they may deem expedient.

ARTICLE XIV. — PROSECUTIONS AND PENALTIES.

SEC. 91. Prosecutions for offences under these by-laws may be made by any constable or police officer of the town.

SEC. 92. Any person who shall violate any provision of these by-laws, or who shall refuse or neglect to obey any order of the Board of Health duly issued under these by-laws, and directed to him and properly served upon him, shall, in cases not otherwise provided for, forfeit and pay for each offence a fine not exceeding twenty dollars.

ARTICLE XV.—ACCOUNTS OF THE TOWN TREASURER.

SEC. 93. The books of the Treasurer shall be kept in such manner and form as shall be prescribed by the Auditors;

and they shall report to the Selectmen any failure to comply with their instructions.

SEC. 94. The Treasurer shall, on the first day of each quarter, notify all officers, boards, committees, and agents of the town, authorized to expend money, or incur indebtedness on account of the town, of the balances of the appropriations against which they are authorized to draw, to the end that no debt shall be contracted in excess of such appropriations.

ARTICLE XVI. — CARRIAGE-STANDS.

SEC. 95. No person shall use any portion of any public way in this town as a carriage-stand for the solicitation of passengers for hire, without a license from the Selectmen.

SEC. 96. The Selectmen may grant licenses to use a certain portion of any public way as a carriage-stand, under such terms and conditions as they may prescribe.

ARTICLE XVII. — DEALERS IN JUNK.

SEC. 97. No person shall deal in junk within this town, or go from house to house purchasing or endeavoring to purchase, junk, bottles, bones or grease, without a license from the Selectmen.

ARTICLE XVIII. — REPEAL.

SEC. 98. Upon the approval of the foregoing by-laws by the Superior Court, all by-laws heretofore existing, except the by-laws relating to the Public Library, shall be annulled and repealed.

A true copy of the By-Laws made by the Town of Brookline, April 4th, 1881.

Attest:

B. F. BAKER,
Clerk of the Town of Brookline.

NORFOLK, ss.

SUPERIOR COURT.

Approved, except Section thirty-four, which is not approved, July 28, 1881.

WALDO COLBURN,
Justice of the Superior Court.

A true copy of By-Laws as approved and recorded.

ERASTUS WORTHINGTON, *Clerk.*

REPORT

ON THE

REMOVAL OF THE PUMPING STATION

AND OTHER WORK CONNECTED WITH THE

BROOKLINE WATER SUPPLY,

PRESENTED BY THE

SPECIAL COMMITTEE

AND

CONSULTING ENGINEERS.

AS AUTHORIZED BY THE TOWN, JUNE 11, 1879.

7

BROOKLINE:

PRESS OF T. R. MARVIN & SON.

1880.

REPORT.

AT the special town meeting holden Oct. 10, 1878, the third article of the warrant, viz., "To see if the town will examine the cause of the alleged impurity of the water supply," being under consideration, it was "*Voted*, That the subject-matter of this article be referred to a Committee consisting of Messrs. Henry M. Whitney, Willard A. Humphrey, William H. Lincoln, and the Water Board, with a request that they report at the next annual meeting the full extent of the difficulty, and the best way to remedy it, and the cost of doing it; and that the Committee have power to consult experts."

Pursuant to this vote, the Committee appointed submitted a report to the town at the annual meeting in March, 1879, with estimates, and letters bearing upon the subject, and recommended the passing of the following vote: "That the sum of \$35,000 be appropriated for moving the Pumping Station to Cow Island, including new house for engineer, new relief engine and force main to connect with the force main at the present location of the Pumping Station."

At the conclusion of a lengthy discussion upon the Report, in the same meeting, without action upon the above motion, the town passed the following vote:—"That the Report be

referred back to the Committee, with instructions to secure engineering advice other than that of those whom they have already consulted; and that the sum of five hundred (\$500) dollars be appropriated for that purpose." In accordance with this vote, the Committee, after careful enquiry and correspondence, secured the services of General George S. Greene, of New York, former President of the Society of Engineers, whose report was submitted to the town in print, at a special town meeting held June 11th, 1879, and at the same meeting the following vote was passed:—" *Voted*, That the sum of \$35,000 be appropriated for moving the Pumping Station to Cow Island, including new house for engineer, new relief engine and force main, to connect with the force main at the present location of the Pumping Station, and the other items included in the proposition of Messrs. Shedd & Sawyer, dated April 29, 1879, and that this sum be borrowed upon the notes of the town, to be denominated 'Brookline Water Scrip,' and that the sum of \$971.71 be appropriated from the taxes of the present year for a sinking fund for the payment of the water scrip, the issue of which is, or has been authorized the present year, as by law provided; and that the work be done under the direction of the Committee on Water Supply, with Messrs. Shedd & Sawyer as consulting and superintending engineers."

The work contemplated by the foregoing vote having been completed, with the exception of some minor matters to which reference is made hereafter, the Committee would respectfully submit their report, together with the report of the consulting engineers.

Immediately after the adjournment of town meeting, noticed above as of June 11, the Committee organized by the choice of Mr. Henry M. Whitney, Chairman, and Mr. F. Hunnewell, Secretary.

Messrs. Shedd & Sawyer, engineers, were notified of the action of the town, and called upon for plans and specifications of the work proposed, in accordance with their report to the Committee, under date of March 15 and 29, and which has also been submitted to the town in a former report.

From the site selected for the location of the new Pumping Station to the point where the main would meet the present line of conduit, it was necessary to pass over a short piece of land owned by Mr. N. M. Morrison. This right of way was obtained by the payment of one hundred (\$100) dollars, and some accommodations in relation to the use of water for his own domestic purposes, with a release of damages and conveyance of the right to maintain the conduit, and to enter for any purpose connected therewith.

Letters were addressed to several parties, soliciting bids for the 16-inch main, which resulted in closing a contract with Messrs. R. D. Wood & Co., of Philadelphia, for three thousand feet of 16-inch iron pipe, at $\$25\frac{70}{100}$ per ton of 2240 lbs., delivered at the Spring Street Station on the Dedham branch of the Boston & Providence Railroad.

It was decided by the Committee, as there was to be a superintendent upon the ground all the time, night as well as day, that all the material to be used in the pump well, screen chamber, filter gallery and foundations for engine house, should be purchased by them, and the work done by the day, with the exception of laying the stone foundations of the house and for foundations of the arch of the filter gallery, which was contracted for by the perch.

In pursuance of this decision, contracts for materials were made as follows: Sixty thousand bricks, at $\$8\frac{45}{100}$ per M; five hundred casks of cement, at $\$1\frac{20}{100}$ per cask; 320 perch of stones, at $\$1\frac{55}{100}$ per perch, and the necessary lumber, at

\$14 $\frac{25}{100}$ per M, all to be delivered on the ground—a schedule of which may be found in the appendix of this Report.

A contract was entered into with Felix Johnson, Sen'r., he giving the lowest figures for the same, for laying all the stone foundations in filter gallery, and for the engine house, as specified, for \$1.00 per perch; a slight concession to which price was subsequently made for the stone laid in the filter gallery. And in view of many delays and difficulties he had necessarily to encounter, it is but just that special mention should be made of the *substantial* and *faithful character* of this important portion of the work.

At the request of the Committee, propositions were submitted by Messrs. H. R. Worthington and Wm. E. Worthen, of New York, for the new *relief engine*. Each appeared before the Committee to explain the peculiar advantages of their respective pump, neither of which could be furnished for a less sum than three thousand (\$3,000) dollars.

But owing to the fact that it was thought desirable the two engines should be similar in construction, and as the engine (Worthington) now in use had given, from the day it was put to work to the present time, the most unqualified satisfaction, it was decided to execute a contract for a Worthington pumping engine capable of pumping one million gallons in twenty-four hours, for the sum of three thousand (\$3,000) dollars, substantially as set forth in his proposition on file, under date of July 16, 1879.

Three propositions were submitted for furnishing the new boiler, viz.: Messrs. Kendall & Roberts, and Cunningham Iron Works, and the Whittier Machine Co., and the contract was awarded Messrs. Kendall & Roberts, for the sum of \$848.00, this being the lowest bid, which provided for its being delivered upon the ground at the new Pumping Station.

In the meantime the labor was pushed forward at Cow Island, — clearing up the ground, constructing the new roadway from the line of Morrison's land to the site of the building, and excavating for the pump-well and the screen chamber.

The dimensions of the excavation for the pump-well were 31 feet in length, 19 feet in width, and 18 feet in depth; and for screen chamber, 11 feet in length, 9 feet in width, and 17 feet in depth. After sinking about ten feet, water was met in large quantities, and one of the portable engines was started up to drain the ditch. The digging was through coarse, clean gravel the entire distance, and the work rapidly done, using sheet piling to confine the gravel at each side and end.

Subsequently, two engines, one pumping at each end of the excavation, were required to keep the water away from the men at work within. On the 26th of July the brick bottom was commenced in the well — laying double rows in cement — and notwithstanding the two pumps at work were raising out of the ditch nearly, if not quite, 1,500 gallons of water per minute, — pumping night and day during just this stage of the work, — yet the work was uninterrupted even for a single hour, and the men and brick were as dry as if at work on the surface. And this was true all through the construction of well and screen chamber, and is worthy of special mention, inasmuch as it assures the perfect adhesion of the cement, making a solid and impenetrable wall of brick and cement, to resist the water when the time should come to let it in. Adjoining the pump-well and connected with it by a brick conduit, in the end of which is the large gate, is the *screen chamber*. These (the pump-well and screen chamber) stand at right angles with the new section of the filter gallery. In the screen chamber are placed the screens, which run in a groove left in the brick

work, and which fall on a stone weir, over which the water must flow in its course from gallery to pump-well. And as this weir is raised several inches above the bottom of the gallery, it acts as a protection against gravel or any other heavy matter getting in to check the flow, or contaminate the water in the well chamber.

While laying up the brickwork in the above, excavations were going on for the new filter gallery to connect in a direct line with the east end of the old galleries. To guard against the large influx of water which retarded the work when the old galleries were constructed in 1874, only small sections of about twenty-five feet in length were opened at a time, with bulkheads in the ends. By this method no difficulty was experienced in keeping the water down, and allowing the masons to prosecute their work in comparative comfort. This gallery, which is $160\frac{1}{2}$ feet long, is laid up with a solid foundation of heavy stone and cement, two feet high and two feet thick, from which the brick arch springs six feet high, and six feet wide at the base, with double rows of brick, which, as will be observed, is two feet higher and two feet wider than the old galleries. It is also built two feet lower, in order to get the pumps as low as the floods of Charles River will admit, and to utilize a lower stratum of water shed. In excavations for this gallery it was necessary to cut through and disconnect the wooden conduit from the old galleries, during which time the water supply to the town was kept up by pumping with one of the portable engines from the new pump-well (which was now completed and covered) into the old conduit below where this break was made.

As may readily be inferred from the above statement, this source was already furnishing a very large supply of water notwithstanding the fact that a second engine was exhausting

the water from the excavation at the western end of the new gallery but 150 feet away: and on the 7th of August, at noon, the following comparative temperature was taken:— Atmosphere, 74° ; water of Charles River two feet below the surface, 81° ; water in old filter gallery, 50° ; water in new pump well, 49° Fahrenheit.

In making connection with the old gallery, a portion of the man-hole and a few feet of the gallery had to be taken down and relaid, first, in order to make the connection strong, and also because the brick-work was found to be in a rather rough condition, as though it had either been put up in great haste, or the foundation had been in some way disturbed.

On the 9th of September digging was begun for the 16-inch main, which had now arrived on the ground, commencing with the end nearest the new station. By the courtesy of Mr. Jones, Superintendent of the Eastern Division of the Cochituate Water Works, a caulker from the Boston force was engaged to assist the one connected with our own works in making the lead joints of the new main. Connection was made with the old Pumping Station on the 3d of October.

As a demand was made by the water takers of the town, that the new source of supply should be utilized at as early an hour as possible, it was the purpose of the Committee, immediately upon the completion of laying the main, to place a temporary pump over the new *pump well*, and force the water through to the old station.

But a better and a more economical plan was suggested by our engineer, Mr. Flynn, which was, to make a suction pipe of the new main, and with our engine at the old station, draw the water from the new gallery.

This plan receiving the endorsement of our consulting engineers, was adopted; and on the 8th of October water

was delivered to the town, from the new pump well, through the new main, and the old wooden flume forever abandoned.

On the 27th of September, the bids were opened for furnishing material above foundations, and building the new Pumping Station, in accordance with plans and specifications, furnished by the engineers. Four bids were submitted as follows:—Horace James, eight thousand (\$8,000) dollars. Jos. W. Coburn & Co., seventy-seven hundred and eighty-four (\$7,784) dollars. J. M. Russell, seventy-seven hundred and fifty (\$7,750) dollars. Felix Johnson, Jr., sixty-three hundred and seventy-five (\$6,375) dollars.

Subsequently, the latter bid was withdrawn, and the contract given to J. M. Russell, a proper bond being furnished satisfactory to the Committee, and the work was begun on the 13th of October.

Owing to the fact that with the pump in the old location, it was unable to draw the water down in the old filter galleries, to a lower depth than about $2\frac{1}{2}$ feet even in the driest times, leaving an open space of only about 18 inches, it has been impossible for the Water Commissioners to enter them, for the purpose of inspection or repair, until the completion of the new gallery, which, being 2 feet lower, would allow the others to be drained into it. Even the assistant engineer on the works at the time they were constructed, and whose duty it was to inspect the work as it progressed, admits that he never entered the galleries after they were completed; and, owing to the small space and the amount of water, did not deem them safe to enter. He could only inspect them so far as a lantern could throw its dim light into them, from a man-hole or other opening. With the water drawn nearly out of these galleries as described, an inspection was thought essential by the Committee, and a man, with lantern, was started at the

man-hole at the intersection of the old with the new gallery, going through the eastern section, 271 feet, of the old gallery, finding the brick work and foundation in tolerable condition. Between this and connecting the western section, is a wooden flume, like the one across the meadow, 389 feet long. Entering the man-hole again at the east end of the western section, the inspector was confronted within twenty feet, with an impassable barrier, and was obliged to return. Men were immediately put to digging to uncover the gallery; they soon encountered pieces of old plank, broken Akron pipe and large quantities of brush, tumbled in as if in great haste, and under all lay the bricks of the fallen arch.

The Committee have endeavored to find the party responsible for this gross fraud, but without satisfactory results. The Board of Water Commissioners having in charge the construction of the works, the engineer-in-chief, the contractors, foreman and inspector, deny any knowledge upon the subject. The work of repairing this break, coming more properly under the charge of the Water Board, was immediately taken in hand by them, the debris removed, and the arch firmly replaced. A man-hole, which seemed to be of prime necessity, was built at the extreme end of this, the western gallery, which now leaves all the galleries in good shape for any future inspection.

This completed all the work below the grade, about the new station, except some finishing touches upon the drive-way, which must necessarily be left until frost is out of the ground in the spring. And at this point it may be of interest to refer to the fact, that all the materials used were contracted for at the lowest figure of cost they have touched for many years, if ever before, in this country; and again, from the time ground was broken for the new pump-well in June,

until the foundations for the station were in, and the 3,000 feet of 16-inch main laid and connected at the old station, October 3d, the work was impeded less than forty-eight hours, by inclement weather, or any other casualty.

Reference has been made to the intermediate conduit, which is a wooden flume connecting the two sections of galleries, laid across a piece of land 389 feet in length, of a marshy nature. While we think the leakage of swamp water into the conduit is very slight, yet your Committee regard it within the range of their duty to suggest that, at no very distant day, a gallery similar in size and construction to the one just completed, be substituted for this flume, connecting the other galleries, and thus remove the only possible source by which our water supply can receive the least contamination.

In January, 1880, the relief engine was connected with the boilers now in position, and the building ready to receive the finishing touches on the inside.

As soon as the proper connections with the boiler and force main could be made, the *new Relief Engine* was put in service, and the old engine and boiler disconnected and got ready for removal to their new positions.

The *new pump*, as will be noted by the terms of the contract with H. R. Worthington, (its maker,) was assured a pumping capacity at the rate of one million gallons in twenty-four hours; but it has proved upon trial for many consecutive days, capable of pumping at the rate of one and two-thirds millions of gallons for the twenty-four hours, with a stroke of 160 to the minute, and running with perfect smoothness. As an element of assured safety, in case of accident to the larger pump, the value and importance of the addition of this relief pump to the town's water supply, can scarcely be overestimated.

During the month of January, 1880, bids were solicited, and three were obtained, for rebuilding the engineer's residence, in accordance with plans and specifications furnished by the engineers, Messrs. Shedd & Sawyer, using the material, as far as practicable, from the old pumping station.

But on opening the bids, and after a very careful consideration of the whole matter, it was deemed advisable by your Committee to postpone further action on this building, in main, for the following reasons:—First,—All the bids were considerably above the figures at which it was originally calculated the work could be done for. Second,—As all the outstanding bills on the work were not on file, it could not then be determined just what portion of the appropriation could be used for this purpose. Third,—With the view of modifying the plans somewhat, to reduce the cost, and with the hope that the work may be done for less the coming season.

Save the construction of this building, the setting up and connecting the old engine and boiler, all the important work, the supervision of which was entrusted to your Committee, is complete. And it must appear that the points attained by the undertaking, namely: an ample water supply, under any contingency likely to occur, and that, too, for many years to come, and of a quality unsurpassed for its purity, more than compensate for the liberal outlay the town has incurred.

FRANCIS HUNNEWELL.

Special Committee on Water.

SUPPLEMENTARY REPORT.

THE members of the Committee, not members of the Water Board, beg to call the attention of the town to the following vote, passed June 11, 1879, as follows, viz :

Voted, "That with a view to their compensation, the said Committee be requested to keep a record of their meetings, and of the attendance of the several members, and the time spent by the several members in this service of the town,"

The details of the work have been performed by the members of the Water Board. It has required very constant attention by some member of the Board throughout the entire progress of the work, and will continue to do so until all is completed, and in our opinion, the work has been performed with great fidelity to the trust, and with good judgment.

We think the sum of Fifteen Hundred Dollars should be appropriated as the compensation contemplated by the above vote of the town, and recommend the passage of the following vote : —

" *Voted*, That the sum of Fifteen Hundred (\$1,500) Dollars be appropriated as compensation to the members of the Water Board for their services in attending to the repairs of the water works."

The Committee furthermore ask, as all the most important work has been completed, that the finishing be left with the Water Board, under the supervision of the present engineers, and that they (the undersigned) be discharged from further duty.

HENRY M. WHITNEY,
WILLARD A. HUMPHREY,
WILLIAM H. LINCOLN.

REPORT OF THE ENGINEERS.

PROVIDENCE, March 23, 1880.

MESSRS. WHITNEY, LINCOLN, HUMPHREY, WHYTE, HUNNEWELL and GRIGGS, Special Committee on Water Works of the Town of Brookline.

GENTLEMEN: We make herewith a report of progress of the work upon the New Pumping Station, in accordance with your request.

Water was supplied from the new gallery to the town reservoir, through the old engine, on the ninth day of last October, at which time all contamination by swamp water ceased. Since then, the supply of pure water to the town has been uninterrupted. This supply was accomplished by connecting the new line of 16-inch iron pipe, which had been laid across the swamp for the future force main, temporarily with the engine, to use as a suction pipe, and extending the other end into the new pump-well on Cow Island, which received its water from the new gallery. This suction pipe was about 2,900 feet long. It had a check valve in the pump-well and an air chamber about 15 feet high near the engine. By connecting this air chamber with the air pump of the engine, so that the surplus air relieved from the water at every stroke of the engine could be drawn off at pleasure, this enormous suction pipe—unprecedented, so far as we

know, for size and length — was made to work very satisfactorily in its temporary use. Mr. Flinn is entitled to credit for his clever management of this pipe in his daily pumping.

The new engine, erected at the new station on Cow Island, began pumping into the town reservoir on the sixteenth of February, forcing the water through the old engine until the afternoon of the twentieth, when the reservoir, which had lowered during the four days required to connect the new engine, was sufficiently filled. The old engine was then disconnected and the new force main was laid by the old station and connected with the old force main.

Pumping into the reservoir through the completed force main was begun on the first of March.

The old engine and boiler are in process of removal from the old station to the new.

The difficult and dangerous work, including the new gallery, screen-chamber, pump-well, force-main and connections, and engine house with foundations, is completed.

It remains to remove and place the old engine and boiler in position at the new station, and connect them with the other work ; to finish the engine house ; and build a dwelling house for the engineer.

The work on the ground at Cow Island was begun on July 1, 1879, by a few men who cleared the ground and opened a temporary road. The regular gang of laborers for the work of construction was organized on July 9 ; and after that time the work went regularly forward. When the excavation for the pump-well was started, July 21, the gang numbered forty men.

The original surface of the ground above the pump-well was at about elevation 87.00 above mean high water of Boston Harbor. The first four feet of depth was through loam and a mixture of sand and loam. The next three feet in depth was

fine, dry sand. At this depth sharp wet gravel was struck, and pumps were needed to keep down the water. The excavation was continued through the sharp gravel to elevation 70.00. At this depth two steam pumps were required, and they discharged by estimate 700 gallons of water per minute.

The brick-work was begun July 28, and the pumps were run day and night until the brick-work was completed and firmly set.

The pump-well has an egg-shaped section, large end down, and is 6 feet wide and 7 feet high in the clear, with 12 inch thickness of walls. It is 26 feet long inside. Its axis is 7 feet inside the inner face of the front wall of the engine house. Two elliptic brick shafts, 6 feet by 4 feet across, rise from the well to accommodate the suction pipes for the two engines. A sump, to facilitate clearing the well of water, has a shaft over it for access to the pipes used for feeding the boilers and charging the engines. The shafts rise to the level of the engine house floor or 89.92 ; the top of the floor being 90.17.

The pump-well is fed through a 2-feet circular conduit connecting with the screen chamber. The low water level in the pump-well is at elevation 73.75 ; the bottom of the well being 71.35.

Two 6-inch iron pipes are set vertically near the south-west corner of the pump-well to serve as gauge pipes. One is connected with the pump-well and the other with the river by small lead pipes. As the water rises or falls in the river or the pump-well, the water will follow in the gauge pipes, and floats with proper rods divided for the purpose, will indicate upon gauges in the engine room the heights at which the water stands.

We have kept records of the height of Charles River during our work and found that the surface fell below what has been

called low water ; on October 27, when it reached 80.30, and on November 3, when it reached 80.20. On December 1, it stood at 80.50 or just low-water level as heretofore assumed.

The conduit is laid in gravel similar to that found in the pump-well except through a pocket or vein of clay about 12 feet across and 4 feet deep. This clay was dug through, at elevation 71.00, and the brick-work laid on gravel. The interior invert of the conduit is at elevation 72.05, and the interior crown 74.05. The length is 25.8 feet.

The conduit is connected to the new gallery through a screen chamber, for which the excavation was carried to 71.00, through material about the same as at the pump-well. The chamber is built of brick, founded upon a plank platform four inches thick, in two layers laid across each other and resting upon 6 x 6 in. cross-timber at each end. The top of the platform is at elevation 71.38. The chamber is four feet in the clear each way, with 20-inch brick walls rising to elevation 87.74 and capped with dressed granite. The granite coping is twelve inches thick, making the top at elevation 88.74. The well is covered within the coping by a hard-pine cover in three pieces, held in place by brass bolts and nuts. Grooves for screens and stop planks are built in the masonry walls and an iron and composition valve, thirty inches in diameter, is set in position to cut off the connection with the conduit. On the opposite side of the chamber a granite weir is set at elevation 73.30, over which all water from the gallery must pass. This weir prevents drawing down the water of the gallery to an extent which would endanger its stability. Above the weir is an arched opening into the gallery, 3 feet wide and 5 feet high, through which men may pass into the gallery when necessary.

The screen chamber, pump shafts, and man-holes to the gallery are provided with cast iron steps built into the masonry for convenience of access to the work.

The excavation for the gallery was begun July 30. The trench was opened 11 feet wide and excavated to elevation 72.00. Water was reached at about 80.00 and was controlled by the steam pumps. The open bottom of the gallery for its whole length, with one or two exceptions, is in a natural bed of clean, sharp gravel. The exception is as follows: two or three springs of boiling sand were found about 80 feet west of the screen chamber, which were excavated to a depth of 3 feet below the bottom of the gallery, and filled with good gravel. This effectually holds the sand back while letting the water pass through freely. The centre line of the gallery is about 50 to 52 feet from the centre line of the engine house, being nearest at the screen chamber.

The bottom width, in the clear, is 6 feet and the height in the middle is 6 feet.

The crown is a brick arch 8 inches thick, turned over stone walls 2 feet thick and 2 feet high, forming side walls. Both stonework and brickwork are laid in cement mortar.

Struts of 6 x 8 in. timber are laid in the bottom, at intervals of 6 feet, and being notched, to pass partly under and partly against the faces of the side walls, serve to aid the walls in resisting a side pressure of the exterior earth. The tops of the struts are level with the finished bottom of the gallery, or at elevation 72.50. The bottom level of the stone side walls is 72.00, or six inches below the bottom of the gallery.

In July the old wooden box conduit leading across the swamp to the pumping station was opened near our work, and the water raised by one of our drainage pumps was turned into it. It was observed that this had the effect to materially increase the quantity and improve the quality of the water received at the old pumping station. The drainage pump was worked whenever the Worthington engine was run, and after

the new pump-well was finished, a temporary well was established to keep the drainage pump supplied. On Sept. 7 a connection was made between the new gallery and the old box conduit, so that the conduit was supplied from the gallery by gravity, and the drainage pump was stopped. While in operation this pump supplied — as an average of several measurements — 350 gallons of water per minute, or about half a million gallons per day.

The junction of the new gallery with the old east gallery was made through an old man-hole. The level of the bottom of the old gallery is 74.50, or two feet higher than the new gallery, and a part of the fall necessary to connect the two could conveniently be made in the man-hole.

When the side of the man-hole was uncovered to make the connection, the brick-work was found to be misshapen, rather loose, and apparently insecure. Adding to this the statement of former employes to the effect that the wooden platform shown upon the plans as underlying the masonry had been left out, and that subsequent attempts had been made by a diver to place a floor in the man-hole, under water, with indifferent success, we were led to doubt the security of the foundations against the flow of water from one gallery to the other, with a fall of two feet in so short a distance, if made according to our original plan based upon the belief that a platform had been constructed. It was not a place where the town could afford risks, and we therefore cut off the old gallery above the man-hole and sunk a puddle wall, faced with sheeting, 5 feet below and 14 feet wider than the old gallery. This, it was believed, together with the barriers at first designed, would secure the work against the passage of sand along the foundations, even in the absence of a platform. As the work progressed, after the cut-off had been made, and the foundation was more com-

pletely uncovered, we had reason to believe that a platform, not quite so large as shown on the plans, had been originally laid under the man-hole and it is possible that the work might have been secure if it had been made according to our first plans and without the cut-off, which cost about \$320. However, the cut-off is an additional security, and perhaps worth making as such, especially as the old masonry was not as sound as anticipated.

The old man-hole had a brick wall running across the gallery and rising half a foot above its bottom, on which stop-planks could be placed to hold back the water of the gallery in case the conduit needed to be emptied. Below this wall was a pit 2 feet deep, 4 feet long and 3 feet wide, into which the water from the gallery fell after passing over the wall.

The bottom of the pit was intended to be at elevation 73.00, and was found to be 5 or 6 inches lower. The bottom of the conduit connecting with the pit was at elevation 75.00. We removed the conduit and cut down the walls so as to make a weir with rounded surface faced with stoneware at elevation 74.00. Below this weir we drove strut piling quite across the work, and about 6 feet deep.

Beyond this a stone wall was laid across the work, 2 feet wide and 2 feet deep, having its surface at elevation 73.50. Beyond this a broken stone bottom for the new gallery was laid, beginning 2 feet thick and running to half a foot thick in 8 feet distance; the surface being at elevation 73.50 next the wall and falling to 72.50 where it joined the general gravel bottom of the new gallery. A stop-plank of any desired height can be maintained in the man-hole to hold back the water of the old gallery at a proper level to prevent injury to that work.

By passing through the construction above described, the surface of the water can fall harmlessly to the level of the new

gallery, and the underground passage is so checked that no injury can be done.

Needed repairs were made to the old man-hole. The plank bottom would neither keep out sand nor water, and a 3-inch layer of cement mortar was spread upon it, after spikes had been thickly driven to make a reliable attachment of the cement to the wood. This made a tight and apparently secure bottom, and as the spikes are entirely encased in wood or cement, they probably will not oxydize. The brick-work was repaired, pointed and plastered with cement to elevation 85.50. The granite coping was dressed into symmetrical form, and the wooden cover replaced by a North River flagging and circular iron cover taken from the old conduit. The whole being raised 16 inches by building up the brick side walls, and set at elevation 88.50. Iron steps were built into the interior walls of the man-hole to facilitate access.

The man-hole at the east end of the west gallery was repaired, pointed and cemented; the granite coping dressed and supplied with a stone and iron cover similar to that on the first man-hole; iron steps set inside, and the whole put in good condition. The cost of the work on both these old man-holes was \$118.37.

West of the first man-hole, for a distance of 10 feet, the old gallery was found to be in bad condition, and it was rebuilt at a cost of \$120.32.

From the condition of the work where it had been exposed, we were led to examine the condition of the interior of the old gallery throughout its length. The earliest convenient opportunity for such examination, on account of the state of the work and consequent height of water in the gallery, was on the first day of November. The water was then held at elevation 76.00 by the Worthington engine, and a workman was sent into

the galleries. He reported for the east gallery: two holes in stone-work on the south side about 50 feet west from the first man-hole; one boiling spring of running sand about 100 feet from the man-hole; two holes on the north side, near the boiling spring; three old cement tubs partially decayed; the arch in fair condition for the whole length; more or less sand was found along the whole bottom. The cement tubs were removed but the defects have not been repaired, for the reason that the Worthington engine in its present location could not hold the water low enough. With the engines in position in the new station we think this can be readily done.

The west gallery was found in fair condition for a distance of 30 feet from the man-holes. At this point the arch had fallen in and a complete barrier to passage existed. The water beyond was dammed up, and flowed over or trickled through the obstruction to a limited extent.

On the third of November the gallery was opened at this point from the surface. It was found that from a point about 35 feet west of the man-hole to a point about 18 feet further west, the arch must have fallen in at the time of construction. Instead of rebuilding this fallen arch, the gap had been filled by laying eight or nine 2-foot lengths of 24-inch Akron stoneware pipe with such degree of continuity as was practicable, and covering them. The sheeting had been left standing. As a protection to the pipes, cross-pieces of 2-inch planks, 8 inches wide, were placed about 6 feet apart and resting on the rangers of the sheeting. On these cross-pieces a platform of sheeting plank 12 to 15 feet long had been laid, running lengthwise of the gallery. Above this platform was a layer of brush about 1 foot deep. Above the brush was another platform made up of shorter pieces of sheeting plank thrown in without order. Upon the double platform thus constructed, the trench

had been back-filled. The cross-pieces were all found broken in the middle and resting on the crushed pieces of stoneware pipe. These breaks in the cross-pieces were old, indicating that the platform had sunk a long time ago, and probably soon after the trench was back-filled. Both ends of the brick arch where standing, were badly pressed out of shape. It was estimated that in the double platform, about 18 feet long and 8 feet wide, there was found 800 feet of lumber.

The effect of this break was to fill the gallery for a length of about 18 feet with debris of brick, broken pipe, lumber and gravel, thus rendering nearly all of the west gallery practically useless as a source of water supply.

The length of the east gallery was 271 feet, and of the west gallery 491 feet, or a total of 762 feet. By the obstruction about 460 feet of the west gallery was cut off.

The break was repaired by building 50 feet of new arch from a point 10 feet west of the man-hole to a point 60 feet west of it.

The remainder of the gallery was examined November 7. Three breaks were found in the stonework, which was generally in very bad condition. These breaks were repaired. One boiling spring about midway of the gallery was found running black mud. Some 150 cubic feet of this mud was taken out and replaced with gravel.

The bottom and sides of the gallery were found coated with a very light and red vegetable matter. This was stirred up and mixed with the water, and so pumped out. 11 feet from the westerly end of the gallery a new brick man-hole was built making it possible for a man to pass through the gallery without being obliged to return to the extreme easterly end to get out. It was covered at elevation 88.00 with a heavy iron man-hole cover without a frame. Steps were built into the inner wall as

in the other man-holes. As the man-hole shaft rose above the natural surface, it was covered and banked about with earth. The cost of the repairs, etc., was paid by the Water Commissioners and amounted to \$305.79. The work was completed November 16, thirteen days after starting.

THE ENGINE HOUSE.

The work on foundations at the new engine house was begun August 13. The pits for the foundations of the engines were excavated to elevation 73.85, and the stonework begun at that level. The last five feet depth of excavation required pumping. One hundred perches of rough granite were laid in cement mortar in the two pits. Three hundred and nineteen perches were laid in the other foundations about the building. All the foundations rest on good, sharp sand and gravel. This work was completed October 16.

The road leading through the station grounds to the building begins at the end of Grove street on N. M. Morrison's land at elevation 126.31. It winds around the side of the hill on an easy curve falling 7.22 per 100 for a distance of 510.5 feet to elevation 89.44 northeasterly from the engine house. Thence by the east front of the building, falling 8 inches per 100 feet, a distance of 119 feet, to elevation 88.64. Thence continuing around the building, rising 8 inches per 100 feet, a distance of 76 feet, to elevation 89.15 southwesterly from the boiler house. Thence parallel with the side of the boiler house, rising 7.22 per 100 until it intersects the line, making a loop enclosing the building. The road is 20 feet wide except that in front of the engine house it is widened to 26 feet. The surface was gravelled when gravel was not found in place. The side slopes of $1\frac{1}{2}$ to 1 are well graded, soiled and seeded.

The total length of road as built is 805.5 feet. A path 10 feet wide leads to the engine house door, and one 8 feet wide leads to the boiler house door.

The work was practically complete on the first of November.

The grounds about the building are well graded and covered with soil, but there remains some work to be done to give the finished effect desired.

SHEDD & SAWYER,
Civil Engineers.

DISBURSEMENTS

FOR

MOVING PUMPING STATION, ETC.

THE following detailed statement exhibits all the payments which have been made to the present time, from the appropriation of \$35,000 which was made by the town :—

July 7,	W. H. Olmstead, Repairs,	16 50
Aug. 11,	T. T. Robinson, Sundries,	6 33
	G. W. Twichell & Co. Belting, etc.	53 50
